

THE REFLECTOR.
Greenville, N. C.

D. J. WILKINS, Editor and Proprietor

WEDNESDAY, MARCH 1st, 1893.

Entered at the postoffice at Greenville, N. C., as second-class mail matter.

The Legislature after holding several caucuses and doing considerable wrangling, settled the State printing question by re-electing Mr. Josephus Daniels, editor of the North Carolinian, as State printer.

The N. C. Conference of the M. E. Church lost two of its members last week. Rev. Dr. J. H. Cordon died in Oxford of lockjaw brought on from sticking a nail in his foot. Dr. Cordon was one of the strongest men in the Conference, and one of its most able preachers. Rev. R. B. Gilliam, who was pastor of Jones circuit, died at Trenton on Tuesday. Mr. Gilliam was a few years ago pastor of Greenville circuit, and there are many people in this section who will learn of his death with sorrow.

General P. G. T. Beauregard the only survivor of the full generals of the late Confederate army died at his home in New Orleans on last Tuesday morning at the age of 75 years.

General Beauregard was of French descent and was born in the State of Louisiana. He graduated at West Point in 1838 taking second honors in a class numbering forty five. He then entered the army as a lieutenant and served throughout the Mexican war. He was twice brevetted for gallant service. It was through a suggestion of his that the army of the United States entered the city of Mexico.

After the Mexican war he was engaged in superintending the building of the Custom House in New Orleans and the fortifications at the mouth of the Mississippi river. In 1861 he was appointed Superintendent of the Military School at West Point but held the position only two days. President Buchanan removed him on account of a secession speech made by his brother-in-law.

General Beauregard then resigned his position in the United States Army and was appointed Colonel in the engineering corps of the army of the South. President Davis placed him at Charleston to defend that city and made him Brigadier-General. The General was purely and truly a Southern man and was ardent in espousing her cause. He was a man striking in appearance, severe but courteous in manners, energetic in action and a man of great will power. He fought bravely through the late war. He commanded at Fort Sumpter, was conspicuous in the battle of Bull Run, and at Shiloh assumed command of the army after General Johnston had been killed. He was compelled to retreat before the Armies of Grant and Buell. His health having failed his command was given to General Bragg. He afterwards had charge of the forces at Charleston and surrendered in April 1865.

After the war he returned to New Orleans and became President of a railroad and manager of the Louisiana Lottery.

It is a great pity that he ever accepted the latter position. He had made an enviable reputation in the South by his services in the war between the State and it is to be regretted that he lost much of this good will by his conduct in allowing his name and influence to the infamous Louisiana Lottery thereby robbing unmercifully thousands and thousands of the noble people of the South who had learned to love and admire him, and who would not have been thus duped had it not been for the fact that they had utmost confidence in any business that had the approval and endorsement of General Beauregard. Whatever evil he may have done through in this particular, we must love and admire him for the noble services he rendered in defending a cause that was so dear to every Southern heart.

GENERAL ASSEMBLY.

Below we give some of the bills of interest that have been introduced before the General Assembly:

SENATE.

Senator Sandifer offered a resolution regarding the distribution of the Colonial Records.

Senator Lucas, regulating the pay of witnesses in criminal cases. The hour for the special order, the State Normal and Industrial School bill, was announced, and the bill was taken up. Senator Jones offered an amendment to strike out section 1, which increases the regular annual appropriation from \$10,000 annually, as it has heretofore been, to \$15,000. He took strong ground against

the \$5,000 extra appropriation. The bill, as amended, passed third reading.

Senator Jones, supplemental to an act to divide the crime of murder into two degrees, correcting an error.

Senator Olive, to amend section 3065 of the Code, relating to tax on insurance companies.

Resolution providing for the adjournment sine die of the Legislature March 2nd, and that no bill shall be introduced after February 27th, came up. Senator Posey offered an amendment that Monday, March 6th, be substituted for March 2nd. Amendment to adjourn March 4th was adopted.

Senator Olive, to aid the maimed and disabled Confederate veterans in their annual encampment. Senator Schofield, to prohibit tobacco trusts and for the protection of tobacco growers and smoking tobacco and cigarette manufacturers.

Senator MacRae, of Robeson, to establish and provide for the militia and for the support and maintenance of the State Guard.

Mr. MacRae, of Robeson, introduced a bill to divide the county of Person. This bill elicited a very amusing debate. The vote stood ayes 21, noes 21. The President voted in the negative, and the bill was defeated.

The Senate proceeded to the consideration of the bill to establish the county of Elkin out of portions of Wilkes, Surry and Yadkin counties. The bill provides for the formation of a new county to include one township of Yadkin county, three townships of Wilkes and three of Surry, with the court house at Elkin; and also for the removal of the court house of Surry county from Dobson to Mt. Airy. The bill passed its second reading by a vote of 21 to 11.

