Torreon News Greatly Encouraged The Officials At Washington Yesterday

Reports Come That Differences In Constitutionalists Ranks Near Completion

VILLA SENDS A MESSAGE

Declared The Conference Was Progressing Satisfactorily: That the Differences Would soon be Settled.

WASHINGTON, July 7.—Reports tonight from Torreon that the Villa-Carranza peace conference ended last night and that differences in the Constitutionalists' ranks had been adjusted was encouraging to Washington officials and constitutionalist agents here who say mediation of the Mexican imbroglio soon may be successfully concluded.

While no official dispatches had been received by General Carranza's agents regarding the settlement of the constitutionalists' interecne affairs, a message last night from General Villa addressed to his American agent, Felix Sommerfeld, declared the Torreon conference was progressing satisfactorily and that the differences would be settled. That terms of settlement had been reached was credited here generally.

It was believed a decision by the constitutionalists will be named to meet with Huerta delegates to discuss Mexico's internal affairs soon would follow.

Rafael Zubaran, Luis Cabrera, Fernando Iglesias Calderon and Leopoldo Hurtado Espinosa, constitutionalist agents conferred today with Charles A. Douglas, legal representative of general Carranza in Washington, after Douglas had talked with Secretary Bryan regarding future mediation plans. None would discuss details of this conference, but Mr. Douglas made this statement:

"I have every reason to believe after the trouble between Villa and Carranza are settled delegates from the Constitutionalists will be named to meet with Huerta delegates to discuss the formation of a provisional government in Mexico."

Mutiny among Mexican federal soldiers near American outposts at Vera Cruz was a subject of interest in American official quarters. Several messages from General Funston reported that fighting between the federals and mutineers was in progress. The Mexican federal commander previously had warned General Funston that the mutineers had threatened to attack the American lines.

An element humor was injected into the situation when a group of the revolutionary junta at Vera Cruz asked General Funston for permission to go out and direct the mutiny. Officials here see danger for General Huerta should the mutiny cut off

Farming Sections West of Charlotte Ruined by Hail Storm

CHARLOTTE, N. C., July 7.—Reports coming today from the country districts show last night's storm to have been severe in many places.

The territory extending along the Seaboard Air Line Railway west of Charlotte was the hardest hit and in many places cotton and other growing crops is practically ruined by the hail.

The path of the storm seems to have been most severe Cherryville, Iron Station and Stanley Creek, where the damage to crops will run into thousands of dollars.

At Charlotte the roof of the office building of the International Harvester Company was ripped off and records and other valuable papers practically ruined.

At Roaring Gap, Allegheny county, a summer resort on top of the Blue Ridge Mountains, Wort Anderson, aged 22, son of Captain William Anderson, former superintendent of public schools for Mecklenburg county, was instantly killed by lightning.

Young Anderson was a Harvard student and was at the resort doing some landscape work.

"Her body has not yet been recovered."

His exit from Mexico City. His early departure is assumed in official circles, but if the mutineers triumph it is pointed out that Huerta scarcely could expect safe conduct to the Gulf coast.

A newcomer joined the ranks of the constitutionalists in Washington tonight. He is Vito Alessia Robles, a Villa adherent, who came direct from Torreon to look after the interests of the fighting general in the American capital. He conferred with members of the constitutionalist junta but would say nothing concerning his mission.

Juan Velasco Executed.

VERA CRUZ, July 7.—Delay in the payment of a ransom of one million pesos has resulted in the execution by Zapataists of Juan Velasco, manager of a cotton manufacturing concern who was taken prisoner near Atlixco, state of Puebla, according to Velasco's brother who left Vera Cruz yesterday to obtain his release but returned tonight with his unsuccessful mission.

The prisoner Velasco was compelled to send to the officials of the company in Puebla the demand for the ransom and his brother started out immediately to aid him. He proceeded as far as Apizaco near Puebla, where he was going to get in touch with the Zapataists when he was informed the captive already had been killed. The circumstances have been placed at the French consulate together with the claim that Velasco was a Frenchman, not a Spaniard, as previously thought.

Martin County Woman Is Held For Husband's Death

TARBORO, July 7.—Deputy Sheriff Thomas, of this place, this afternoon arrested Mrs. Joseph Johnson in Speed, near here, on a warrant charging her with the murder of her husband, Joseph Johnson, a prosperous farmer in Martin county, who was shot to death Saturday night near Holy Ghost church.

