Colonel Elias Carr.

Old Sparta N.C .

Dear Sir;

Your favor of the 24rd was duly received. Note you say you base your claim in the Acid Phosphate matter upon the analysis of the State chemist, also upon one of your own. This does not enlighten the writer(for the information asked for in our last letter you remember was for him) as to a basis of calculation. We did not understand that the goods were sold you upon any guaranteed analysis, but simply as our brand of Acid Phosphate; and more over we did not agree to accept the analysis of the State department made of goods from another cargo than the one which we shipped you. They analyzied a sample at Washington making it run 13% and over.

Please let us know what ~~the~~ sample they analyzied for you, or if you have the analysis kindly send us a copy of it. We dont believe we shipped any goods into the State running as low ~~as~~ in analysis as the State Department made our goods to run; we had 12 or 15 analyses made during the season and we are perfectly willing to settle with you or anybody else upon an average of these analyses, which we think a perfectly fair proposition; but that you should take an unofficial, and what we think an ~~unofficial~~ ^{un}authenti-

cal analysis, and the very lowest that has been made, and ask for
a settlement upon that basis, we think is unbusiness-like.

Yours very truly,

Dictated E.S.

E. Strudwick