A bill in aid of the North Carolina school for the deaf, dumb and blind at Morganton. The bill appropriates of \$40,000 a year for the completion of the building and the maintenance of the institution. Senator Cooper offered an amendment inserting \$35,000 instead of \$40,000. Senator Cooper's amendment was adopted—ayes 26, noes 16. The bill passed its third reading.

HOUSE.

Mr. Kitchin, for the support and improvement of the hospitals and asylums of the State.

Mr. Kitchin, for the support of the insane asylums.

Mr. Moore, in regard to contested election laws.

Mr. Merritt, to satisfy certain judgments against the University.

The bill 366, for the relief of the clerks of the Superior courts. The question was on the substitute offered by the committee, which permits the clerks to be absent thirty days consecutively to attend the Columbian Exposition; they to leave their offices in charge of competent persons, who are invested with powers to make probates, etc. Mr. Crouse, the introducer of the original bill said he preferred the substitute to his own. It made provision for keeping records. The substitute was adopted, and was ordered to be engrossed.

The bill to extend the time for the redemption of land sold for taxes. The bill passed over. Bill to amend the Code in relation to working the public roads—changes the age of liability to work from 18 years to 21, on a discussion, passed its second reading. The bill 603, to prevent organizations of secret oath bound societies, makes participants ineligible to places of honor or trusts in criminal cases. The jury lists to be revised to exclude all who are suspected with good reason, does not apply to those who voluntarily withdraw before 1893. Mr. Kitchin said he had introduced the bill, and he had accomplished his object. He had his doubts about the extent of the membership of the order in the house. He found that the committee belonged to the band. Mr. Kitchin moved to table the bill on which Mr. Erwin, of Cleveland demanded the ayes and noes. The motion failed, and also the motion to table, and the bill passed its second and third readings.

Mr. Allen moved to reconsider the vote by which house bill 643, in relation to secret organization passed. He said it was too serious a matter for fun. Reconsideration was had. Mr. Spruill said that passing bills as a joke did not comport with the dignity of the legislature. It implied a rebuke to the house that in five minutes it had to take back what it had so imprudently done. The time comes to consider the folly of having to reconsider. He would call a halt. The committee considered the bill and pronounced against it because of unconstitutional features in it. There was no politics in it. He hoped it would go to the table. Mr. Kitchin said he was asked to introduce the bill. He thought little about it, but he agrees with the features of the bill. He had the example of Congress in the freedom to have a little fun sometimes. Mr. Walker said he was tired of Gideon's Band, the newspapers and the Third party. Here in Wake county is a man under indictment as a member of Gideon's Band. He hated Gideon's Band. Mr. Watson, of Forsyth, said if there was an indictment in Wake the law is strong enough to handle it. As a member of the committee he had voted against it. Mr. Allen said, in addition to what Mr. Watson, of Forsyth, had said of the action of the committee, he believed there is in North Carolina such a thing as Gideon's Band. The members of it ought to be caught and punished. He took into consideration the laws in existence. Men were entitled to a fair trial. There were offensive features in this bill—oppression, exclusion from the jury list, putting men on trial, excluding any man on suspicion from the

jury box. On motion of Mr. Jones, of Caldwell, the bill was indefinitely postponed.

Mr. Vance, of Buncombe, by unanimous consent, introduced a bill for the relief of the State Alliance, to permit stockholders an opportunity to secure their investments. The bill passed the second reading, and on going to a third reading, Mr. Vance, of Buncombe, demanded the previous question, and under that rule the bill passed its third reading and was ordered to be sent to the Senate without engrossment.

Mr. Vance, of Buncombe, to amend chapter 22 and section 819 relating to the time of swearing in jurors.

Mr. Moore, to allow either wife or husband to convey land if the other is insane.

Mr. Erwin, for the restoration in cases of felonies of corporal punishment.

The unfinished business of yesterday being the continuation of the discussion on the bill to regulate the hours or labor for women and minors employed in cotton factories was announced. The bill failed to pass by a vote of ayes 36, noes 63.

Mr. Crouse, in relation to working convicts on the public roads.

Mr. McGlothin, to amend chap. 174, laws of 1885, relating to the appointment of public school committees.

Mr. Watkins, to abolish the registration of crop liens.

The bill to establish a colored Normal School in Durham, North Carolina. Mr. Holt offered an amendment, which was adopted that the appropriation be reduced from \$1,500 to \$1,300. Mr. Blair called for the ayes and noes. The bill passed third reading.

Mr. Stevens, to enable a real estate or land owner to make a loan on the same which will be a first mortgage.

House bill 1162, the Wilmington and Weldon railroad taxation passed third reading—ayes 70, noes 22.

WASHINGTON LETTER.

(From our regular correspondent.)

WASHINGTON, D. C., Feb. 25, '93. The financial situation continues critical, but there is little probability of the present administration doing anything to relieve the strain. At a cabinet meeting this week Secretaries Foster and Tracy took high and patriotic ground in favor of the issue of bonds to increase the gold reserve, arguing that it was neither right nor just for this administration to turn the Treasury over to the Democrats in a crippled condition; but Mr. Harrison and the other members of his cabinet took a narrow, partisan view of the matter and refused to sanction an issue of bonds. It is conceded that Secretary Foster has the authority under the law of 1875 to issue bonds, but it is not believed that he will use it as long as Mr. Harrison opposes it, although personally he is in favor of it.