According to reports received here Mr. Johnson Saturday night took his wife riding. Shortly afterwards the runaway horse was stopped at the church; closely followed by Mrs. Johnson, who said her husband had been shot from the roadside not far off. Investigation revealed the dead body of Mr. Johnson lying on the road about 100 yards distant. A subsequent coroner investigated the killing and with the result that Mrs. Johnson was released.

A more thorough investigation of the tragedy was made, however, and a pistol found beside the dead man. The pistol was new and had only one chamber fired. At the time of the shooting, it is alleged, Mr. Johnson was riding on the right side of the buggy. He was shot in the left side of the head being in the powder burned. Mrs. Johnson, at the time of her arrest, is reported to have said, "I wouldn't care a bit about this if it were not for my baby." The only child is a baby about six months old.

Mrs. Johnson is 22 years old and is very pretty. She sticks to original story that her husband was shot from the roadside. She is in jail in Williamston, where she was taken today to await preliminary hearing before Justice of the Peace R. L. House at Oak City tomorrow.

The prominence of the case involved in the tragedy has caused a sensation in this county and the adjoining county of Martin.

Quite a number of other lower courts were in town early in the morning of the 10th for the opening of the bids for the erection of the new County Home.

FRIDAY JULY 10, 1914.

And many gems of thought turn out to be paste.

When relatives do a favor they never allow the recipient to forget it.

A woman loves a man in proportion to his ability to make her angry.

Misrobies in life have a gay old time these torrid days.

Domestic discord is the apple. The man in the case gets the core.

We must sow good deeds today to reap happiness tomorrow.

It is easier to find a man to accept a favor than a joke.

There are other pipe fitters besides plumbers.

If a fool keeps his mouth shut he may pass for a wise man.

Revenge is sweet only to the very small individual.

Let the Reflector follow you on your vacation.

Here's hoping that Greenville will trip the boys in Kingston.

Most of us work much harder trying to dodge work than we would try to do thereof job.

Perhaps the New Board will put those street cars in and work some of those bad streets.

When a bachelor gets tired of leading a single life he should marry and be led.

Charity may cover a multitude of sins, but there are several still uncovered.

And every sweet girl graduates expects to marry and rule that roost sooner or later.

It's a waste of time for a father to attempt to train up his son in the way he should go if he doesn't keep him in the middle of the same path himself.

Crops are up and doing since all these nice showers and the farmers are all smiles.

Success never comes to the man who sits on a dry goods box and whistles for it.

If you would get a line on your popularity as a public speaker go hire a hall and charge 50 cent admission.

It's as difficult for women to get their hats on in the morning as it is for some men to get theirs on in the next morning.

Over in London they put a man in jail for singing too loud in church, he was a blacksmith, and having been used to awing a heavy sledge must have thought he should use his voice on the same scale.

They have accused George Fred Williams, minister to Greece, of having a head too big for his hat. Some other men beside George Fred are built the same way, but that is not excusing him from opening the hole in his head to much.

Roosevelt does not seem to be taking his doctor's advice in regard to cutting out so much talk. He opens his mouth at every opportunity.

The appearance of the bubonic plague in New Orleans has started a rattling crusade in far Southern Coast Cities.

The United States Express Company has gone out of business. Perhaps the growth of the parcel post.

Let the Reflector do your job work.

Greenville needs to get in the play ground movement.

North Carolina Wants more corn and less corn whiskey.

Mexico can get us as big a farce on holding an election as on some other things.

Present day prosperity is about to put the calamity howler out of business.

The farmers are all smiles, since these nice rains are coming nearly every day.

The hot wave has disappeared and these rains make it ideal summer weather.

The woman who pins her faith to a man won't find a safety pin strong enough to stand the strain.

There never was a man big and strong enough to get out his clean shirt and collar and fix the water for his bath.

A fellow in Pennsylvania had his arm broken five times cranking his auto, it looks in this case that one bad turn deserves another.

In spite of the backwardness and drought early in the season it looks now like Pitt county farmers will raise as much crop as they can get harvested.

In these days of profitable farming, the farmer makes a mistake who pulls up and moves into a town. Yet, if he will make a change, he cannot find a better town than Greenville.

It is to be hoped that those places which observe the fourth of July will go about it safely.

They have called off the mediation at Niagara, and Mexico is no nearer peaceful than before.

Why the coaches were changed.

