Dear Sir

Yours to hand &
noted I do not wish you
to think that I looked to
you for your son's debt
I simply stated my condition
to you and thought possibly
you could by some
means aid me in my
troubles, I believe the D^r
could have paid me at
least part of his board ever
this and I feel that I had
not been treated exactly

right about it I am
well aware that no one
in Aberdeen does any more
for the D^r's Interest nor was
a better friend or put
up with more than I did,
and I will say that if I loose
my place and myself and
little ones have to suffer I trust
that the D^r will prosper = I
have been advised to advertise
the apt but I scorn the idea,
and if the D^r can live with
it I will try and live without
it - with the help of kind
Providence I will endeavor to raise
my mortgage if not why I will

abide by what is my portion as
I see it is useless to look
to this source any more for
any aid whatever I will
give up the hope trusting
that the Dr is doing well
and yourself and family are
enjoying good health

I am yours very truly

Chas E. Pleasant