There is to be a big fight made in the House against the Sundry Civil appropriations bill, passed by the Senate this week, because of the Sherman amendment thereto, authorizing the Secretary of the Treasury to issue \$50,000,000 3 per cent five years bonds, for gold to increase the Treasury reserve. The fight is to be made by the free-coinage Democrats, and if it results in the defeat of the bill, as many think probable, an extra session will necessarily have to be called. The first annual convention of the Bimetallist League of America, a free-coinage organization, was held here this week. It was largely attended, all of the most prominent populists and a number of Democrats taking part therein.

The first all-night session of the House during the present session was held this week. It was brought about by filibustering against the bill providing for the use of automatic car-compensators by all interstate railroads. The bill was not passed, but is to come up under a suspension of the rules next week.

Senator Gorman has manfully, although unsuccessfully, fought for economy in the appropriation bills ever since the Senate began their consideration. He told the Republican Senators this week that they seemed determined to pile up the appropriations for the purpose of compelling the Democrats to impose new taxes or increase those already imposed upon the people in order to meet the obligations of the Government, and he thereby "called the turn" on the Republican policy during the present Congress.

Few people know that there is a colored chaplain in the regular army. There is, however, and he has just been given a very full detail by the War Department—duty of an army chaplain at the World's Fair. I would take a very smart individual to tell what will be the duty of an army chaplain at the World's Fair, other than to kill time between pay-days. It has been suggested that this detail was made because the troops at Fort Bayard, New Mexico, where the brother-in-law of the colored chaplain is stationed, wished to get rid of him. Anyway, it's a snap for him.

The cheekiest thing ever known in political circles has been undertaken by the Republican chiefs of divisions in the government department here. They have prepared a petition addressed to President Cleveland asking him to retain them in office by extending the Civil Service rules to the positions they held, and are now trying to obtain the signatures of clerks in the classified service hereto. Just why any clerk should sign it is more than I can understand. The Republican clerks should be well satisfied if they are allowed to retain their places without trying to retain Republican chiefs; and there is certainly no good reason why

any Democratic clerk—there are not over many of them in office anyway—should be willing to sign any such absurd petition. If your correspondent had the power every man who signed this petition would have his official head chopped off quicker than you can wink.

There is no longer any ifs and buts about the Senate (the Fifty-third Congress). It will be Democratic. This has been, of course, expected ever since last November. Still, it is gratifying to know that it is an absolute, rock-bound fact.

When so good a Republican and ex-Union soldier as Senator Hawley expresses the wish, on the floor of the Senate, that the new administration will give the pension system a thorough inspection and root out the frauds, which he will not be surprised if they find, it is time for demagogues to sing low.

The new cabinet is complete. The selection of Representative Herbert of Alabama for Secretary of the Navy, and Mr. Richard Olney, of Massachusetts, for Attorney-General, was well received by Democrats in Congress. Mr. Herbert had been a favorite with Congressmen for the Navy portfolio from the first; he makes the third Southern man in the cabinet. Mr. Olney is not so widely known, except among lawyers, but those who do know him say that he is just as good a Democrat as he is a lawyer, and as a lawyer he is in the front rank.

WASHINGTON (N. C.) ITEMS.

Last Thursday night Walling's steam saw and planing mills, together with several thousand feet of lumber, were destroyed by fire. It is thought it caught from a spark falling in the shavings. The loss is estimated at \$6,000, partly covered by insurance.

Mr. Ed Buckman, son of our postmaster, died last Wednesday morning. He was sick only about ten days with pneumonia, and his death cast a gloom over the entire town.

Oysters are scarce, and selling for eighty cents per gallon. Work on the new market house is progressing, and when completed it will be an ornament to the town. We hear that Mr. Hartge, the contractor, is making a plan for a new jail, which is badly needed.

Shad are coming in and selling for seventy-five cents to a dollar. The confederate monument is being removed from its present not very conspicuous site to Oakdale cemetery.

Several parties from Greenville were here attending court last week. Miss Alice Bagart has taken charge of the music department of Carolina Institute. She is an accomplished young lady, and will be a valuable addition to the school.

BRANCHVILLE (VA.) JOTTINGS.

While Mr. Otho James was leaning over to adjust some of the edging machinery at his mill, his coat sleeve became entangled in it and before he could extricate himself his arm was broken in two places. It was a very serious break as the bone protruded through the skin. He was carried to Dr. Garys about 4 or 5 miles distant where the bones were set and he is now doing as well as could be expected.

The farmers are wearing bright looks since the rise in peanuts. The price advanced to three cents a few days ago and they decided to sell, and for some days strings of wagons and carts have been hauling them to the depot.

