March 6, 1975

Hi. Frankie

I'm going to write this letter but I can't at the present think of a thing to write but I imagine things will pop into my head as I go along.

I didn't go to school today because I didn't feel to well and whenever I get sick its usually something serious so

I had to use this. I
Generally use this when I
write letters to my uncle
since he's in the army. I
never bothered getting
paper with the navy
insignia since I'm never
cared what I use, so long as
I write.

I got a raise down the
store the other week and
that will certainly come
in handy for the holidays.

I also have to think of
getting something for my
mother's birthday which is

whenever I feel slightly ill
mom keeps me in to make
sure nothing happens.

We're having nice
weather down here its
been quite warm for almost
three weeks now that
we can hardly believe its
March. The month that is
noted for being cold and
windy.

I hope you like the
stationary since I ran out
of my regular stationary

the 23rd of March and
Ennie's the 30th. My he
certainly is getting on in
his years going on 30 already
Mom says he is going to make
her feel antiqued this being
30. Just she's quite proud
of the fact that she has a
son who is going on that
age.

Well I think this is
where I had better say so
long and Good Luck since
mom is getting dinner and
my father will be coming home
from work soon. Everyone is
sending their best regards

Yours
Florence Skorcak.
