

[290]

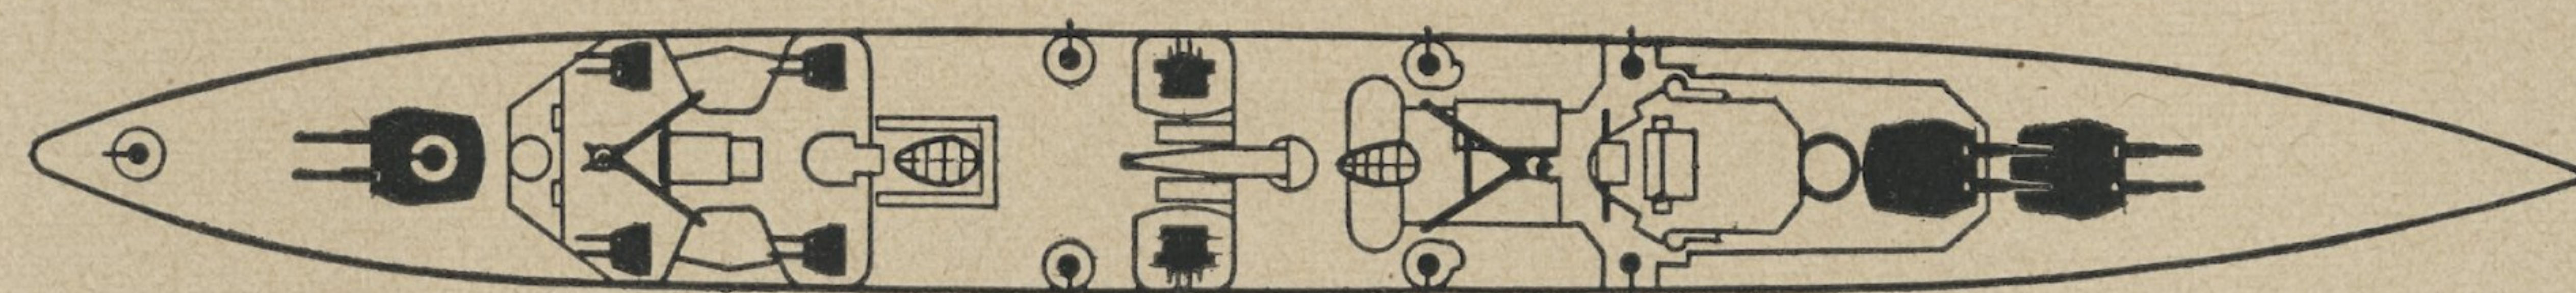

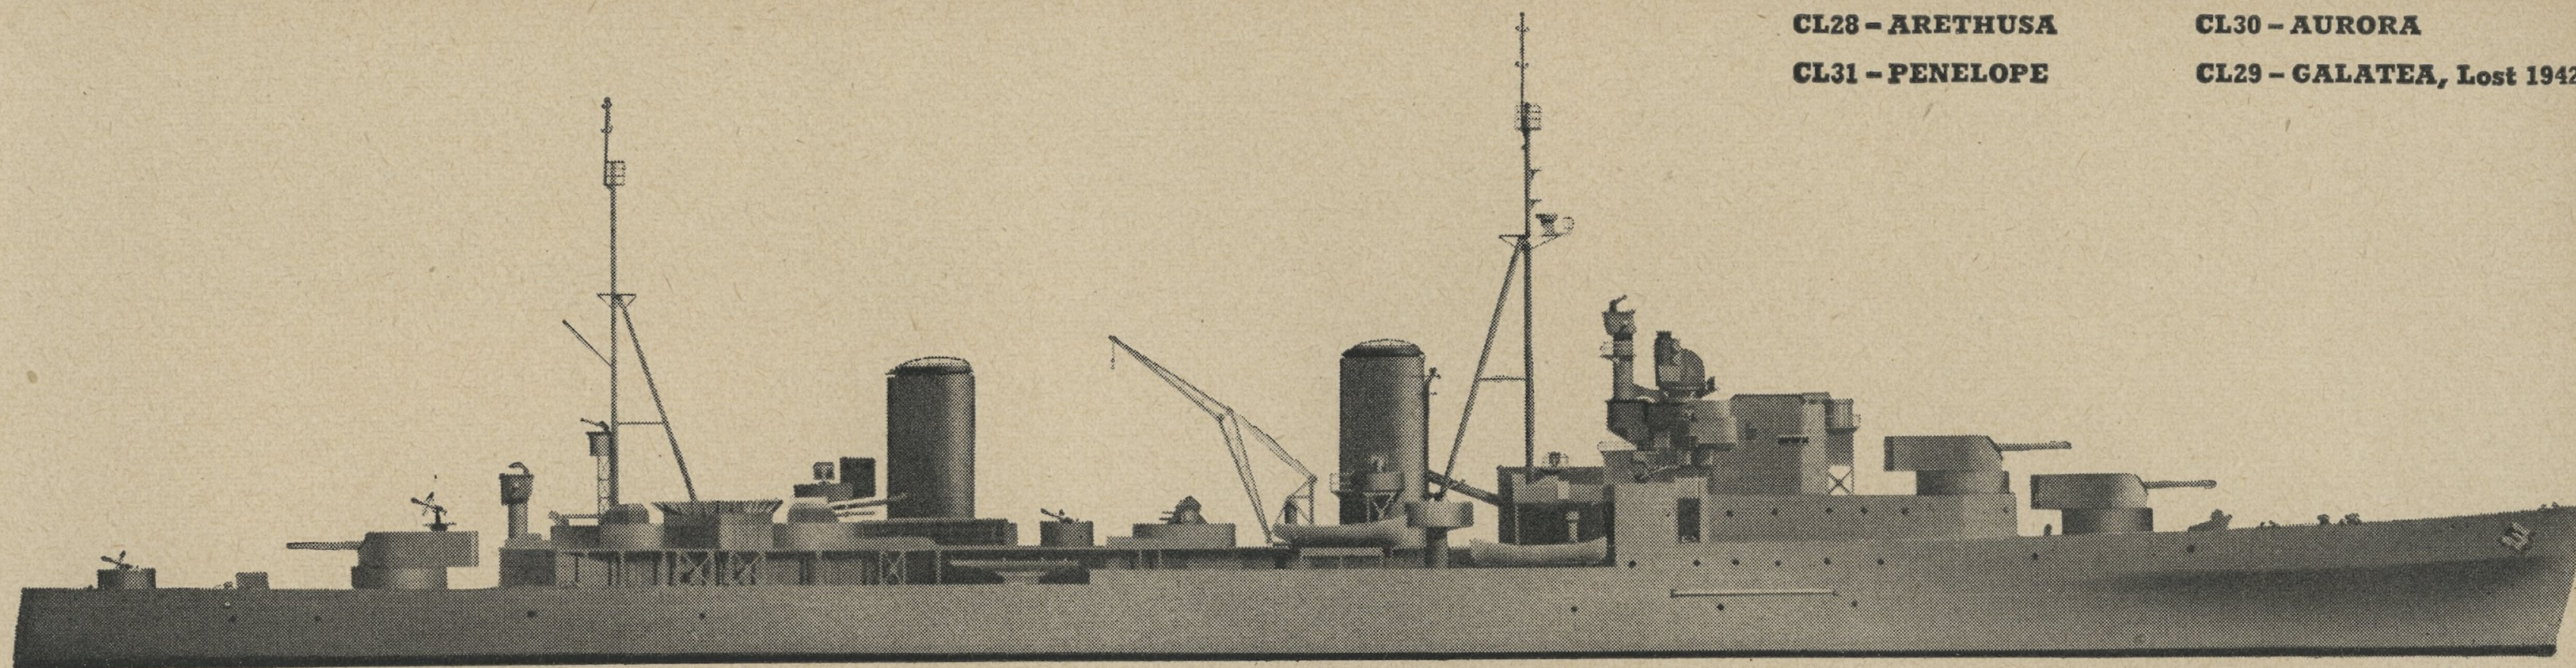

ARETHUSA Class (3 units) 

CL28 - ARETHUSA

CL30 - AURORA

CL31 - PENELOPE

CL29 - GALATEA, Lost 1942

HEIGHT IN FEET:

|                   |                        |                           |
|-------------------|------------------------|---------------------------|
| from W. L.        | to Top first Stack-62' | to Top f'w'd Director-68' |
| from Foc'sle Deck | to Top first Stack-40' | to Top f'w'd Director-46' |

LENGTH: 500' (W. L.). BEAM: 51'

DISTINGUISHING FEATURES:

- Two widely separated upright stacks with "teardrop" cross-section.
- The single turret aft is mounted on a short quarterdeck.
- No rake to light tripod masts; mainmast stepped well abaft second stack.
- Relatively low silhouette; superstructure appears to be "pushed" aft.

STRONG SIMILARITY TO:

HOBART (Australia - CL) DIDO Class (Brit. - CL)  
LA ARGENTINA (Argentina - CL)

RESEMBLANCE TO:

FIJI Class (Brit. - CL) LE FANTASQUE Class (France - DD)  
SOUTHAMPTON Class (Brit. - CL) LONDON (Brit. - CA)
