HIGGS BROS., GREENVILLE, N. C.

BRIGHT SPARKS.

NOTICE—Gentlemen's Clothes Cleaned, repaired and pressed by Mrs. A.H. Burch. August. Sewing Machines at cost at D. D. Haskett's. This is the eighth month of '93. Fruit Jars Cheap at the Old Brick Store. A small close-fitting bow is the latest fad in neckwear. The Best Flour on earth \$1.50 at the Old Brick Store. An occasional picnic helps to while away the hot days. Manila and Sisac Rope all sizes at D. D. Haskett's. The Board of County Commissioners meet next Monday. Received today fresh N. C. Mountain Butter at 30 cents per pound at the Old Brick Store. The delightful rain Sunday afternoon was a welcomed visitor. Iron Drive Pumps with Galvanized Pipe for \$5.00. D. D. Haskett. Get your grip ready and go on the excursion to Ocracoke Saturday. Do not forget to call on A. B. Ellington if you want a lift or force pump. Many of our people will go to the picnic at Falkland tomorrow. Watermelons have got plentiful enough to be cheap now. Now is the time to send your Engine to A. B. Ellington for repairs. Stop and look at the White and Blue and Gray Ware at D. D. Haskett's. The Tar is so low that steamers are troubled to get even to Greenville. A. B. Ellington has received a lot of pipe and fittings which he is selling cheap. Rocky Mount now claims to have the best base ball team in the State. I have on hand One 40 Saw Brown Cotton Gin which I offer cheap. D. D. Haskett. The re-union of the 27th N. C. regiment takes place at LaGrange Friday. A large stock of nice Furniture cheap at the Old Brick Store. See notice to creditors by Charles A. White, executor of Samuel Cory, deceased. Remember I pay you cash for Chickens Eggs and Country Produce at the Old Brick Store. The attention of parents is called to the advertisement of that excellent school for girls and young ladies, Kinsey Seminary, at LaGrange. Prof. Kinsey is a teacher of recognized ability and his work is always thorough.

THE REFLECTOR. Local Reflections.

J. J. Stokes & Co. have moved into the new brick store adjoining Brown & Hooker. The railroads are selling tickets to the Worlds Fair at one fare for the round trip. The visitors to Verohead pronounce this the most enjoyable season there for many years. The days have been very warm but the cool nights following help to make them endurable. A teachers institute is being held in Greene county this week by Profs. Graham and Noble. If anybody stumbles over a pair of pocket scissors please note that the editor has lost a pair. There has been right much complaining of the hot weather, but only one more summer month remains now. The Observer has been finding vegetables "in the soup" up about Charlotte. That beats "billin' the dish rag" bad. The year is slipping right away and soon we all will be feeling the better times attendant upon harvest season. Cotton is fruiting well, and if the seasons are favorable from now on and the fall is late the yield is going to be large. This month piles the number up again and gives five each of Tuesday, Wednesday and Thursday, also five REFLECTORS. The REFLECTOR office is getting a nice display of new crop tobacco samples. It is the admiration of all who see it. It is the cheapest trip heard of—fare for the round trip and a week's board at Ocracoke all for \$7.50. Get ready for the excursion Saturday. On Saturday Mr. F. M. Smith brought us two stalks of tobacco of his own curing. It was as fine a cure for the stalk through as we ever saw. If many people would try as hard to pay their debts as they do to keep from paying them you would not hear half so much complaining of hard times. Some people wonder and inquire how they can keep cool during this weather. Crawl in somebody's ice house, is about the best suggestion we have to offer. "Annie Rooney" was supplanted by "Ta, ra, ra," but now that takes a back seat and the latest song occurs "After the ball is over." It hasn't broke out here yet but is coming. The tobacco market opened yesterday for a new season. Now everybody brush off the dust, spit on your hands and take a grip on things with a determination of shaking down something for Greenville before the season is over. About twenty young people from Greenville went up to the picnic at Barrett's Grove near Farmville, last Thursday, and say it was one of the most enjoyable they ever attended. The people of that neighborhood know how to get up that kind. No doubt there is much of truth in the following from an exchange. It says that too many young people depend on their father's money taking them through this world, and their mother's prayers making everything all right for them in the next. Two negroes who have been noticed as doing scarcely no work during the year but occupied their time loafing, were put in jail last week for stealing hogs. A man with no visible means of support who loafs all the time is apt to wind up just this way. A bicycle rider who was here last week, upon seeing the handsome Victor at the REFLECTOR office remarked that he recently made a tour through portions of Maryland, Virginia and West Virginia, and a majority of all the wheels he saw in several hundred were Victors. Last Wednesday's issue of the Norfolk Landmark gives an account of the organization of a new lodge of I. O. O. F. with 129 members. In the list of officers elected we see the names of C. L. Whitchard as permanent secretary, and C. C. Cobb as chaplain. This is a compliment to Pitt county. Don't buy a new coat till you have paid for the old one, and don't try to put on style as long as your debts are unpaid. Poverty is enough at any time, but when coupled with decayed aristocracy, it is unbearable. Live within your means and owe no man a cent, if you would really know what independence is.—Ex. Take the word "enough," transpose the letters in such a way as to make two words signifying "not enough." This is how it is done: Take the third, second and last letters for the first word, and the sixth, fourth and fifth for the second, and you have something that is not enough for the average girl. This was learned at Ocracoke. Last Thursday evening at Parneto a colored man working at the Parneto & Eccleson mills was accidentally killed. A piece of timber caught in some of the machinery and flying off struck the man end foremost and went nearly through his body, killing him instantly. Only a few weeks ago a white man was killed at the same mill in almost the same manner. The REFLECTOR has several times been complimented on the quality of paper it uses and its general neat and attractive appearance, and two or three of our exchanges have recently written to know of whom we buy the paper, we get it from The Thos. W. Price Co., 503-505 Minor St., Philadelphia, a clever and reliable firm as we ever had dealings with. Mr. R. L. Munford has purchased the interest of Mr. W. H. Cox in the business known as the Racket Store, and it will hereafter be conducted by him and Mr. W. B. Greene. These young men are hustlers from the word go and will make their business hum. They are going to carry a large stock and the man who sells below them will have to get up and make his figures soon in the morning. REFLECTOR readers will hear from them.