The spring election, while some time off yet, is getting warm as the candidates are quietly going the rounds getting their political fences in order. Some of them are doing some tall hustling. "Blue Dick" Moore says that while he has no wings he'll get there just the same. He is candidate for Constable of this district. He has had the office before and we believe, very popular. It is feared that the issue this spring will be "wets and dries" an issue likely to cause much bitterness and hard feelings.

Mr. Will Phillips of Ivor, Va., was in town a few days ago and called to see us. The writer is something of a somnambulist and it is a common thing for him to wake up walking around the room and back piazza, and even out in yard occasionally. We woke up the other night sitting on edge of bed with a revolver full sprung in our hand, and the strange part of it is these things are done without our mind being disturbed by anything. Can any of the REFLECTOR readers suggest a remedy. It is funny to us but annoying to our better half.

THE BEST IN THE WORLD FOR RHEUMATISM.

Charlotte, N. C., Dec. 10, 1884. I have used Mrs. Joe Person's Remedy and it is the finest medicine I ever used for Rheumatism. For more than 20 years I have been afflicted with Muscular Rheumatism, and had tried every known remedy, but without avail. I was often so bad off and suffered so much that I could not lie down, but had to be propped up in bed. I had been tried three severe attacks for 20 years. I tried Mrs. Person's Remedy last spring, and am perfectly cured. It is the best medicine in the world, I think. No words of mine can express the benefit I have derived from its use. My health is now perfect, and it is all owing to Mrs. Joe Person's Remedy. I am strong and well and can take extended exercise without fatigue. I advise all who need a Tonic, or are suffering with Rheumatism or Eczema, to take it. I was induced to try it by its having cured my little grandson of Eczema.

COTTON MARKET.

(Reported by Cobb Bros.)

NORFOLK, VA., Febr. 24th, 1893.—The cotton market has been wildly excited during the past week. Prices have been on an advance during the entire week. Stock-to-day, being stimulated by favorable reports as to the settlement of the Lancashire strike troubles which created hopes of an early revival of consumption in England. This influence, however, was entirely overcome late yesterday afternoon by advices from abroad which indicated no positive arrangements for a settlement of the strikes when the market lost heavily and is still lower to-day. Under these circumstances with the poor trade existing abroad and the European stocks and stocks' soft, we can not hope for an improvement in prices. Liverpool is reported dull with prices generally in buyer's favor at 5 1/16d for middling.

A Father's Gratitude
Impels Him to Tell How His Son Was Saved

White Swelling and Scrofula Perfectly Cured.

Son of John L. McMurray of Ravenswood, W. Va.

"I do not write this at the request of any one, but because I feel it a duty to humanity, so that others afflicted as my boy was may know where to find relief. "When my son was seven years old he began to complain of soreness in his right leg. A white swelling soon appeared just below the knee joint, and extended from the knee to the ankle. At the same time he was taken with an attack of fever, which was broken up, but the leg became very badly swollen, causing him great suffering, and the muscles so contracted that his leg was drawn up at right angles. He was unable to walk, could not even bear to be handled, and I thought him a confirmed cripple.

"After a time we had the swelling lanced, midway between the knee and the ankle, and it would discharge over a pint of pus at times. I decided to take him to Cincinnati to have the leg operated upon, expecting he would lose it. But he had come so poor and weak that I thought I would let him gather some strength, if possible, and bought a bottle of Hood's Sarsaparilla and began giving it to him. This medicine soon worked up his appetite, and he ate more heartily than for a long time. At this time the sore was discharging freely, and soon pieces of bone began to come out. I have my father's one piece of bone 3 1/4 inches long by nearly half an inch broad, which came out of the sore. We continued giving him Hood's Sarsaparilla. The discharge from the sore decreased, the swelling went down, the leg straightened out, and soon he had perfect use of his leg. He now runs everywhere, as lively as any boy, and apparently cured."

Hood's Cures

Head's Pills cure Nausea, Sick Headache, Indigestion, Biliousness. Sold by all druggists.

As Well as Ever. It was about six months from the time that we began giving him Hood's Sarsaparilla till we considered him perfectly cured." J. JOSEPH L. McMurray, Notary Public, Ravenswood, W. Va.

Notice of Dissolution.

The firm of JOYNER & HEILBRONER has been this day dissolved by mutual consent. Mr. Heilbronner retires from the firm and Mr. Joyner will continue the business and assumes all liabilities. O. L. JOYNER. ALEX. HEILBRONER. Greenville, N. C., Feb. 15th, 1892.

To My Friends: In connection with above I desire to return thanks for your kind patronage in the past and bespeak for Mr. Joyner a continuance of same. I shall be at the Eastern War House for some week yet and will be pleased to see my friends. Cordially, ALEX. HEILBRONER.

Farmers, Make Your Own Hay!

Something of Interest to Farmers!

