Labor. Thirty Nine Bales of your cotton has just arrived & we have sold 9 of them @ 47¢ the best that could be done to day - The cotton is inferior low middling. I have not examined the remaining 30 & hope it may be of better quality - Cotton has had a downward tendency for several days past, & I fear it may continue for the arrival are very heavy so much so that storage is hard to obtain.

Mary Ann is busily employed in filling your wife's orders & so soon as complete will ship or consigna - I very much regret the loss of the first purchase & hope the last may arrive safely. They will be in hand - When the money is collected for the 9 Bales (which will be in 10 or 12 days) an aff will be rendered you - Mary Ann sends her love & hopes she may be able to please in the selection of the goods ordered.

Yrs very Respectfully
