BRITISH (LEND LEASE) CVE

The bulk of the British escort carrier fleet is made up of sister ships of classes previously illustrated. Only minor differences serve to distinguish them from our ships. All types are illustrated in ONI-201, Warships of the British Commonwealth.

- ▲ ARCHER, a sister ship of the LONG ISLAND, and BITER (right), similar to CHARGER—are units of the ARCHER Class.
- ▼ STRIKER, one of the BATTLER Class, is of the same design as our BOGUE-PRINCE WILLIAM Class. Of the latter class, all units but Prince William are operating with the British.