NOW that the planting season is again near at hand, the question which is of the most interest to farmers, is, what shall I plant, where shall I plant it, after determining what to plant and when to plant, it is of equal importance how you plant and cultivate. We think it is conceded by all that no land will make a good crop unless properly cultivated. The result of last year's crops, we think, goes very far to show that a judicious use of commercial fertilizers pays on the lands in this section.

It is with much pleasure and satisfaction that we again offer for sale to our friends and patrons the High Grade and Reliable Brands of Fertilizer which we name below. The results from their use justify us in saying they are all well adapted to the soils of this section.

We will sell them for cash, or on time, upon usual terms, and we guarantee to give you a better grade of goods as cheap or cheaper than you can buy elsewhere.

Drop us a line for prices and terms, or call to see, and will take pleasure in naming you low figures and explaining to you the merits of the different brands. To individuals or clubs wanting a car load or more we will make special figures. We offer for your consideration and choice the following well established and high grade brands of Fertilizers:

Capital Tobacco Fertilizer—Not including a few brands of Fertilizers made especially for early truck. This is the richest highest grade brand of goods offered for sale in the State. The results obtained by our customers from its use justify us in saying we consider it the best goods for Tobacco sold in this section and we most heartily recommend it to your attention. As a Potato manure it ranks with the best.

National Fertilizer—As an all round moderate priced fertilizer is equalled by few and excelled by none. This goods has been thoroughly tested the past two seasons for tobacco and in no case has it failed to give entire satisfaction. It is equally good for both Cotton and Potatoes.

Pocomoke Guano—Is too well-known all over the State to need any recommendation at our hands. It has been tested on all crops and never found wanting. It has been used on Potatoes with the most satisfactory results, and for Cotton it stands at the head of the list. Such of our customers who have used it on Tobacco are much pleased and say they want it again.

Beef, Blood and Bone Fertilizer—This brand of goods as its name implies is composed largely of animal Flesh, Blood and Bone, and all farmers know these contain the best fertilizing properties of any thing they can use. This brand of Guano has been thoroughly tested on Cotton, Corn and Tobacco and you will be entirely safe to buy it for any crop.

Standard Bone Phosphate—This is a new brand of goods on this market but made by an old house, who thoroughly understand the business. It is composed largely of pure animal bone which we think is very valuable and is of permanent improvement to the soil. It comes to us very highly endorsed from other sections and we do not think you will make any mistake to give it a trial.

Acid Phosphate—Nearly all Acid Phosphate is the same, and differs only in the percentage of Avail. Phos. Acid which it contains. We have a standard brand for sale and guarantee it as good as the best.

German Kainit—Some farmers contend that Kainit makes them a better return for their money than any fertilizers they use. It is without doubt a good manure. We have a large stock on hand and know it to be good and pure as we take it direct from the importers' vessel. We are in a position to make you very low prices on Kainit and it will pay you to see us before you buy.

Write us and we will come to see you, or come to see us and we will make prices right and give you good goods. Yours truly,
YOUNG & PRIDDY,

THE REFLECTOR. Local Reflections.

March.
Third month.
Court next week.
Full moon to-day.

Lower water in the river.
Five REFLECTORS this month.
One-sixth of 1893 is behind us.
Potatoes are getting in the ground.
Violets and hyacinths are blooming.
The Legislature will adjourn Saturday.
Three more days and Grover will be in it.

Everybody looking toward Washington this week.
President Cleveland will be inaugurated Saturday.

We had March winds a week before March came.
Board of County Commissioners meets next Monday.

Use Meal of Cotton Seed, at the Old Brick Store.
Five each of Wednesday, Thursday and Friday in March.

It is kite season but the boys seldom indulge in this fun.
Castings are made at the Greenville Iron works to fit all plows.

Bliss Triumph—Plant the earliest Potato, at the Old Brick Store.
If you want any job printing prior to Court week bring it in at once.

Note the advertisement of Hood's Saraparilla beginning to-day.
States—States—States—States. A whole case of them at Reflector Book Store.

This is the last winter month, spring being scheduled to begin on the 22nd.
Do not forget the Greenville Iron Works if you want good Castings cheap.

There are several sections of the town in which shade trees ought to be put out.
We notice in several parts of the State bad railroad schedules are being roundly censured.

Sunday was a beautiful day. All the churches were open and had large congregations.
Last weeks weather was too beautiful to last, and Monday knocked it higher than a kite.

The egg market tumbled off last week and the price is getting nearer in reach of the pocket book.
A good supply of such weather as we had last week would help the farmer catch up with his work.

If you want an ice cream freezer look into the merits of the Jack Frost Freezer advertised in this paper.
Every child in the county needing a slate should see those at Reflector Book Store. Nice slate for 3 cents.

The more care our people use about fire in this windy weather the less danger there will be of a conflagration.
Judge Shuford will preside at the term of Pitt Superior Court beginning next Monday. Only civil cases will be tried.

Several of the people in town are taking more interest than formerly in poultry raising. It is a profitable industry.
I have used Pocomoke Guano for the past two years on cotton. It has given me entire satisfaction, and I consider it as good as any guano sold in this section.

