

1897

DM • DMS • APD • AVD

Converted from the 1919 flush-deck destroyers are the DM—Light Minelayers, DMS—Fast Minesweeper, APD—High-speed assault Transports and the AVD—Seaplane Tenders. Both DM and DMS have had after stack removed, torpedo armament replaced by mining or sweeping gear. The APD and AVD have had the two forward boilers and stacks removed, landing craft davits or additional accommodations added.
