Greenville, N. C., July 20 1890 -

Dear, Elias Spear -
Old Sparta

My dear dear -

I have heard that
you were furnishing the most
splendid butter from your
farm to some of our people
down here - I write to ask
if I could contract for 2 or 3
pounds a week - I should
be very glad to do so -
Let me hear as soon as you
can - I see a great deal of
country butter but it is
very common (the most of it)
What are your ideas of
the extra weather in August

thus far in July? Is it Ominous
of Good or bad for the farmer?
There is more work being done
than I have ever known for the 2
first months of the year.

I have never seen more thoughtful
times in my life in money matters
When would you go down to R. C.
Cottons & spend a day I would
go with you. He would be glad
to spend a day away from
town, I have not found a
match for "Archibalds" yet
But young America is coming
and Archy. may live to see
some one eclipse him, and not in
the distant future -

Yours Truly & C
J. A. Sugg