Holland, N. C., Feb. 14th 1893.
Hawaii is being pretty extensively advertised. Wonder if there has been any advance in the price of real estate over there.

It does look like something might be done for Greenville if our people would show a reasonable disposition to unite their energies.
If anything is projected for the good of Greenville help it along rather than cry it down. We have had too much croaking already.

We hope the Legislature will adjourn before all the bills for new counties get through. There are already too many counties in the State.
We hope the bill of lading under which the hoop shirt is to be shipped over to this country will be lost in transit so that there will be no claimant for the article.

I used B. B. B. fertilizer in 1891 on cotton by side of two other standard brands of guano. It did fully as well, and may be a little better than either.
Subscribers in town will please hand pay for the REFLECTOR to the Carrier when he calls on them. It is not convenient for him to call several times when once should answer.

The Rifles had a splendid drill Friday afternoon. There were over thirty men out and Capt. Smith put them through the figures. The officers had their new side arms and wore them gracefully.
So many of our people went down to the Newbern fair last week that the REFLECTOR could not begin to keep up with them. Fully one hundred went from Greenville, and they all had a good time.

The work done on the streets last week makes our thoroughfares look much better. Now if some of the citizens will do a little work to the sidewalks along their premises it will add to the improvement.
Messrs. Allen Warren & Son, proprietors of Riverside Nursery have donated \$10 worth of fruit and ornamental trees to the Odd Fellows' Orphanage at Goldsboro.

Mr. W. A. James, Sr., of Carolina township, lost his dwellinghouse, kitchen and smoke house by fire one night last week. Very little of the contents of the buildings was saved. The loss is over \$1,000.
The W. & W. Railroad Company has petitioned the Railroad Commission to allow the discontinuance of House station three miles north of Greenville. That station has been quite a convenience for people on the North side of the river and they will regret to see it discontinued.

Personal.
Mr. J. B. Cherry is sick this week.
Miss Eliza Ward is visiting friends in town.

Mr. R. J. Cobb went to Norfolk Monday on business.
Mr. C. W. Priddy spent part of last week in Richmond.

Mr. R. C. Flanagan returned Monday to Washington City.
Miss Bessie Jarvis left Monday to visit friends in Scotland Neck.

Mrs. E. B. Higgs spent last week at Scotland Neck, her former home.
Mr. B. C. Pearce spent last week at home and left Monday for Baltimore.

Mrs. Bettie Swindell left Monday for Raleigh to visit her sister, Mrs. Russ.
Messrs. R. L. Cotton and W. C. Moore went to Henderson Monday on business.

Mr. Pat Matthews and wife, of Edenton, were at the King House the past week.
Sheriff R. W. King and family returned home Monday from a visit to Kinston.

Mrs. D. Abrams, of Rocky Mount, is visiting her daughter, Mrs. S. M. Schultz.
Mr. Geo. B. Copes, editor of the Beaufort Times, is spending a few days here.

Register of Deeds H. Harding returned Monday evening from a few days visit to Chapel Hill and Raleigh.
Mrs. J. D. Bullock (nee Miss Annie Brown) of Oxford, is visiting her parents here, Dr. and Mrs. J. P. Brown.

Rev. R. B. John, Presiding Elder of this district, now makes Washington his headquarters instead of Greenville.
Messrs. R. M. Hester and F. P. Meadows who have been on the tobacco market here the past season left Monday.

Mr. V. H. Whichard and daughter Miss Ora have gone to Salisbury to spend some time with the old man of the Herald and his family.
We regret to learn of the death of the wife of Mr. S. C. Whichard, of Carolina township, which occurred Saturday afternoon.

Mr. W. F. Rowland, agent of the Wheeler & Wilson Machine Co., has moved his family to Greenville. They live at the Ricks House.
Rev. J. H. Lamberth, who has been preaching for the Baptist congregation here during the past month, left Monday to be absent a few weeks. He will return to Greenville by the first of April.

Miss Lela Keel, a popular young lady of Keelsville, this county, was married last Thursday to Mr. Marcellus Everett. The ceremony was performed by Rev. J. L. Winfield, editor of the Watch-Tower.

Always consult what REFLECTOR advertisers have to say. You find among them the men who want your trade and who are willing to make an effort to secure it. Such men will show their appreciation of your visits to their store by offering you every inducement possible.

The March number of the New Peterson Magazine Philadelphia, has a table of contents that is interesting and charming. When it is remembered that the South is represented on the staff of this excellent magazine, and that the price is only \$2 a year, it ought to be liberally patronized by our people.

If anybody happens to borrow this issue of the REFLECTOR and sees this item let it be a reminder to bring along a dollar when you come to Court next week and get a year's good reading for it. To do this will please three people—yourself, the editor, and the man you have been borrowing from.

I have used both Pocomoke Guano and National Fertilizer for potatoes with entire satisfaction. I think either of them did as well for me as some higher priced fertilizers I used. I consider them as good as any.
F. FLEMING.
Greenville, N. C., Jan. 17th, 1893.

