MOTOR TORPEDO BOATS—PT

Division of Naval Intelligence—Identification and Characteristics Section 11-43

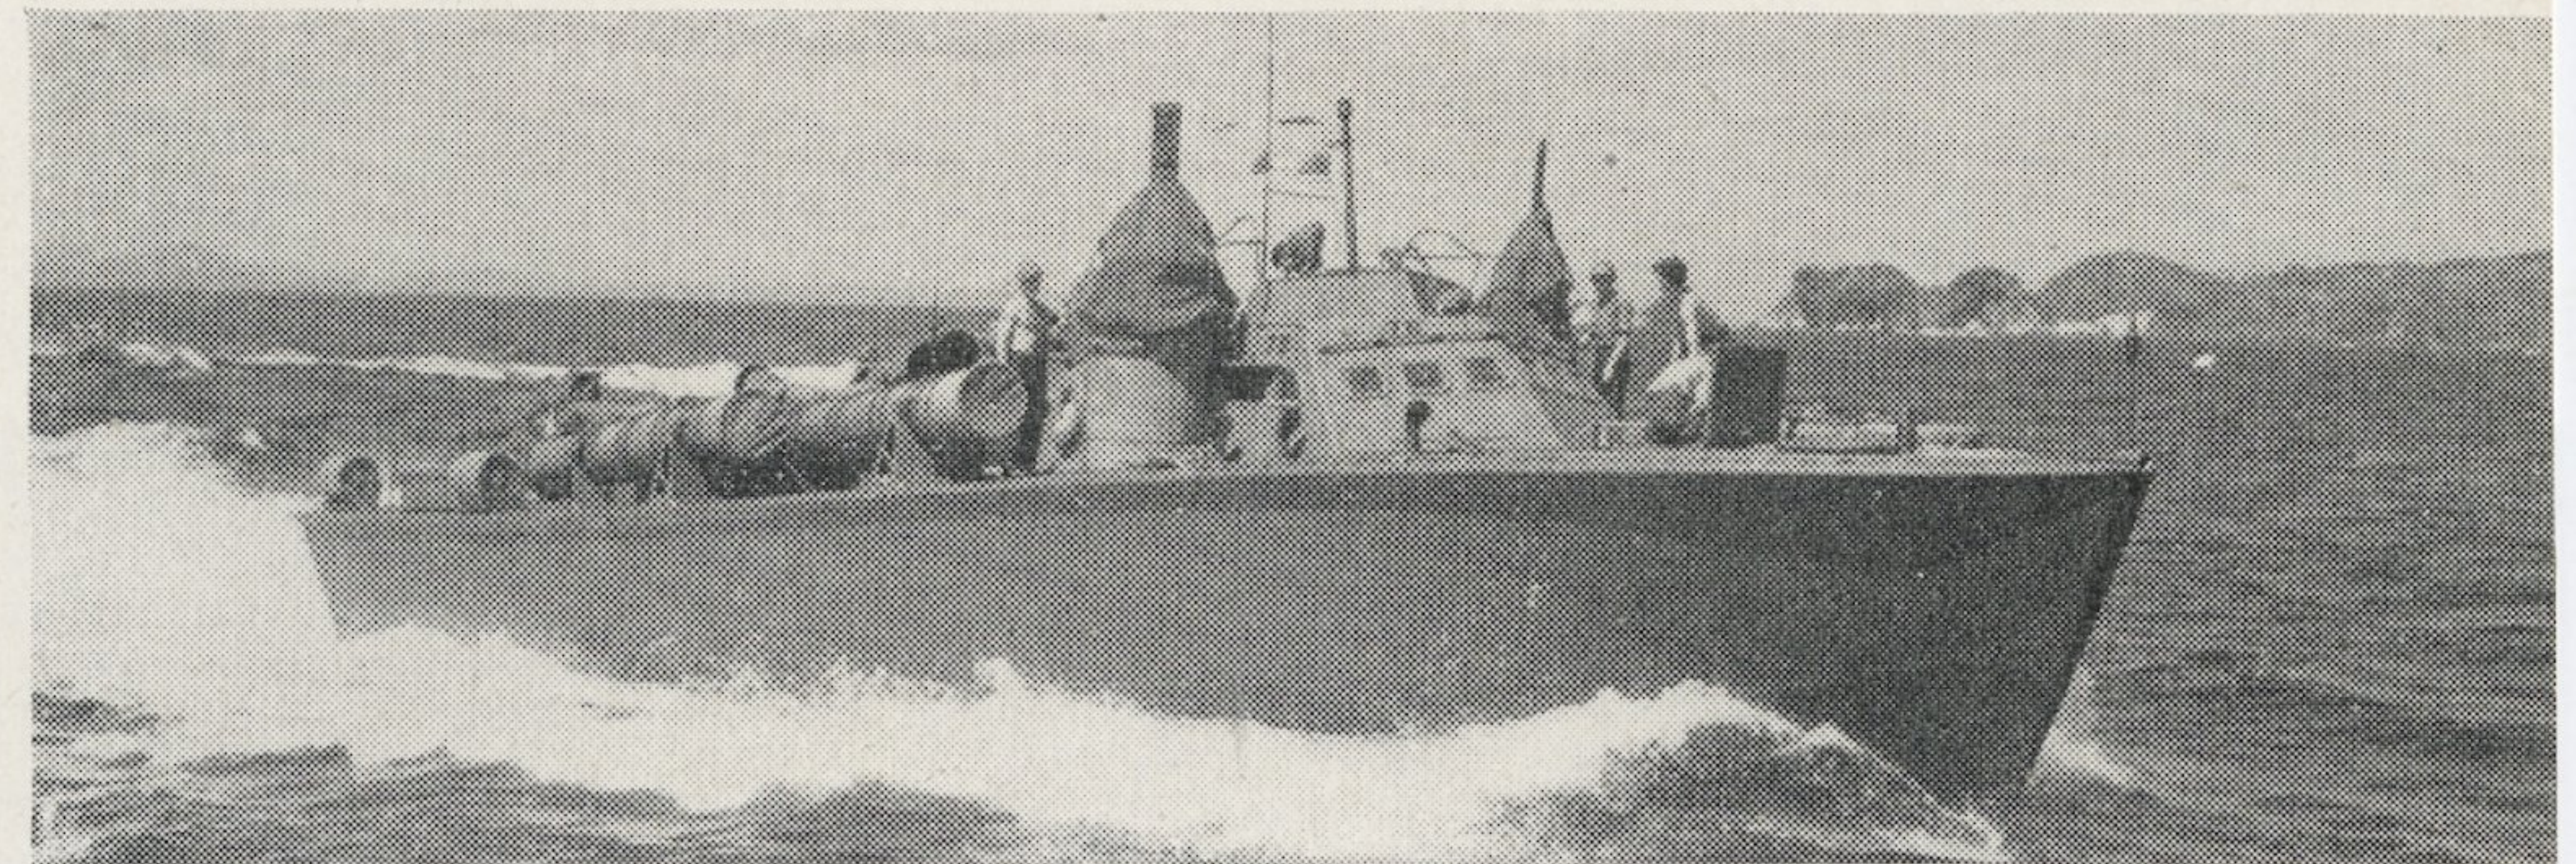

Two classes are now in production—the PT 103 Class, 80-foot Elco-built craft, and the PT 71 Class, 78-foot Higgins-built boats. They operate from AGP (Oyster Bay Class ships, converted LST's, or ex-PG's) or land bases. Also in service with other United Nations forces.