Personal. Mr. J. E. Starkey left Monday evening for Asheville. Miss Lillie Moore left Friday evening for a few days visit in Ayden. Miss Eta Harris has been visiting in and near Ayden for the past week. Mrs. W. R. Parker and Miss Mary Bynum left Friday for Panama Springs. Mr. W. B. Brown and family are visiting Mr. L. D. Ames, near Portsmouth, Va. Mr. W. L. Cobb returned home last Thursday from a pleasant trip to Augusta, Ga. Mrs. J. D. Bullock, of Oxford, is visiting her parents, Dr. and Mrs. J. P. Brown. Mr. and Mrs. J. E. Langley, Richmond, are visiting the family of Mr. J. L. Langley. Mrs. E. P. Stewart, and children, of Washington, N. C., are on a visit to Mrs. Griffin. Ex-Governor and Mrs. T. J. Jarvis returned home last week from a month's stay at Morehead. Miss Ann Delaney, of Washington, has been visiting her old home for the past two weeks. Misses Aylmer Sugg and Nannie Fleming spent part of last week with friends near Farmville. Miss Sadie Sibert left Saturday for Raleigh where she joins the teachers party for the World's Fair. Mr. D. D. Haskett left yesterday for Statesville to attend the meeting of the Grand Lodge of Knights of Honor. Miss Katie Haskett, of Kinston, has been spending some days with the family of her uncle, Mr. D. D. Haskett. Mr. and Mrs. L. W. Lancaster, of Raleigh, were visiting the family of Councilman J. S. Congleton last week. Mr. S. H. Romtree, of Kinston, a Masonic lecturer, is delivering a series of lectures to the Greenville Lodge this week. Miss Nannie Moye, who for several weeks past has been visiting Miss Rosa Forbes, returned to her home in Kinston Monday evening. Dr. C. J. O'Hagan has gone to spend some weeks at Panama Springs and Morganton, in this State, and at White Sulphur Springs, in Virginia. Rev. B. W. Spilman attended the Baptist Union meeting at Littleton Friday to Sunday. He delivered his humorous lecture in that town Monday night. Rev. J. W. Wallace, of the Washington circuit, preached two good sermons in the Methodist church here Sunday. He is a young man of bright prospects and promise, and with his attainments can arise to great usefulness in his sacred calling. Mr. C. L. Whitchard, of Norfolk, book-keeper and stenographer for the firm of Cobb Bros. & Co. is visiting his home people in this county. He runs down from his father's on a bicycle Friday, and spent a couple of days with the REFLECTOR household. Mrs. S. S. Wallace, of Trinidad, Colo., who has been spending some months with her sister, Mrs. M. A. Jarvis, left for her home last week, taking her niece, Miss Bessie Jarvis, with her. The latter will spend a year in Colorado. Miss Bessie will be greatly missed by her host of friends here all of whom wish her a pleasant visit in the west. Colored Base Ball. Tuesday of last week the colored base ball club of Greenville wiped up the earth with the Tarboro club in a match game played here, the score being 20 to 8 in favor of Greenville in six innings. The Tarboro boys played well, but the victory was an easy one for Greenville. The feather weight home battery, Hazel and Daniel, were hard to down. The visitors could not bat Hazel and Daniel kept them from coming in. Marriage Licenses. During the month of July Register Harding issued licenses to the following couples: WHITE—C. S. Dixon and Ida Smith, W. G. Bryant and Sallie Taylor, Charlie Williams and Clemmie Buck, Leon Randolph and Harriett Briley. COLORED—Henry Satterthwaite and Mary Jane Pearce, Herbert Dixon and Emma Brown, Jim Knight and Caroline Weaver, Norcott Smith and Simon Ann Norton, Eli Crandall and Magnolia House, Henry Moore and Bada Atkinson, Samuel Rostorn and Mista Barber. Between Washington and Newberne. The Steamer Gazelle, Capt. D. Hill, master, that is making such delightful trips to Ocracoke this season, will begin next Monday running one trip a week from Washington to Newberne for the accommodation of passengers. The steamer will leave Washington Monday morning at 6 o'clock, touch at intermediate points and reach Newberne that evening; returning leave Newberne Tuesday morning, arriving at Washington the following day. This trip will be a great convenience to the traveling public, especially the druggists. It will not interfere with the present Ocracoke schedule. A Setting Gobbler. Mr. J. C. Dixon of Black Jack was in town Saturday and told us of a peculiar notion a turkey gobbler belonging to him had taken. One of his turkeys had been laying in the woods not far from the house but for fear the foxes would get the eggs he took them out as fast as laid and kept some white marble shells in the nest. When the hen was ready to set he made her a new nest in the yard. A few days after setting the hen he missed the gobbler. In the evening the gobbler came up for food and disappeared again. The next evening the same thing occurred and the following day, Friday, Mr. Dixon followed the gobbler to see what it was up to. The gobbler went straight to the nest in the woods where the hen had been laying, and getting on it with all due ceremony went industriously to setting. As it is not probable that the gobbler can get anything out of the marble shells, Mr. Dixon says he is going to give him a few eggs and watch the result.

