

EASTERN REFLECTOR

GREENVILLE, N. C.
D. J. WHITCHARD, Ed. & Mgr.

Friday, July 13, 1900.

Thursday of next week, 19th, the Congressional convention for this district meets in Elizabeth City. As the time is so close to the August election there will probably be a large attendance as if the date had been a few weeks later. However, there is hardly a doubt that Hon. John H. Small will be re-nominated. Really there should not be a vote cast against him in the Convention, but his nomination should be made by acclamation. He ably represents the district and should be returned to Congress.

Lusk Clem, of Orr, Kan., who enlisted for service in the Philippines, was wounded in his leg in his first battle, and when it would heal he found that the injured member was two inches shorter than the other. He was fitted with a cork-soled shoe and sent home. Soon after his return he met with an accident and broke the other leg. When the bones were set, curiously enough, both legs were found to be of the same length, but his height had been reduced by two inches.

The destruction of \$2,000,000 worth of oil belonging to the Standard Oil Company in the Bayonne, N. J., is a matter of no great moment to that corporation. Probably the loss will in a large measure be made good by buying increased value to the stock of oil in hand. In that case the consumer will bear the burden. The tendency of all forms of accidental loss by fire or flood involving the destruction of property to distribute themselves makes of every such case a serious public misfortune.—Philadelphia Record.

It has been agreed that newspaper subscriptions are an infallible test of a man's honesty. They will sooner or later discover the man. If he is dishonest he will not subscribe to any paper. It is a great bulk of 120,000 negro voters of the State will vote three weeks hence, and they are registering in a hurry—much more active and anxious to do so than the whites appear to be so far. Of course all of them will vote against the Amendment—the very best reasons why every self-respecting white man should vote for it.

They not only are applying promptly to register, but they go fully armed and ready to "maneuver" every question put to them under the provisions of the new election law. This fully shows that they have been taught by the white nationalists and local negro bosses before going into the voting precinct to register. It is stated that their "sessions" are taught there, here in Raleigh, at the negro lodges and other secret places, and they are given a series of orders of which there are scores of them here, and even at the churches and Sunday schools.

Designing men—opponents of the constitutional amendment—are saying that if it is adopted by the people this year the next action of the legislature will be to pass a law disfranchising the white man. And if such an amendment should pass the people would defeat it at the ballot box by an overwhelming majority.—Lynchburg Evening Star.

Feeling is beginning to run quite high about the Constitutional Amendment, and it is said the negroes are, in some cases, making threats. The negroes appear to be playing a double part. They give it out publicly—that is those who do any talking—that they take no sort of interest in the amendment, and want the white people to settle that question. But such talk is suspicious, to say the least. The negroes will not attempt to register until the very last man to register and vote.

OUR RALEIGH LETTER

Special Correspondent of the Reflector.

RALEIGH, N. C., July 10, 1900.

The Republicans have begun their risky game of attempting to intimidate and bulldoze Democratic registrars for refusing to register illegals. They are in a predicament in this correspondence a week or two ago. And the first "arrest" was made at Winston last Friday (Lieut. Gov. Reynolds's home, at the instance of declaimer Spence Blackburn, assistant United States District Attorney. The best lawyers here state that the registrars have a perfect right under the new election law, to be exacting in their requirements.

But it should again be remembered that it is the separate and distinct white office holding "cleverness" who are investigating the negroes to take this step—that of swearing out warrants against white registrars. And they are the fellows chiefly to be held responsible, if trouble comes.

I knew a man with a large family of children well educated, and the man was just about to be asked how he managed to educate his children he replied: "I kept them well supplied with good newspapers and other literature, and sent them to school what I could, and they educated themselves." The newspapers help to create a thirst for knowledge. There are children today who long grow to do so that they know the world is much larger than their father's farm or their own neighborhood.