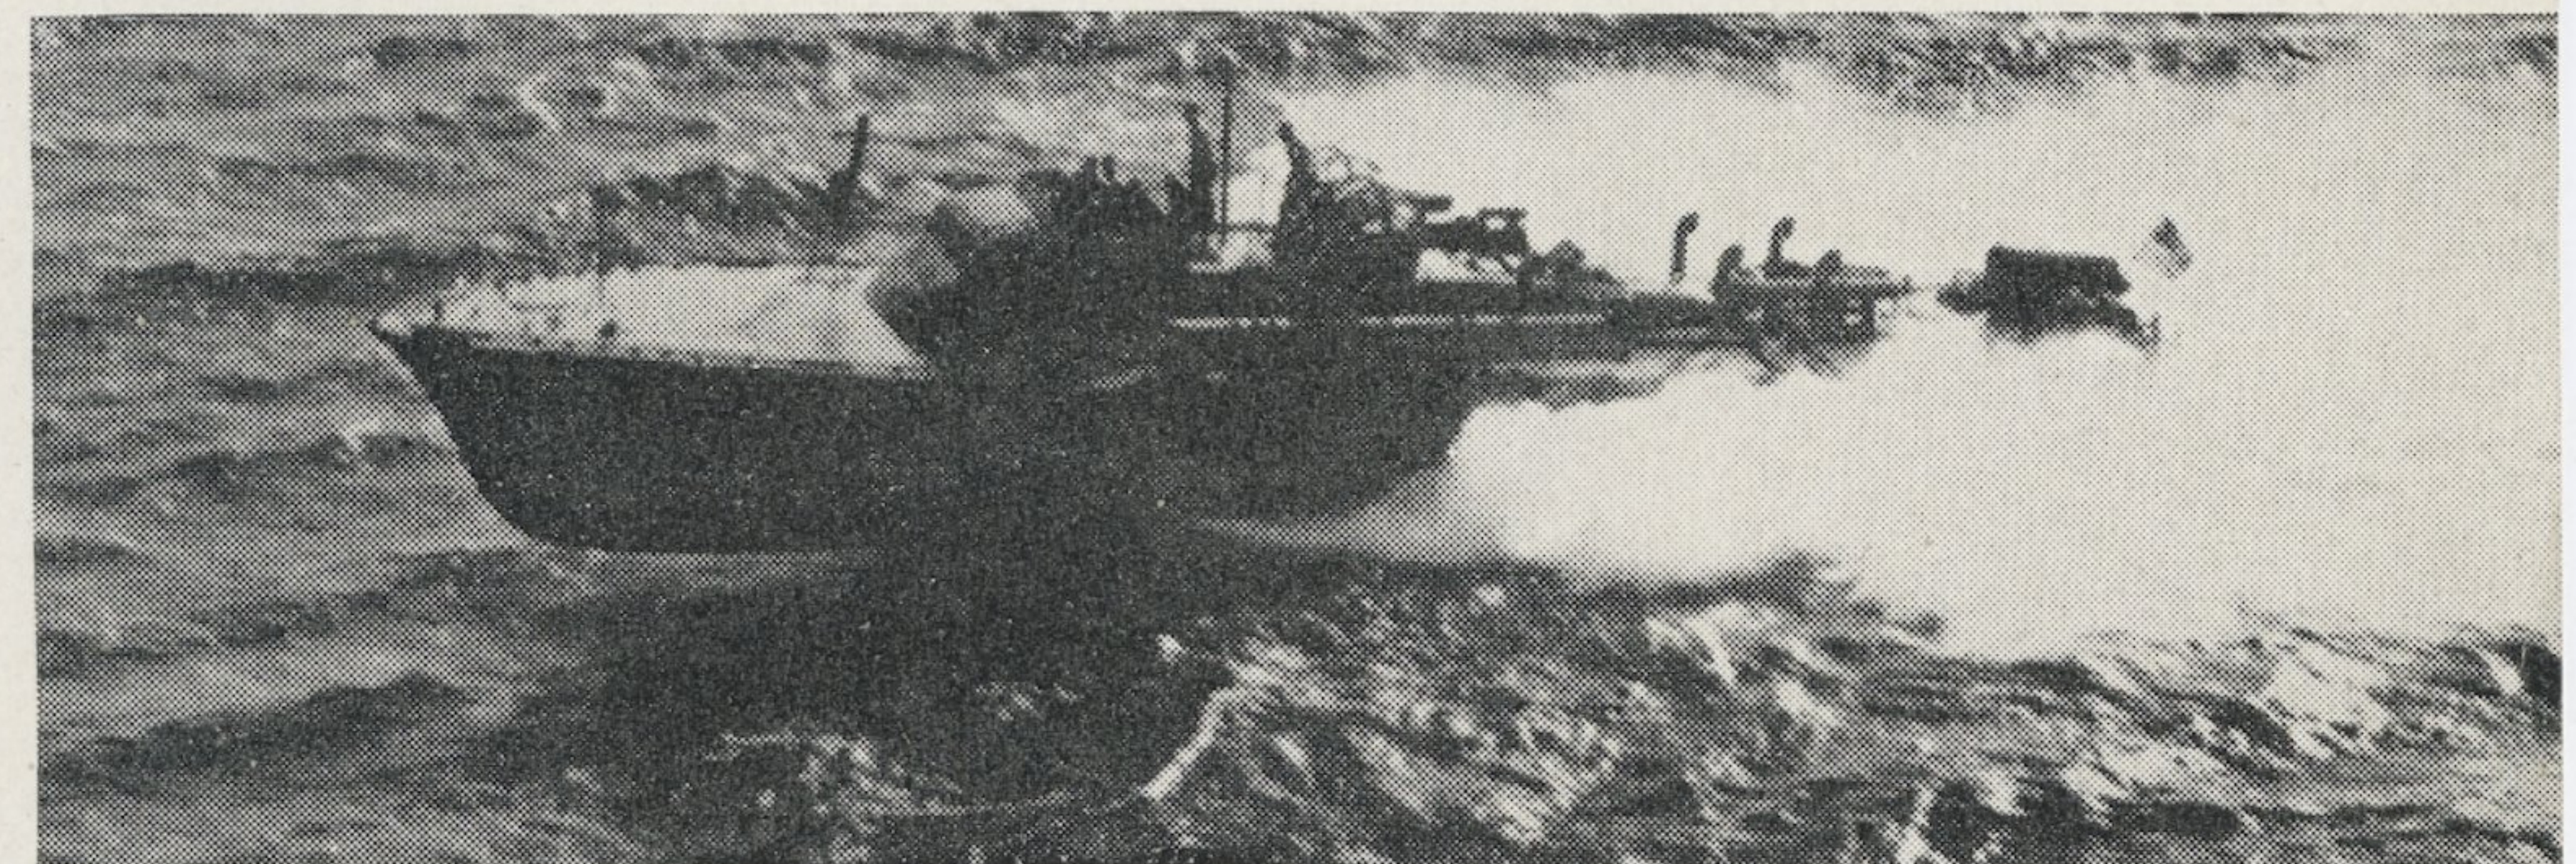

PT wakes have often been confused with that of submarines except at full speed. ▼