Important Just Now. It is important at all times that men should give the highest consideration to the education of their children. And now with such flattering prospects of a good crop confronting us on this subject should merit especial interest from every parent. The remark is so often heard "I would like to send my boy to school, but crops are so poor and times so hard." This is uttered, perhaps, without considering that your boy's mind is being neglected so far, and with him it may be slipping from reach of the golden opportunity of his life. Now taking it for granted that with the brighter prospects ahead this is to have more than usual consideration, we call attention to the advertisement of Greenville Male Academy that appears in this issue. It is conceded on all hands that Pitt county has at no previous time had so excellent and competent an instructor for boys as Prof. W. H. Ragsdale, the principal of this school. His work is always thorough and attended by the best results, as any patron of his school will testify. Coupled with this his rates of tuition are lower than can be had at any similar institution in the State, and taking these things into consideration Greenville Male Academy offers decidedly the best advantages to boys of any school in Eastern Carolina. Johnson's Mills Items. Watermelons are quite plentiful now. Misses Myrtle Tucker and Mamie Dawson who have been visiting at Mr. T. Blands the past week returned home last Saturday. Miss Mary Mewborn of Kinston is visiting friends and relatives at this place. Owing to the Teachers Institute in Greenville last week the free schools were all closed for a few days. Messrs. Clarence and Walter F. Harding spent a few days in Greenville last week. Miss Annie B. Harding is quite sick at her home at this place. We hope she will soon be able to be out again. Miss Maud R. Wotten of Lenoir county is visiting relatives in this county. Miss Emile Roach of Coville, after spending a week with Miss Eliza Patrick returned home last Tuesday. Mrs. Lewis Ives died last Tuesday after illness of five weeks. Her remains were interred in the cemetery at St Johns Wednesday. She leaves a husband and six children to mourn their loss. UNCLE PETER. Man Killed at Ayden. Saturday night Coroner W. E. Warren received a telegram from Ayden that J. W. Harrington had killed Will McLawhorn with a pistol, and asking him to go down and hold an inquest. The coroner went down and the inquest was held Sunday morning in Savage's barroom where the shooting occurred. From the evidence before the inquest the jury returned a verdict that the killing was accidental. It developed that Harrington, McLawhorn and some others were drinking freely at Savage's bar, when there was a sudden report of a pistol and McLawhorn fell dead with a bullet in his right breast. It seems that no one present saw the shooting and could not tell just how it occurred, but Harrington says that while they were drinking he went to show McLawhorn his pistol and in taking it from his pocket it got hitched in his handkerchief and accidentally discharged. While it is one of those mysterious affairs that cannot be explained fully, it is safe to say that whiskey was at the bottom of it. Maybe some of those who worked so hard to undo the work of incorporating Antioch Church and get a bill through the last Legislature to allow whiskey sold in Ayden will be satisfied at such results as this growing out of their labors. Book Notes. "Toilettes" always contains the latest and most correct fashions. The September number is no exception. It contains in addition to its usual array of styles quite a number of new designs for autumn. Price 15 cents, Toilets Pub. Co. N. Y. August number of the New Peterson is as full as can be of charming articles from the very best authors. We are glad to see that Miss McClelland is back in the table of contents again after an absence from several issues because of sickness and bereavement in her family. Her article in this number is "Prof. Polyeur's Invention," with illustrations, a very humorous and entertaining production. All the writers merit themselves with marked credit. The New Peterson is only \$2.00 a year. Philadelphia. The August Wide Awake is an excellent number and full of articles that will delight old people as well as young and the illustrations are fully up to the standard. One article, "A Race for Life," by John Willis Hays, is descriptive of the last encounter with Red Skins in North Carolina. Wide Awake is \$2.40 a year. D. Lothrop Co., Boston. The Cyclopedic Review of Current History for the first quarter of 1893 has been received. It contains complete record of all international affairs, also affairs in America, Europe, Asia, Africa and elsewhere. The science record is complete, embracing as well matters of literature, art, music, drama and religion. Its necrology contains brief mention of the death of all prominent people, American and foreign. This number has a portrait and sketch of Edwin Booth. The work is complete in every department and is a useful publication. \$1.50 per annum. Garretson, Cox & Co., Buffalo.