It is a great mistake that people make in subscribing for a paper abroad to the neglect of the home paper. It is simply enriching others while we impoverish ourselves. It is about equal to saying, I have no word to offer against subscribing to papers to read in our home and church papers, then as many more as our limitations dictate. But one says, "I can get a larger paper with much more reading matter for the same price abroad than home." That may be true, but you can not afford to be without your home news. Your local pride is not to be sacrificed to the sacrifice that another says, "My right for taking the home paper, and I read it." Well, that is just stinging to the core, if we are able to subscribe for a paper.

Some people excuse themselves by saying the editor is different politics, and therefore we will not take his paper. I insist that is not a valid excuse, and that we ought to read the home paper for the sake of our home news. If my home paper was of different politics from mine, I would still subscribe to and read it as a home paper for the editor is not the editor as to politics.

In conclusion, I suggest we all should recite our duty to aid the editor in making a good home paper by sending him items of news from our neighborhood, and those competent or accustomed to writing, contribute now and then to the columns of the paper. We should feel that it is our paper and that in some measure we are responsible for its success.

Just received a full line of latest Belts, Belt Buckles and Rings, Silver Bracelets and Hearts, Beauty Pins, Photo Albums and lots of other jewelry too numerous to mention. Stamped Lenses and Embroidering Silks. All my Millinery at cost.

Next door to J. B. Tunstall's.

Local Pride.

A writer in one of our exchanges the Germantown Independent-Gazette, says:

Local pride, if nothing else, should induce us to stand by our home paper, and the man who pays by white people should be applied to the education of white children only, and that the taxes paid by colored people should be applied to the education of colored children.

Many white men find it hard enough to pay taxes for the education of their own children, without also being required to pay taxes for the education of negro children. As the law now stands, all the public school money is distributed equally among the children of white race. Exactly the same amount is applied to an orphaned and expended for a white child, and yet the white people pay about 95 per cent. of the taxes paid on property for public schools.

After the proposed suffrage amendment is adopted, and the negro is eliminated from politics, then there would be a better basis for the adoption of an amendment to allow white children would be expended on their education. For a longer school term, and every white child in North Carolina would then be better educated than the negro. Do you see—(Bartham Record).

Winston-Salem, July 6.—The Democrats here are greatly stirred up over the arrest today of Registrar John T. Thompson, of the second ward, in Winston, by Deputy Marshall Griffin. The bill of indictment was drawn yesterday by ex-Judge John Gray Ryan, of Greensboro. The charge against the registrar is refusing to register negroes as all black men. Assistant District Attorney Blackburn signed a certificate ordering the deputy marshal to make the arrest. Mr. Thompson promptly gave a \$1,000 bond for his appearance before a United States commissioner next Tuesday.

The plan of the Republicans is to get the case in the Federal Court. The Democrats propose to displace the registrar. The Southernist afternoon says: "After this displacement of the registrar on the part of the Republicans you may put it down that Forsyth county is going into the white man's column in the first Thursday in August."

The White Man's Club held an enthusiastic meeting tonight when the arrest of Registrar Thompson was denounced in plain language. Arrangements were made for a two torchlight procession from Winston to Salem square tomorrow night, where ex-Governor Jarvis speaks.

Major E. H. Shoak, superintendent of the government postal card factory at Piedmont, last Saturday made the largest shipment of postal cards ever made in one day in this country. He shipped six cars containing 21,000,000 cards, worth \$24,000. One sixth of that \$24,000.

It is often necessary to have a ladder to get to the front. Even the girl who complains that she has nothing to wear can climb up on air.

Everything may come to him who waits, but things come more quickly to the man who goes out and hustles.

Separate School Taxes.

R. S. Evans, H. C. Cannon, J. E. Cannon.

Many white men are tired of paying taxes to educate negro children, and would gladly vote for an amendment to the State constitution requiring that all the taxes paid by white people should be applied to the education of white children only, and that the taxes paid by colored people should be applied to the education of colored children.

Many white men find it hard enough to pay taxes for the education of their own children, without also being required to pay taxes for the education of negro children.
