Dr. F. Chytil
Southwest Foundation for Research and Education
P. O. Box 2296
San Antonio, Texas 78206

Dear Dr. Chytil;

I thank you for your nice reprints. Both my wife and I were so happy to meet you in San Antonio. I wonder which Dr. Kirsch your uncle was? From Prague? Where do they live now?

The preparation that I am working on now is an isolated Heart-lung, and Heart-lung-liver preparation. If there should be any interest on your part, I would be greatly interested to send you blood specimens etc. We could perhaps correspond about it. I also have some heart, lung and liver transplant work going on in dogs. I hope that we shall meet sometime either over here in Amarillo or somewhere else.

With best regards to your wife from the both of us.

Yours,

Karel B. Absolon, M.D.
