

St. Anthony's Hospital

Conducted by Sisters of Charity of the Incarnate Word

Amarillo, Texas

March 16, 1967

To the members of the Medical Staff, St. Anthony's Hospital

The following resolutions, which become effective immediately upon receipt of this notification, were passed by the Executive Committee of the Medical and Dental Staff of St. Anthony's Hospital at its March, 1967 meeting:

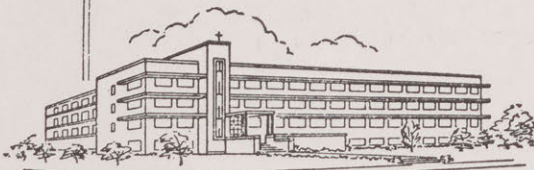

- "I. Written consultation by a surgeon qualified to carry out definitive treatment shall be required on all breast tumors prior to biopsy unless the attending physician is so qualified himself."

- "II. When any radical or major operative procedure for any type of tumor needs to be done based on outside pathological findings, reports and slides (if possible) should be made available to the hospital pathologist prior to the surgery."