TOBACCO DEPARTMENT

Conducted by O. L. JOYNER, Proprietor Eastern Tobacco Warehouse.

LOCAL NOTES AND TOBACCO JOTTINGS.

Mr. W. H. Caraway sold a load of new primings at the Eastern last Wednesday.

Mr. G. W. Venters brought us as fine a sample of Eastern Pride wrapper as we have ever seen.

Reports from all parts of the country show that the tobacco has improved largely from what was expected.

Mr. L. B. Burney says he has cured two barns of the nicest primings that he has ever seen. He will now begin upon the stalk.

Mr. John R. Forbes tells us that it was thought the storm that passed through his section almost ruined a part of the crop of R. C. Cannon and numbers of others in that community but is improving rapidly now.

If the samples of tobacco in the REFLECTOR show case is a specimen of the Eastern '93 crop, fancy tip top prices may be expected later when they are offered on the sales floor. We can whoop up right on such tobacco.

Our local last week referring to the fact that thermometers were being sold at figures five times as high as in January seems to have created some confusion. The facts are thermometers are selling now at the same price that they have been selling all the while, but the mercury in the thermometer runs five times as high as it did in January.

The Danville Tobacco Journal of July 15th pays the following kind and generous tribute to the Greenville market:

Greenville is located in the center of the seven counties constituting the new North Carolina golden tobacco belt, and promises to be in that section what Danville is to the bright belt of the two States, the capital of the belt. Parties desiring bright tobacco are invited to visit the town before locating on other markets, and they will be hospitably received by Messrs. O. L. Joyner or G. F. Evans, who will be glad to answer any correspondence.

Farmers are now curing primings. In a short while they will be in the busiest of the stalk curing season and a word now during the warm weather to those who have cured primings might be beneficial at this season of the year, all kinds of tobacco is in high order unless it is so arranged as to allow the air to circulate freely through it. Primings are necessarily bulked close and unless they are carefully attended to and rebulked often they will surely damage. Another thing should be closely watched, take out all the swell stems that can be found and hang them up some where and grade and sell as soon as possible. They will damage other tobacco.

TOBACCO CULTURE.

LETTER 4.

