Sister Thomasine
Administrator of St. Anthony Hospital
P. O. Box 950
Amarillo, Texas 79105

Dear Sister Thomasine;

The Mended Hearts, Inc. group of Amarillo and the families of heart patients wish to subsidize the cardiac research effort at St. Anthony's Hospital. I would like to suggest that there be established a separate cardiac research fund from such contributions, designated for items such as photography and research items which may be more difficult to budget from presently available funds. I suggested that checks be made out to "Cardiac Research Fund," St. Anthony's Hospital, and that it be administered through the usual channels. At the time of our next research meeting we may want to discuss the budget, etc.

Sincerely,

KBA:elg

Karel B. Absolon, M.D.
