SAN JUAN, PUERTO RICO 00905

November 29, 1965

Dr. Karol Absalon  
Department of Surgery  
University Hospital  
Minneapolis, Minnesota

Dear Karol:

I hope that this letter from the "Island of the Sky Blue Waters" will bring you conformity and patience during this freezing season.

In Atlantic City (exactly at Captain Stearn's Restaurant) we discussed about the persons that I could visit in Paris which might be interested on the Liver. I do not know whether I will have time to see many persons, but I will appreciate any suggestion. Thank you very much and "hasta pronto".

Sincerely yours,

Leo