Mr. R. A. G. Barnes, of Washington, traveling soliciting agent of the Atlantic Coast Line, was in Greenville, Tuesday, and while here showed us a letter from the officials of the road explaining why the good passenger coaches had been taken off the Weldon-Kinston branch of this road and old, dilapidated coaches put in their places. It is recalled that several weeks ago The Reflector commented on this action of the railroad officials, no reason being given for the change of coaches with the consequent discomfort to patrons of the road. Quite naturally a copy of the paper containing this editorial fell into the hand of the railroad officials, hence the explanation they sent to Mr. Barnes. In substance the officials say that the reason for taking off the good coaches had been in use on this line the last few years, was that they might be sent to the shops for overhauling. They added that the change in coaches is only temporary, and that as soon as they can come out of the shops, which will be only a few weeks longer, they will be returned to this road and the old ones taken off.

We are glad to make public this reason for the change in the passenger coaches, and to know that it was not due to any lack of appreciation on the part of the railroad officials the patronage this branch of their road receives.

New Board Aldermen Held First Meeting on 2nd

Bonds for the Improvement of the Light Plant and for the Installation of Fire Alarm System Reported by Mayor to be Sold

The new Board of Aldermen met last night in their regular monthly session with Mayor J. H. James presiding and every member present excepting Dr. Laughinghouse.

The first business was the fixing of the salaries of the police. The salary of the Chief was placed at \$70.00, and that of the others at \$60.00.

Mr. Everett Street appeared before the Board and asked that a street light be placed at a certain point on Church street. The same was ordered to be done.

Three members of Hope Fire Department were allowed railroad fare and hotel expenses to attend the annual State Firemen's tournament that will be held in Winston-Salem.

Mr. W. E. Hooker appeared and reported that a special meeting for the purpose of extending the water system out to town street.

Mr. S. J. Everett appeared before the Board in regard to the franchise for gas, telephone and street railway systems. He asked that a special committee be appointed to investigate and report at a special meeting to be called to extend the water system out to town street.

CHICAGO, July 6.—A family of four was wiped out by blows from an axe in their home in the German settlement of Blue Island, a suburb, last night. The victims were Jacob Neslesla, a German laborer, aged 52; his wife, their daughter aged 25, and the latter's infant child.

The stiffened bodies and the blood stained axe alone remained to outline the story when the crime was discovered by neighbors.

Search for Husband and Boarder.

Bloody fingerprints on the axe handle were photographed. Search was instituted for William Mansfield, husband of Martha, who is alleged to have deserted her a year ago, and for Michael Cherevinski, the latter was compelled to vacate the Neslesla house three weeks ago by the landlord in order to make way for the new tenants. He is said to have uttered threats against the landlord and Neslesla.

The young mother of the infant had been living away from her husband for some time and efforts to find him were begun.

The murderer, according to Benjamin Kirshak, Chief of police of Blue Island, proceeded with great deliberation.

Murdered While They Slept.

Each swing of the axe apparently carried death with it—death without even a groan to arouse others sleeping in the house. Each of the slabs was struck in the head, Neslesla slept in a front bed room on the first floor of the little frame dwelling.

In the attic the two women and the infant had their beds. The axe was found near these beds. Nothing was taken from the Pitt County Fair this Fall.

The crime was discovered by Jacob Neslesla, Jr., a son of the old couple living in another part of Blue Island. He said that his sister's husband's name was Hamilton. Hamilton, he said, left her a year ago.

Twenty-nine Victims of Axe Blows

Twenty-nine persons have been mysteriously murdered in the last three years in Missouri, Kansas, Colorado, Iowa and Illinois by axe blows. The details of almost all of the murders are similar, and in most of the cases the murderer's axe has wiped out entire families. The crimes were committed at night while the victims lay asleep. In each instance the murderer left but slight clues.

Tells of the Flourishing Crop Condition Near Farmville

FARMVILLE, R. F. D. July 3.—I want to tell your intelligent readers what fine crops we have in this part of Pitt County. We had a time getting our tobacco set out, but the crops that were gotten out reasonably early are looking fine now. Mr. D. N. Edward has three acres that takes the shine off of Beaver Dam. It is as much larger than the average as Mrs. Suttons boy of Beaver Dam is larger than the average man.

Mrs. Cora Mose is not as old as Mrs. Cleonnie Allen, but her son Jack has four acres of corn that none of the Allen's can touch. Mrs. Phineas Carr has not spent as many years on this mundane sphere as Mrs. Alley Joyner but her husband has five times his piece of cotton that I ever saw for the time of the year.

Preacher Mackhart had a larger congregation out to hear him preach last Sunday night than Beaver Dam has ever had to listen to a minister.