Any of our friends coming in from the country who know of any items of news in their neighborhood, would confer a great favor by dropping in the REFLECTOR office and telling us. In this way many items that escape us would be printed, and it will of course help make your county paper more interesting. Now try it and come tell us something.

We doubt there being a school in the State, outside the colleges, so well equipped with choice literature as the Trinity School at Chocowinity. This office has recently placed two large orders for periodicals for the reading room of that school, the list embracing a number of the finest publications to be had in this country.

Some people are hard to learn anything, as there are those who still send letters for publication without letting their names come along with them. About the first thing we look for about a communication is the name of the writer, and if the name is missing we as often as not throw the article aside without even reading it.

I used National Guano on tobacco in 1892. It gave me entire satisfaction and did as well as any guano used on Mr. Evans farm, although some of it was higher priced than the National. Six acres of tobacco averaged me between \$75 and \$100 per acre.
A. H. CHATFIELD.
Greenville, N. C., Feb. 10th, 1893.

New Officers.
Covenant Lodge L. O. O. F. installed the following officers at their last meeting:
S. T. Hooker, N. G.; W. R. Parker, V. G.; E. A. Moye, R. S.; W. L. Brown, P. S.; D. W. Hardee, Treas.

The Fair.
Everybody who went to the Newbern fair last week came back delighted and said it was the best fair yet held there. The excursion from Scotland Neck and Greenville certainly broke the record over all previous ones. The train left about on time and it returned on time, just as was advertised for it to do, and the people were consequently pleased and praised the railroad some, too, as well as the fair. May be the rubbing the REFLECTOR gave the miserable excursion of last year had a good effect.

Found—the reason for the great popularity of Hood's Saraparilla—simply this: Hood's CURES. Be sure to get HOOD'S.
Master of Optics.

Lost his Leg.
We regret exceedingly to learn of the serious accident that befel Mr. Asa Garrix, of Littlefield, this county, not many days ago. While working around his saw mill the band on the drive wheel broke and flew against his leg with such force as to shatter that member from just below the knee to the ankle. The limb had to be amputated last week.

Pounded Him.
A subscriber writes us that Rev. Alban Greaves received quite a heavy pounding at the hands of his parishioners at St. John's, Pitt county, on Saturday, the 4th inst. Mr. Greaves though taken by surprise, was not in the least disconcerted or disconcerted but seemed to enjoy the proceedings prodigiously, and in a neat little speech returned thanks to the donors for their timely liberality. Should his other parishes do likewise, the rector's larder would be generously supplied for some time.—Kinston Free Press.

A Rogue Captured.
While supper was being served in the hotel at Bethel, Saturday evening, Jim Davis, colored, slipped into Prof. McWhorter's room and stole an overcoat and a lady's gossamer. Sunday morning the overcoat was found in the possession of another negro to whom Davis had sold it. A warrant was issued for Davis, he was arrested at Robersonville, and spent Sunday night in Greenville jail where he still has quarters. We learn that he is an ex-convict and a notorious thief and forger, quite a number of his misdeeds coming to light since his arrest.

I have used both the National Fertilizer, and Beef, Blood and Bone Fertilizer on cotton, with entire satisfaction. It done as well as any I have used.
J. R. BARNHILL.
Grindool, N. C., Feb. 4th, 1893.

The Goldsboro Argus well says: The only safe course for a community to pursue is to deal with local merchants. Whether it is crockery, groceries, millinery or dry goods, the citizens should go to established dealers for their supplies. It is the safe and honorable way. The citizens expect the merchants here to sign every subscription paper for public and charitable objects, as well as pay their taxes, insurance and the various expenses of maintaining respectable and attractive wards of trade. It is no incumbent on the people generally to do their trading right here at home with houses that are permanent and reliable.

The wise business man can do two things judiciously—he can spend and he can save. It is not the penny-pincher who gets rich, it is the one who keeps every dollar active. It takes a good deal of money to advertise freely; it takes a good deal to advertise persistently. But this money paid out is like sowing seed—the harvest follows. Hoarding is like putting grain in a bin—there is no crop the next year. Be generous in circulating money—this is not squandering. Be careful, though, in the way you spend. There is a point at which liberality becomes extravagance, and that is fatal. Look beyond to-day's purpose and if to-morrow, or next week, approves it you are pretty sure to be right.—American Advertiser.

I used National Fertilizer last year under cotton and tobacco—considering the bad season, I think it did as well for me as it could. I made some fine tobacco.
SAMUEL MOORE.
Bethel, N. C., Feb. 4th, 1892.

Another Fire.
Fire broke out in the Jothnton or Little Washington suburb, a quarter of Greenville thickly settled by colored people, about 1 o'clock Friday afternoon, and destroyed three buildings. The fire started in Bill Hanrahan's house and is supposed to have caught from sparks. From this house the fire quickly spread to the house of Adelaide Hanrahan and the house of Luke House had to be torn down to keep the flames from going further on that side of the street. Just across the street was a thick row of buildings upon which the high wind blew the heat and flame, and it was only by hard work that they were saved. The firemen and citizens worked manfully and the faces of several were almost blistered by the intense heat. The loss by the fire was not very large but the sufferers being colored people it is heavy on them.

