Mon. Sept. 20.

Dear Frank -

My letters don't come as frequently now as they did, do they? I'm awfully sorry - honest. But I have quite a bit of school work to do & it isn't very easy. So I really have to spend more time on that. Had a card from Ed. Wlodarcik the other day saying "why don't you write? Are you married or something? Or don't you just care to correspond anymore?" I never knew my letters meant so much but I guess all sailors & soldiers are a little homesome & like to get news even if it's from someone they've never seen.

What's wrong with Bill? He said he's in sick bay! & when I wrote I forgot to ask him how he was! Well think I'm terrible. Tell him I was asking about him want you.

I'd be delighted to come & be your secretary! But I really don't think I know enough yet!!! And that's not edaggarating! But of course I'd be Bill's too! You know, I can't show any partiality!

How high an average must you make?
You said you made $88\frac{3}{4}$ & you were
sunk!! Well, we have to have 90 or
we flunk! And that's what's killing
me. Especially in math!

Saw 2 good pictures this week end.
"Above Suspicion" & "Phantom of the
Opera." That one was really horrible!
It's enough to give a person nightmares!

This is the 7th letter I wrote tonight
& it's practically dead! So I think I'll
close now. Please forgive me for writing
such a short note. I'll make it up
sometime later - honest I will!

Be good & write when you have
time.

I'll be waiting to hear from you.

As ever,

Eddie
