Hello Brother.

I bet your sore for me not writing sooner. Well I really haven't any excuse. But I've been busy as hell. I can't write as often as I did. I've really been in the air. I received two of your letters today which were the first in quite some time, so I imagine you have the same trouble as I have. For a while I thought you hit the invasion. Or did you? I bet it's getting pretty hot for you too. Now that this invasion has started this should be over soon. What's your verdict? So. you can't take the sea. I see that you lost quite a bit of weight. They all do at first but you will get used to it. You will be seeing a lot of beautiful places now. I'm still in Italy it in big shape. A lot of people think that were that were taken Rome it's over here. But you can't tell for yourself that their going right there.

I visited Rome a few days ago & honest to work it's the most beautiful place I've ever seen. I've been over there. I seen the Vatican City & all the Cathedrals. It's really

something to see. And the women, why I think
they're pretty here that looks in the states. I
really had a good time while I was there
but that's all over now. I'm in the navy
all the time. You know I've got quite a few
address from Rome & other cities but I can't
send them to you. I wish I could be there
in Rome I know plenty who can fix you
up with anything you want. I used to go
to a families house. They were very nice people.
Wine dansil & drink & plenty of women. What do you
think of this. I went out with a real countess.
It was good stuff. But there's no more time for
play. Plenty of work to do yet.

If you lived to ever get around this way I
don't think you could be able to find me because I'm
on the go all the time. But it would be better in
case you want to try.

I'm sending you a snap shot of myself
it's not a good one but the only one I got.

I've got to close now & I promise you I'll
write again real soon. Loving for now
& all the luck in the world. Send those
boys over an extra shell for me.

Brother Mario
