

MOTOR MINESWEEPERS—YMS

An extremely large group; these 260-ton, 135-foot, wooden-hulled vessels are equipped to deal with all types of mines. Both types are furnished to the United Kingdom through lend-lease. One unit has been converted to YDG (degaussing vessel).

SUBCHASER—PCS

▼ The 136-foot PCS uses a YMS hull with a PCE-type superstructure; or with an extended superstructure is employed as a rescue craft.
