HAMBURG " " OLIVENFRIED.

New York, August 2, 1900

Messrs Carr & Dattle Tarboro N.C
Gentl

We have yours of the 31 July before us - 4 Cubic foot average indicates very small & undesirable wood - in fact smaller as we have to buy in the bay $4\frac{3}{4}$ - 5' average in Tennessee at 35 - $3\frac{1}{2}$ ¢, but we insist on a good grade, with all logs 6" - 7" strictly clear of knots ^{pieces} which is equal to 45 - $47\frac{1}{2}$ ¢ in Norfolk - good large logs 50¢ - 100 gross pencils of standard size inclusive of a strong wooden case, properly strapped is 400 lb - that is Tennessee wood, while your cedar may weigh less. If you desire to put up regular machines for a flat mill to grade the stock right we could sell all you manufacture

Standard sizes are $7\frac{1}{8}$ " long - $\frac{3}{16}$ " thick
6 ply $2\frac{3}{16}$ " wide - 5 ply $1\frac{3}{4}$ " 7 ply $1\frac{5}{8}$ " 3 ply $1\frac{3}{32}$ "
2 ply $\frac{3}{4}$ "

They are worth in Norfolk for 1st quality \$16.80.

II " 11.50.

III " 8.50.

If you erect a mill & contract your output to us, we would send you our Superintendent for a while to be of great service to you in the start

OSCAR O. FRIEDLAENDER,

HAMBURG " " OLIVENFRIED.

New York,

For Blocks we have no outlet, but we receive
orders for greater length & thickness for which
much higher prices are allowed.
The different grades depend for percentage
entirely on the character of the logs -
So far we get

33%	1 st
40%	2
27%	3

We will be pleased to furnish you all
additional information when we see that
you earnestly intend to erect a Slatmill
& that you desire to co-operate with us in

Yours truly
Friedlaender & Oliven