If any body doubts what I have written we invite him to come and see.

Our hog crop is not as fine as we could wish but we expect to have a few at the Pitt County Fair this Fall. We are hoping that this may be the very best fair that we have ever had if for any reason that Fair does not materialize there will be more disappointed people around here than a little for we shall have so many nice things to exhibit.

We are of the opinion that the Democratic State Convention was more discreet than the Editors, for they, the former refused to endorse the proposed amendments to the Constitution and the latter went all the way even endorsing the "War between the States." Now what puzzles us is when the war between the States occurred and we are curious to know which State fought another. When did Ohio ever engage in a war with Alabama or Massachusetts attack Virginia. Did any state ever made war upon North Carolina? If so when?

Don't our educators think it worth while to keep their straight?

We had a fine rain last week that presages a fine corn crop for every body.

Mr. Titus Elks, aged 85 years, an old Confederate soldier who resided in Beaver Dam township on the John Harris place, died suddenly Friday afternoon. He had started to Arthur to visit a son there, and after walking about two miles reached the home of Mr. Ivey Smith. He complained of feeling too tired to walk any further and asked Mr. Smith to take him on to Arthur. Mr. Smith invited Mr. Elks in to rest awhile, and in less than ten minutes after taking a seat he was dead.

Mr. Elks was a member of the 44th North Carolina regiment, and took part in several battles of the civil war and was among the number of Confederate soldiers captured at Bristol.

Mr. John Grimley, of Snow Hill has been spending a few days in Greenville.

Ensign Timberlake Recently From Vera Cruz Visiting At "Cottendale"

Ensign Julian Timberlake, formerly of Raleigh, now of the U. S. Navy is here from Vera Cruz, Mexico where he has been engaged in many exciting experiences and is visiting in the home of Mr. R. Cotten at "Cottendale."

Ensign Timberlake landed in Vera Cruz some time ago with a squad of men and found himself exposed to the snipers and was fired upon several times, where a number of his men were wounded.

Mr. Timberlake, with a squadron of men is now on his way to China and the Philippine Islands.

These experiences that he has been through are wonderful for a man of his age he only being twenty-one years of age, has recently graduated from U. S. Military Academy at Annapolis.

Ten years ago a friend told me to try
Theford's Black-Draught, which I did,
and I found it to be the best family medi-
cine for young and old.

I keep Black-Draught on hand all the
time now, and when my children feel a
little bad, they ask me for a dose, and it
does them more good than any medicine
they ever tried.

We never have a long spell of sick-
ness in our family, since we commenced
using Black-Draught.

Theford's Black-Draught is purely
vegetable, and has been found to regu-
late weak stomachs, aid digestion, re-
lieve indigestion, colic, wind, nausea,
headache, sick stomach, and similar
symptoms.

It has been in constant use for more
than 70 years, and has benefited more
than a million people.

PEST OF THE WEST INDIES

**Planters Wage War Against Species
of Crabs That Are Destructive
to the Vegetation.**

A curiously destructive pest of
Grand Cayman Island of the British
West Indies is found in certain species
of crabs. They not only partake raven-
ously of everything edible, but their
burrows do great damage, and they
fill these burrows with every kind of
filth. A bulletin of the International Geo-
graphical Congress at Stockholm. It was
stated that the total actual supply of
iron ore existing in deposits that
can be worked at an economic profit,
amounts to 22,408,000,000 long tons,
representing 10,182,000,000 tons of
iron.

This total would supply the require-
ments of the world for considerably
less than two centuries, even when
the present rate of output not ex-
ceeded on the average. However, the
potential resources of the world not
yet developed are estimated to be
amount to 123,377,000,000 tons of ore.
The output of iron ore in 1912 is es-
timated at 148,000,000 tons for the ten
principal countries.

"Oh, nonsense, Uncle Cy. That's
impossible. There never was such a
snow."

"It 's true, I tell ye."

"It couldn't have been."

"Yes, 's true. Six feet above my
head. I guess I ought to know. I
wuz down cellar at th' time!"

London Times at a Penny.
On the first day that the London
Times was issued at a penny (two
cents), its circulation was quadrupled.
Three hundred thousand copies were
sold. The London Daily Mail says:
"The demand is the most amazing
thing that has ever been known in
the history of newspapers. Four or
five hundred thousand people applied
for the paper in vain. On arrival at
their newsstands or bookstalls they
found that all the copies had been
reserved for regular purchasers."

