Dear Dr. Absolon,

Thank you very much for your kind letter of February 27th. I tried very hard to bring a visit to Amarillo into the schedule of our trip to the U.S. However, because of the many invitations in the East and Middle West which I had already accepted, I really do not see a possibility to come to Amarillo. I regret it the more as it deprives me of the opportunity to talk with particularely with regard to your historical interests.

I sincerely hope that we continue our correspondence.

With kindest regards,

Sincerely yours,

Rud. Nissen
