

PART II.

	PAGE
Water Resources of the Coastal Plain of North Carolina, by L. W. Stephenson and B. L. Johnson.....	333
Historical Review.....	333
Bibliography of Undergrouhd Waters.....	336
Surface Waters.....	341
Underground Waters.....	341
Sources of the Underground Waters.....	341
Principles and Conditions Controlling the Storage and Circulation of Underground Waters of the North Carolina Coastal Plain	342
Geologic Occurrence and Character of the Underground Waters.....	349
Basement Rocks.....	349
Cretaceous	350
Patuxent Formation.....	350
Black Creek Formation.....	352
Peedee Sand.....	354
Tertiary	355
Eocene	355
Trent Formations.....	355
Castle Hayne Formation.....	357
Miocene and Marine Pliocene.....	358
Tertiary and Quaternary.....	359
Surficial Pliocene ? (Lafayette Formation) and Pleistocene..	359
Water Resources of the Coastal Plain, by Counties.....	361
Beaufort County.....	361
Topography	361
Geology	361
Water Resources.....	362
Artesian Prospects.....	365
Bertie County.....	368
Topography	368
Geology	368
Water Resources.....	368
Artesian Prospects.....	369
Bladen County.....	369
Topography	369
Geology	370
Water Resources.....	370
Artesian Prospects.....	371
Brunswick County.....	372
Topography	372
Geology	372
Water Resources.....	373
Artesian Prospects.....	375
Camden County.....	376
Topography	376
Geology	376
Water Resources.....	376
Artesian Prospects.....	377
