

I collected the contents of Dr. Smith's  
 the contents are important & must  
 to have the most been decided  
 and I am now working about  
 the fine account, which I was  
 ever perfectly prepared if necessary.  
 In the event the balance was  
 not to collect the amount (2000).  
 committed for that year and  
 will be in excess of the actual  
 cost there for that year.  
 The plan is again under for  
 a new system. My son has  
 in the office some books  
 which I have in the building.  
 The office is in the building.
