Gentlemen,

We now have on hand a fine $\frac{3}{4}$ Pa. Red Polled bull calf. He is a month old, and if you think he will suit you, we will keep him for you. He is a beautiful calf and out of an extra fine cow. His only fault from a fancy point of view is a very few white hairs on his rump - hardly noticeable. We will deliver him by Freight at Tarboro at 3 mos. old for \$30 -

We also have a pure-bred 7 yrs. old bull for disposal. Commonwealth 874 - He is very docile, rather under sized - but a getter of large and superior calves. We will deliver him for \$90 - . We part with him because we have just gotten Imported Rupert-176 - a \$600. bull at the head of our herd.

Yours truly
Pierson Bros.