While out a few days last week we stumbled on the following methods employed in tobacco culture by one of the most successful tobacco growers in Nash county. Break the land thoroughly with a two horse plow early in November and lay off the rows with a turn plow three by three and a half feet and drill immediately in the furrows six wagon loads of stable manure to the acre and then make a double list on the rows. Let the land remain in this condition until the last of January or first of February and then take a cotton plow and burst open the list made on the stable manure so as to scatter the manure all over the row and the tobacco roots will reach the manure on both sides of the row. Then sow 800 or 1,000 pounds of some good commercial fertilizer to the acre and 300 pounds of cotton seed meal mixed together make another list on your rows thus manured and open the middles between the rows and your land is ready for the plants. He says in manuring this way you must be very careful about the time the manures are placed on the land. The stable manure is put in in November so as to let it rot and become thoroughly mixed with the rows to sow the guano, otherwise it might burn up the tobacco. By this means he says you can build up your land at the same time make a good crop every year.

We are an uncompromising believer in intensive agriculture in every sense of the word and while we will not take issue with our Nash county neighbor in fertilizing his own land but it really seems to us that if Pitt county

farmers were to employ this method on most of our lands that we would make nothing but black tobacco, but a plenty of that. Our lands mostly are alluvial and fertile and it would not do to put this much manure in the drill it might profitable to broadcast and plow in flush and in this way it would not be long before we would have some very rich land and land that we could make fine tobacco on every year. The idea that poor land is the kind to make fine tobacco on is rapidly disappearing as our farmers learn more about it.

Cwing to the present depressed condition of finance all over the country and the uneasiness and lack of confidence attending such a time, the warehousemen and leaf dealers of the Greenville market deem it their duty to say to their patrons that it is to their interest to hold their tobacco a short while before rushing it on the market to be sold at one half its value. In a few days Congress is expected to assemble in an extraordinary session to devise means by which the business interest of the country can again resume work on a sound and solid basis.

We take occasion to say however, that should anyone wish to sell their tobacco the Greenville market is prepared to pay market prices for tobacco as compared with any market in this State or Virginia and the above is suggested because we believe it to be for the best interest of the farmer.

Mr. W. S. Rawls, of Tyson & Rawls, bankers, told us today that they were in as good a condition to do business as at any time in the past. We state this as an assurance to those who want to sell their tobacco that they can get as much money for it here in Greenville as anywhere else in any State and after August 1st we shall be at our post of duty ready to look after the every interest of our customers. We congratulate the farmers of Eastern Carolina on the prospects of the present crop and believe it is the best one in quality that we have grown since 1890 and when the financial problem shall have been solved and money matters become easier we verily believe that farmers will receive a handsome compensation for their crops. To the farmers we would say give yourselves no uneasiness but watch the movements of the business world and when the markets become active and prices steady and well sustained you will be pretty apt to find it out. While the above is not in accord with the personal interest of the warehousemen and tobacco men yet in justice to our patrons we are forced to recognize the fact that unless money matters become easier not only the price of tobacco but every other farm product will remain low. It is the opinion of financiers and leading business men that on the assembly of Congress time will become better and the original march of business resumed. This is looked and hoped for and the only thing that we can do is to wait patiently for the outcome. In the meanwhile we would say pay no attention whatever to the flashing warehouse circulars that are going the rounds of the mails asking you to bring in your tobacco regardless of the present condition of affairs. The people the most of them have no interest in you or the market either and are only interested in the dollar they get out of you in the way of commissions. In conclusion we will say if you insist on selling bring it to Greenville and we will guarantee you as much as you get anywhere else.

Deserving Praise
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. WOODEN'S Drug Store.

To cure nervousness your nerves must be fed by pure blood. Hood's Sarsaparilla makes pure blood. Take it now.

White Caps administered a severe whipping at Lumberton, Tuesday night, to L. A. Lowson, his wife and daughter, for conducting a disorderly house in the heart of the town.

It Should Be in Every House.
J. B. Wilson, 571 Clay St., Sharpsburg, Pa., says he will not be without Dr. King's New Discovery for Consumption, Coughs and Colds, that it cured his wife who was threatened with Pneumonia after an attack of "La Grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cookport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for Lung Trouble. Nothing like it. Try Free Trial Bottles at WOODEN'S Drug Store. Large bottles, 50c. and \$1.00.