Seaplane Lifeboats.
The British admiralty has decided
that all seaplanes used by naval air-
men shall carry a miniature lifeboat
suspended underneath the body of
the machine. The boats are to be built
of cedar, equipped with two oars, a
mast, and sail, and weigh only 50
pounds.

MAKES BABY-SAVING RECORD

New Zealand, in Most Important Re-
spect, is Ahead of the United
States, According to Figures.

The success of the efforts being
made in New Zealand in reducing in-
fant mortality rate, was called to the
attention of Secretary of Labor Wil-
son in a letter from Miss Julia G.
Lathrop, head of the federal children's
bureau.

The rate in New Zealand, according
to Miss Lathrop, is the lowest in the
world and has been brought about by
the efforts of the New Zealand So-
ciety for the Health of Women and
Children. Miss Lathrop lauds the
work of the society, and adds:

"Because of the absence of adequate
birth and death registration in the
United States, the infant death rate
of this country as a whole is un-
known, but estimates tend to show
that it is at least twice the rate in
New Zealand, which the registrar gen-
eral of that country reported in 1912
to be 51 per 1,000.

"In view of the marked and grow-
ing interest in the preservation of in-
fant health in the smaller cities and
rural communities of the United
States, I believe that the account of
the methods of the New Zealand so-
ciety is especially timely."

Dying Aviator's Nerve.
The power of the will to control a
badly injured body was never better
illustrated than in the case of Doctor
Constantin, a volunteer aviator in the
service of the Bulgarian army, who
was fatally wounded by a Parashok
jet while sailing his seaplane over
the trenches at Tchataldja. Notwith-
standing the shock, the pain and the
rapid hemorrhage, Doctor Constantin
kept his nerve and was able to turn
his seaplane around, guide it back to
the Bulgarian lines and volcano safe-
ly down among his friends. He died
as the seaplane reached the ground.

NEW DISCOVERY ABOUT ANTS

Scientist Asserts That the Insects
Have a Regular Form of Saluta-
tion Among Themselves.

Ants have long been known for their
excessive industry, but from a curious
communication which has just ap-
peared they seem to have surpassed
all other insects by organizing an
elaborate system of signaling.

Professor Bugnion, who has recently
investigated the habits of the white
ant, reports that the "soldiers" of that
species give warnings or encouraging
signals by knocking with their jaws
upon dry leaves, thereby emitting a
sound. Placing some of
these ants on a big plate and covering
it with paper, he found that the "sol-
diers" among the ants responded to
his taps with a rustling, crackling
sound.

Moreover, apart from this audible
signaling, there appears to be some
infaunible form of signal, for the pro-
fessor asserts that the "soldier" ants
salute the worker ants.

To do this, "the insect stands firmly
on its legs with the head raised and
the body slightly oblique, and shakes
itself for an instant with a convulsive
shudder. This seems to mean some-
thing."

BRISTOL, Tenn., July 7.—Edward
Wright, 18 years old, was probably
fatally shot and Ralph Hasbarger,
18, was dangerously wounded today
by Robert Lovett 19, when they did
not leave a blackberry field on the
Carmack farm near here as fast, it is
alleged, as Lovett wanted them to, it
is said Lovett fired two shots from a
double barreled shotgun at each.
Wright was shot in the abdomen
Hasbarger was shot in the back.
Lovett has not been found.

**COUPLE OF CASES BEFORE
HIS HONOR THIS MORNING**

There was a rather short docket be-
fore His Honor Mayor J. B. James at
the ten o'clock hour this morning only
two offenders were presented to be
dealt with.

Albert Paterson forgot the auto
speed limit in Greenville and proceed-
ed to exceed eight miles for which he
had to pay up \$4.00 and cost.

One Carl Ross let his physical
strength get the best of him and at-
tempted to assault and beat Arthur
Lee Norcutt and Emma Norcutt. It
proving to be nothing very serious
the Mayor let him down with a fine
of \$1.00 and cost.

Scrubs Fatten Quickly

You want your pigs to eat as much as possible
when you fatten them. Give them a great variety
of feed, keep the appetite keen and the digestion in
good order, and you will obtain the desired result,
especially if you mix with the grain ration a dose of

Tobacco Flues That Fit

Having incorporated my business and by this means getting more capital, I am now in
the best position I have ever been to supply customers with Tobacco Flues. For six years
I have supplied satisfactory Flues to my trade, and have never failed to fill any orders,
large or small, when given in time. By fair and liberal dealings, and by making Flues
in a satisfactory manner, I have built up the
