

Wednesday night

Old Sparta, N. C., 190.....

Dear Elsie.

If it doesn't arise tomorrow
I will send the barrel of apples
and the crib together with the
bed and mattress. I expect you
will have to have it done up it has
been put away so long. It is a
very handsome crib solid mahogany
and when bought cost \$40.00
The makers had felt under there to
have it noiseless but I guess the
moths have eaten it all off. I would
have the apples emptied or they will
rot. We hope to have John have some
Eileen says she is well and Contentee
has made friends. I hope she will
keep well enough to do the work.
I am glad Maude and the baby

are doing so nicely. We picked a
little cotton to day for the first time
I hope we can get a better picking
tomorrow. With love for you both
Affectionate

Mother