Southern Business Men Active.
The Baltimore Manufacturers' Record says the city of Memphis, Tenn., enjoys the presence of the Young Men's Business League, which is an energetic organization, and has succeeded in locating in Memphis four new factories paying \$300,000 yearly in wages and adding 2,500 to the population of the city. Also that "the citizens of Natchez, Miss., have recently organized the Natchez Manufacturing and Aid Association to promote the industrial interest of that city." This association has adopted the installment plan of paying up its stock, "and its capital will be used to assist manufacturing enterprises that desire to locate there." Helena, Ark., "has a business men's league that is displaying much energy and earnestness in pushing the city forward. From this organization comes another new idea in development methods, being the application of the plan of building and loans associations to the erection of manufacturing establishments."

I KEEP COOL
inside, outside, and all the way through, by drinking
HIRES' Root Beer
This great Temperance drink is as healthful, as it is pleasant. Try it.

If you feel weak and all worn out take **BROWN'S IRON BITTERS**

NICOTIANA.

The tax on Leaf dealers at Havana (Cuba) has been increased from \$300 to \$500 per year.

The American Tobacco Co., is supplying the Washington (State) trade from Portland, Ore., and it is no trouble to get what is wanted in the Cigarette line.

It looks as if Tobacco transplanters are coming fast into use, when one firm sold 500 this season, 125 of which were sold in Wisconsin. This is the new Bemis, manufactured at Dayton Ohio.

It is said the firm of Money-penny Hammond & Co., large wholesale grocers and cigar and tobacco jobbers of Columbus, O., have taken to Chicago and back and paid all their expenses for three days, 175 customs of the firm.

The Iredell Tobacco Company has been organized at Statesville (N. C.) with a capital stock of \$20,000. The company proposes to manufacture at least 100,000 lbs. of tobacco the first year, and the business will be pushed and enlarged to the utmost extent.

The Lancaster (Pa.) New Era of the 20th ult. says: "The few buyers who were operating rather extensively have called in most of their men; no doubt they got all they wanted, because, with low prices, the country full of goods and a large force of buyers, much can be done in a very short space of time. The buying was mainly over in York County."

The Edgerton Tobacco Reporter of the 30th says: Several packers have been storing portions of their packings in outside sheds, mostly Filler grades, as an experiment to test the result of damage percentage is much smaller when the tobacco has been stored in well ventilated sheds than in the more closely built warehouses.

The United States Cigarette Machine and Tobacco Company has been organized at Fayetteville (N. C.), which will be the principal place of business of the firm, whose incorporation provides for the manufacture and sale of cigarette machines, cigars, cigarettes and smoking tobacco. The capital stock is \$100,000 with privilege to increase to \$1,000,000 whenever desired. N. W. Kay is President, J. B. Underwood, Vice President; and J. W. McNeill, Secretary and Treasurer.

Musical Indian Names.
Those musical Indian names that decorate the map of the northern states have too often suffered corruption, although there seems to be plenty of evidence at hand to help correct such corruption. The Tombigbee river of Alabama is usually spelled with a "y" in the last syllable instead of "ee," in spite of the fact that the names of half a dozen neighboring streams end in "ee." Several other significant endings have suffered corruption in the case of river and creek names, north and south.

The Indians usually gave a name to any large body of water near which they dwelt, and it has been found in the case of primitive river names in the old world that a syllable meaning water occurs once at least, and in many instances several times in the same name. From this philologist have been able to trace successive conquests, as each conquering tribe added its own name for water or river to the syllables already forming the names of streams in the conquered district. The same thing has happened in this country, as the whites have tacked the word river to many Indian names already including the word.

She Produced Her Rhyme.
There is a five-year-old maiden in Pittsburgh who will certainly make a poet when she is a few years older. Tiring of her dolls and building blocks, she demanded a new game. "Well," said mamma, "let's play making rhymes." "All right," replied the child. "I'll make the first," mamma went on:

"My little darling, I love you,
Because your pretty eyes are blue."
"Now make your rhyme."
Frances pondered a few seconds,
and then exclaimed:
"Mamma, I love you, a little said,
'Cause because your hair's so red."
Purifying Filthy Water.

The filthy water of the River Nethe is purified for use in Antwerp by being passed through revolving cylinders containing small pieces of iron. Fifteen pounds of metallic iron will purify one million gallons of water. The water thus treated is said to be completely freed from germs, bacteria and other objectionable matters. English and French chemists find that the contact with iron reduces the organic matter by from forty-five to eighty-five per cent., and albuminoid ammonia by from fifty to ninety per cent., and all free ammonia is removed. The process has been applied with success to the water of the Delaware river in Pennsylvania. It is simple and cheap. From all of which it may be inferred that the passage of drinking water through iron pipes does not injure it.
