

December 20, 1967

Dr. Maurice B. Visscher  
Professor of Physiology  
424 Millard Hall  
Minneapolis, Minn. 55455

Dear Dr. Visscher

I used antihistaminics to see whether they would prevent development of pulmonary edema by the various agents in the isolated lung, it did not.

With the Season's Greetings, I am

Sincerely

Karel B. Absolon, M.D.
