Elias Carr. Pres

State Farmers Alliance

My Dear Sir.

I see at the meeting in St. Louis
 the the clause in the Constitution which
 says Country Mechanics, School teachers,
 has stricken out, which I take to
 mean that mechanics and school teachers
 in town would be charged. our Sub
 Alliances have not been officially
 notified as yet. Our County Alliance
 meets the first Friday in January and
 will give pleasure inform you of the
 fact in the case by return mail.
 So I can speak knowingly on
 this subject at this and other
 occasions, when this comes into

Apply to mechanics not to teachers

effect. I am happy to inform
you that Burke County Alliance
is working harmoniously and
our farmers and others are looking
forward for great results from this
great organization

Fraternally yours etc

D. A. Cobb
