THE WHITE HOUSE

WASHINGTON

TO THE 1973 COLLEGE GRADUATES:

I am inclined to be sparing with words of congratulations, advice, and challenge to this year's college graduates, for you hear more than enough of them at commencement time, and you are eager to turn from words to action.

From early childhood, for the most part, the classroom has been your world. Now the world becomes your classroom. The education you have gained so far is precious capital. As you invest it in the service of mankind, it will continue to grow and pay you rich dividends.

Your opportunities for service and achievement are wide. For the first time in your lifetime, the world is on the threshold of an era of lasting peace. The United States is astir with the forces of a profound renewal -- social, economic, political -- and reaching for new possibilities in its third century of independence.

The coming age will belong to you. America is grateful for what you are, and much in need of what you can become. I wish you Godspeed on the great adventure that lies ahead.

Richard Nixon