Marriage Licenses.
During February Register Harding issued licenses to the following couples:
White.—William Sutton and Sarah White, William Keel to Sarah Bland, W. P. White and Eva Humber, A. L. James and Louisa Crandall, Edward Fleming and Willie Sutton, William Seddard and Percie Jones, M. Everett and Lela Keel, C. W. Exum and Katie Cherry.

Colored.—John H. Mitchell and Nannie Perkins, Willie Morris and Martha Newton, Frank Corbett and Sarah Newton, Frank Pitt and Annie Peables, Lem and Williams and Charity Norfolk, Ulysses Hines and Hattie Joyner, Bud Willie Williams and Laura Langley, R. Sherrod and Ida Jones, Haywood Grimsley and Emma Joyner, Alfred Collins and Martha A. Green, Phillip Jones and Louisa Lawhorn, Robert King and Laura Adams, Frank Evans and Ann Eliza Grimes.

Opinion of the Wilmington Messenger.
"Dr. Harmon has made a good citizen in all respects since his sojourn in Wilmington, and he leaves behind him many friends who are sorry to see him take his departure. Professionally he has given very general satisfaction and he carries away with him testimonials from many of our very best citizens who have been his patients. A member of the Messenger staff can add his testimony to others as to the great benefit his eyes have received under treatment from Dr. Harmon. His treatment in this instance has given great satisfaction and we can cheerfully and sincerely recommend him to persons who desire the services of an experienced and successful oculist."

If you have any trouble with your eyes, give me a trial and see what I can do. I have been in the State of North Carolina since 1887, and have 6,412 patients in the State. I claim I have made a success, otherwise I could not have stayed so long in the State, as it would not have supported me.
I will reach Greenville March 8th, and spend some days at the King House.
My office hours are from 9 A. M. to 1 P. M., and from 2 P. M. to 5:30 P. M.

OUR WILSON STOCK AT COST!

Stand ready—everybody—to catch the quality as they fly—We've grasped the knife this time with a grip of determination—nothing shall stay our hand—We'll turn our backs on the loss of profit—and snap our finger at the sacrifice of cost—The truth of it is just this—our Wilson stock has been moved to our Greenville store—where we have not the room for them—and you know we are not disposed to dabble in the future until the ground is settled—so we are going to settle it NOW—At this "stage of the game" a mite of money is worth a mountain of stock to US—While there yet remains months of service for you—in these goods—dear will be the ear that does not hear the breaking of these prices—Blind the eye that cannot see the opportunity—Poor—indeed—the purse that cannot claim a share of this monster sacrifice—This sale—will only be for 30 days—and don't fail to take advantage of it.
Respectfully,
C. T. MUMFORD.

Yours to please,
JACK WHITE, Greenville, N. C.

VAUGHAN & BARNES, COMMISSION MERCHANTS
Norfolk, Va.

The movement of the cotton crop thus far this season would indicate that there was some foundation for the bad crop accounts daily reaching us from all parts of the cotton territory, if so the staple is selling too cheap and parties wishing to hold for higher prices can do so by shipping it to us and drawing for \$25.00 per bale on same and having it held for six months is so desired.
Faithfully yours,

Commissioners' Sale of Land.
PITTS COUNTY SUPERIOR COURT
W. Charles Hardy, trading as Hardy & Bros., vs. J. T. Evans, J. B. Galloway.

Pursuant to the power and authority given in a mortgage executed by J. T. Evans and Hardy & Bros., recorded in the Register of Deeds office, Pitt county, Book R 4 page 59, and in accordance with a judgement and decree of sale in the above entitled action obtained in the Superior Court, Pitt county, at December Term 1891 recorded in judgement docket No. 10, case 679, I will offer for sale at the Court House door in Greenville on Monday March 6th 1893, to the highest bidder for cash the following tract of land, adjoining lands of Frank Mills, John Carroll, Alfred Weathering and others containing fifty acres.

Upon failure to raise a sufficient amount of money from the sale of said fifty acre tract to discharge and satisfy said judgement I will at the said Court House door on the 8th day of March, 1893, offer for sale for cash another tract of land described in said mortgage and decree as follows: "Also lot containing one acre on which my store house now stands and all improvements" being the one tract of land on which the store house of the said J. T. Evans now stands.

"Seeing is Believing."
And a good lamp must be simple; when it is not simple it is not good. Simple, Beautiful, Good—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either.

Look for this stamp—THE ROCHESTER. If the lamp dealer has not the genuine Rochester, the stove you want, send to us for our new illustrated catalogue, and we will send you a lamp freely, express—your choice of over 2,000 varieties from the Largest Lamp Store in the World.