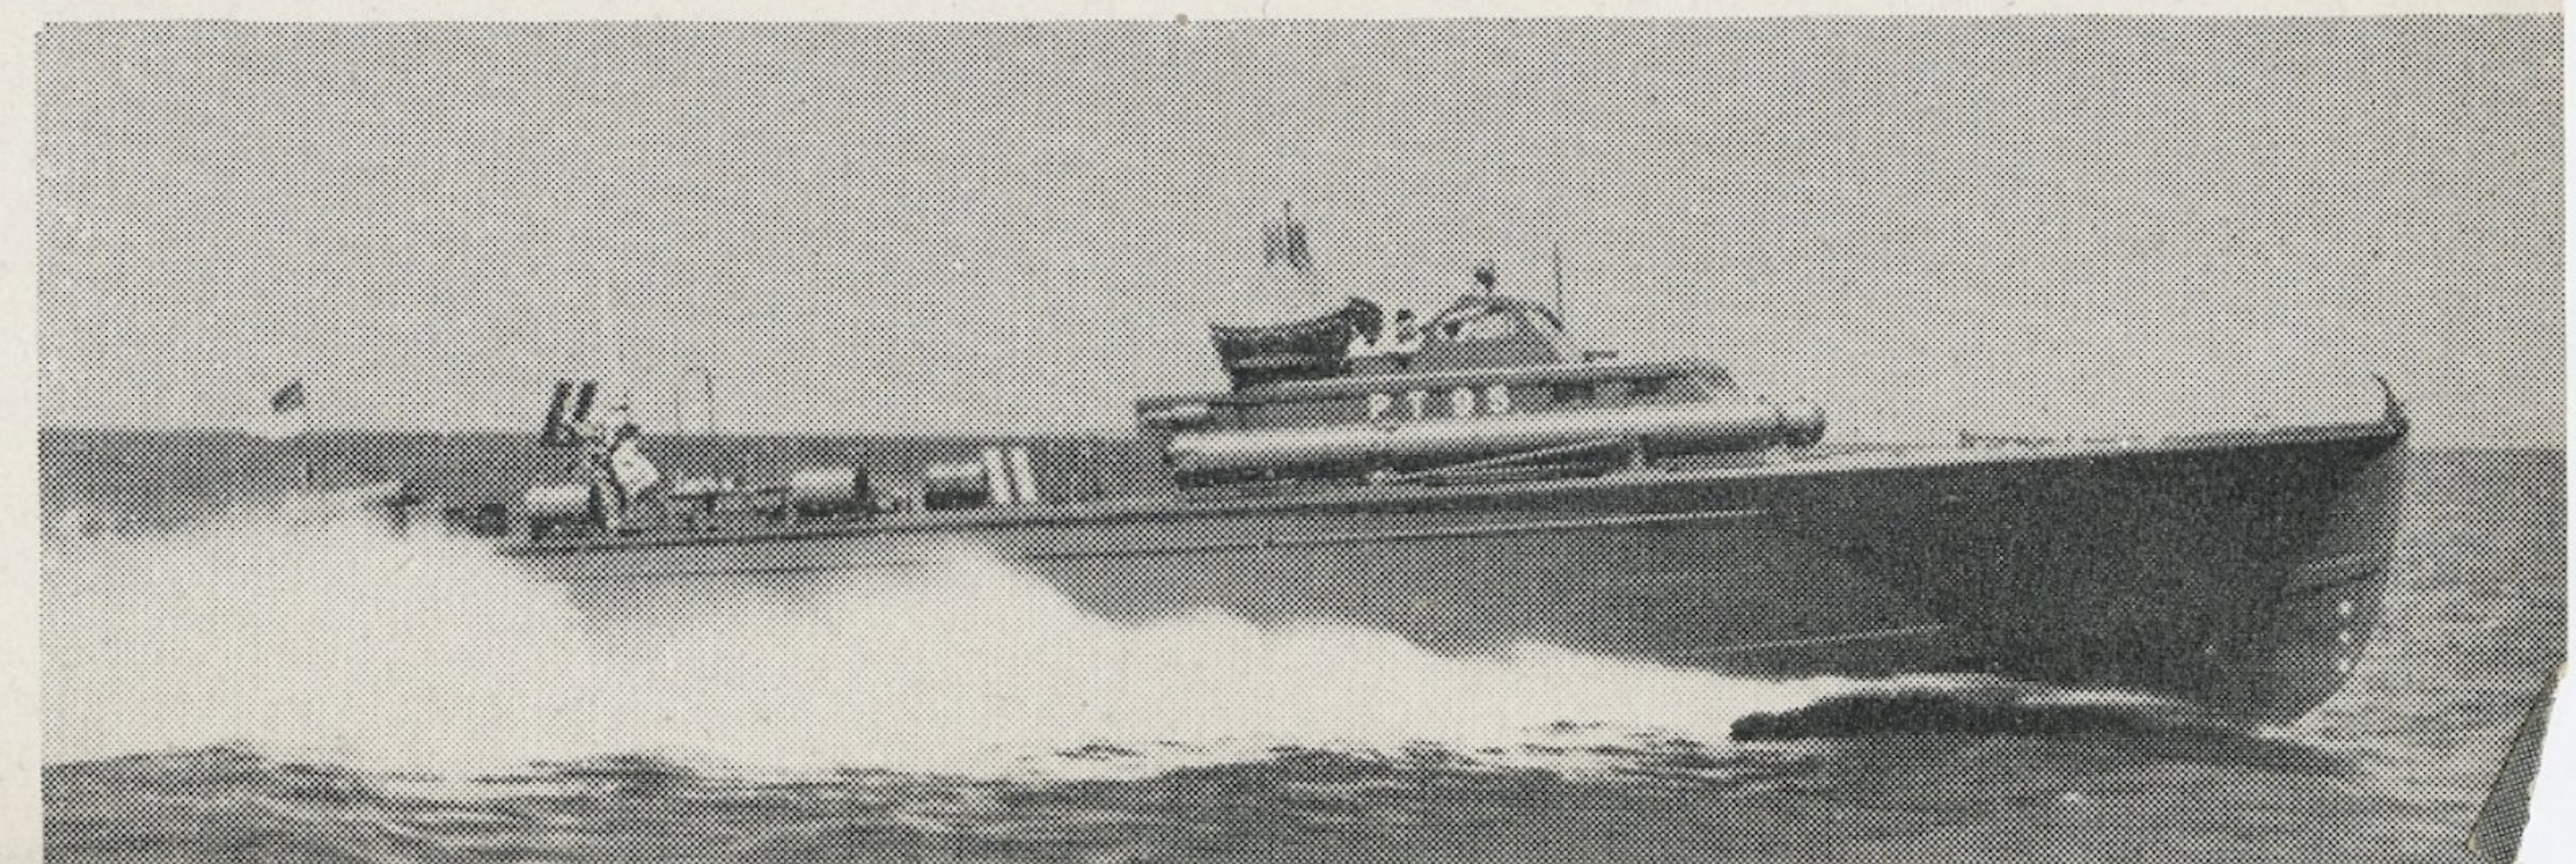

▲ PT 103 Class boat—equipped with depth charges.

▲ PT 71 Class boat.

▲ PT 20 Class (discontinued). ▼ PT 95 Class—Hutchins built.
