Dear Marshall

Enclosed is a reprint I thought you may want to have. I heard via the grape vine that you may be looking for a cardiothoracic surgeon? If so I would be interested to be considered for a position of clinical responsibility with strong leaning toward research.

Even though my clinical position here is unusually advantageous, I am interested to reenter the academic arena where I could contribute more scientifically, you can well imagine that I have good clinical experience having energized the cardiovascular-thoracic program over here.

Best regards!

Sincerely

Karel B. Absolon, M.D.
