Amarillo, Texas

Vazeny pane doktore,

Odvolavam se na nasi kratkou diskuzi pri nasem nahodnem setkani zde v San Antoniu a dovoluji si Vam zaslati ukazku nek<sup>e</sup>trych mych publikaci. Nejnovější je prace v modre obalce a vysla nedavno v J. Biol. Chem.

Meli jsme vsichni velkou radost, ze jsme Vas a Vasi milou pani poznali. Mimochodem mezitim se ukazalo, ze rodina meho stryce Dr. Kirsche, zijici ted v US dobre znala Vaseho pana otce.

Doufam, ze budeme mit zase prilezitost se videt.

Se srdecnymi pozdravy Vam a Vasi pani

*F. Chytil*

Dear Dr. Chytil:

I thank you for your nice reprints. ~~It was~~ Both my wife and I ~~are~~ were so happy to meet you in St Antonio. I wonder which Dr Kirsch your uncle was? From Prague? Where do they live now. The preparation that I am working on now is an isolated heart-lung, and heart-lung-liver preparation. If there should be any interest on your part, I would be greatly interested to send you blood specimens etc. We could perhaps compound about it. I also have some heart, lung and

liver transplant work going on in dogs.

I hope, that we shall meet sometime either over here in Amarillo or somewhere else.

With best regards to your wife from both of us  
Yours

Dr. Robert R. Johnson  
274 West 10th Street  
Amarillo, Texas

Very truly yours,

Dr. Johnson

and in the meantime a number of the cases are being treated with  
surgery. It is hoped that the work will be completed in the near future.

Very truly yours,  
Dr. Johnson
