Dear Sir :-

Would

you mind requesting Senator Pearson
to put forth his best efforts to ac-
complish the removal of our
Colored republican Post Master?

On many accounts his retention
is damaging to the party, repugnant
to our best citizens and disappointing
to our hard working politicians.

This young colored republican,
without a family, has about the only
"soft thing" there is about here - his
age being about 18 or 19. Personally
& individually I feel interested in

his Displacement &

I am aware there may be
reasons, unknown to me, why you
may not make the request. But
if there should not be such would
esteem it a favor if you would
give the Senator a reminder -

I think your appointment of
Jarvis is generally satisfactory in
this section &

Very truly Yrs

H. R. Horne
