Hello Frank,

Just a few lines to let you know that I am feeling fine & hope to hear the same. You know its really been quite some time since I've heard from you, and I know that its some time since I've written too. Who knows maybe we're in the same boat. I hope things are okay with you. What did you do go to Africa again or is it the Pacific this time? I'm still in this same country & will probably be here for a long time yet. To tell you the truth I think there was in going to last longer than a lot of people think. What have you got to say about it? Well winter is coming here again & the rainy season is here & they say the further up we go the colder it gets so I better get ready for a rough winter. How's the weather been lately you on the sea? Are you still sea sick? Well brother lets hope everything is okay. All love from  
lots of love to you.

Brother  
Mario
