

January 30, 1967

Sister John Climacus
Operating Room Supervisor
St. Anthony's Hospital
Amarillo, Texas

Dear Sister John

I would like to tell you how much I am gratified by the nice co-operation of the O.R. personnel. They are doing a truly fine job and I hope that you will tell them how much I recognize their effort especially in some of the high risk cases that I am called on to operate.

All of us are pioneering in this area and after the stresses are all over I am sure that we are left with certain satisfaction and hopefully not too bad an ulcer. You of course know about the qualities of Mrs. Brown and Mrs. Pinto; some of the other younger personnel are doing pretty good work too. Mrs. Gallagher and your efforts are bearing some fruit, I hope you recognize it.

I am certain that you will show this letter to Sister Thomasine.

Sincerely

Karel B. Absolon, M.D.
