

[183]

**SUBMARINE CHASERS—
110-foot Type**

Some of this type are in other United Nations service. Also listed are several Canadian-built FAIRMILES (silhouette), known as SC 1466 Class, and a few experimental types of which SC 450 (silhouette) is typical. Some World War I Units of similar design are still in operation.

Note that armament differs between Atlantic and Pacific units. Ultimate armament is shown by SC 1050.
