ECU Trustees hold meeting

By DIANE TAYLOR
Staff Writer

The possibility of an M.A. degree in nursing at ECU came closer to reality yesterday in a favorable meeting of the Board of Trustees.

Agreeing with the principle and need for such a program at ECU, the Board approved a motion to send the proposal to Executive Committee once the curriculum has been completed and passed by the Academic Programs Committee.

"The only other such program now is at Chapel Hill," said Eddie Green, Chairman of the Academic Programs Committee.

In a report from the Ad Hoc Committee on Tenure Policies a revised outline of tenure guidelines was presented and passed by the Board.

The policy came under scrutiny by directives from the Board of Governors stating specific changes necessary in the program here.

"The revisions are 98 percent the same," said Greene. "The policy now conforms in every way with the guidelines sent by the Board of Governors," he said.

By way of a "grandfather clause" faculty already at ECU will not be affected. Only persons hired after this date will be affected.

Dr. Lloyd Benjamin, president of the Faculty Senate, gave assurance that the faculty was in general agreement with the new policies.

This being the first Board meeting since the death of Athletics Director Clarence Stasavich, a Resolution of Appreciation was presented to the Board for approval by Chairman, Troy Pate.

The resolution reads; In memory of Clarence Stasavich, the Board of Trustees do hereby express sincere appreciation for his outstanding services to East Carolina University as an educator, an administrator, a coach, and a friend to students and faculty alike. His skill and devotion to duty brought East Carolina from small college status in athletics to a NCAA Division I program, we are deeply grateful. Most of all, his friendly smile, warm personality, and intense loyalty to the University shall be long remembered by his friends at East Carolina. In retrospect, we say to "Coach Stas": "Thank you for a job well done."

THE ECU BOARD OF TRUSTEES met Wednesday in Mendenhall Student Center and discussed athletics, the nursing program, and other topics.

New Athletics Director Bill Cain was presented. In his report to the Board, Cain said there are currently 20 athletic

Trustees establish athletic guidelines

By JOHN EVANS
Sports Editor

The Board of Trustees yesterday set up a committee to formulate guidelines for the ECU athletic program.

Athletic Director Bill Cain, in his report to the Board, asked guidelines be established by which he could operate the Athletic program.

"I need guidelines to answer questions put to me concerning our program," said Cain. "I recommend a committee be established to give me guidelines in regard to the school's participation in the Southern Conference and other goals."

Chancellor Leo Jenkins told the committee that any "ultimate decision concerning athletics will be made by this board and will be carried out by me."

Earlier in the week, Jenkins had admitted that the Faculty Committee on Athletics had recommended to him that ECU leave the Southern Conference.

Board Chairman Troy Pate in setting up the committee outlined other areas which would be discussed by the committee.

"Our affiliation with the Southern Conference, our actions in regards to any decisions the NCAA may make, the question of enlarging the stadium and women's athletics are all subjects which need to be discussed," said Pate.

"I will form a committee, with members to be named later, to look into these questions and inform the board as to whatever actions are necessary."

Cain also reported to the committee that ECU is currently supplying financial aid to 180 student-athletes in 20 sports and that the school has contracted to play in the Holiday Classic basketball tournament in Raleigh, N.C., November 28 and 29, 1976. The other teams in the Holiday Classic will be Duke University, North Carolina State and Rice University.

Cain also told the committee that ECU is currently working out negotiations with Duke University to schedule a football game in the near future, possibly as early as 1976.

Awaits Board ruling

Jenkins readies for primaries

ECU Chancellor Leo Jenkins will enter the Democratic gubernatorial primary if the University of North Carolina Board of Governors adopts a new policy that is not so restrictive of the political activities of university officials.

Jenkins explained Wednesday morning that he would "take a crack at the governor's race" if the policy was changed.

"As of now I am in. But, of course that is subject to change if the UNC Board does not change its policy dealing with political activities," Jenkins admitted.

The present UNC Board has a policy limiting political action by high officials. Under the present policy, often referred to as the Jenkins "gag rule", any university official who actively engages in political maneuvering on his own behalf would be forced to resign his position.

But, the UNC Board is apparently considering changing the controversial policy to allow university officials to be granted a leave of absence to campaign. The UNC Board will meet January 16th and should take some action on proposed new policies at that time.

If the policy is changed Jenkins indicated he would wait till after the March presidential primary to officially announce his candidacy.

"I don't see any need for a long, drawnout campaign. I think I can cross the state talking about the issues and do all the campaigning I need to do in a few weeks," Jenkins explained.

While several Democratic candidates are already hard at work campaigning, Jenkins feels he does not have to enter the race so early, especially since he does not feel he has to work on establishing his identity.

LEO W. JENKINS

'I don't think I have to worry about getting my name identified and this will allow me to conduct a shorter campaign and speak to the issues," Jenkins continued.

Jenkins, an established political figure in the East, contended that he would be a viable state-wide candidate and not one just from one region.

"From a few po!'s I have heard about and from what friends from around the state tell me, I think I can conduct a strong campaign in all parts of the state," Jenkins contended.

Jenkins explained that, through his 25 years of service to the state, he has had the chance to travel around the state extensively and has had the chance to get to know the people of the state pretty good.

"I think I know what their hopes, dreams and ambitions are, and I think I can be of service to them. That's why I am running."

The ECU Chancellor expressed confidence that the UNC Board would change the restrictive policy. But, he admitted that right now he would just have to wait and see what happens at the mid-January meeting.

UNC President William C. Friday admitted to Fountainhead in an early December interview that new proposals for a more relaxed political policy had been drawn up and would be considered by the UNC Board.

Under the proposed policy, university employees from Chancellors to university faculty members would be allowed to take leaves of absences without pay while they campaigned for political office.

Friday explained that the new policy hopefully would "strike a balance between the right of the citizen to seek public office and the right of the state in what it can expect from university employees."

If Jenkins does enter the Democratic primary, he would join a field that is already crowded. Charlotte businessman Ed O'Herron, Skipper Bowles of Greensboro, Thomas Strickland of Goldsboro are already announced candidates. Lt. Governor Jim Hunt of Wilson County is expected to officially announce his intentions of seeking the state's top elected position after the March primary.

The Democratic primary is set for August 17th with the general election, November 2nd.

Editorials/Commentary

Review Board, SGA decisions both wise

The judiciary process in the SGA is slow, just like everywhere else, but when it finally does get around to making a decision it is usually a pretty good one, at least in one case in particular.

The case in point is the final decision handed down by the Review Board on the constitutionality of a decision by SGA President Jimmy Honeycutt to grant Vice-President Mike Brown a leave of absence instead of holding an election to fill the spot when Brown left school in November.

The Review Board decided that it was unconstitutional for Honeycutt to grant Brown a leave of absence and unanimously decided that a special election should be held to fill the V-P post.

As we said before, it was a sound decision, based on the SGA constitution that does not have any clause that grants the President the power to grant a leave of absence to the Vice President.

It was a good decision, but about two months too late. The need for a special election was in November, early December at the latest, so an election could be held at least before Christmas.

So, while we support the Review Boards decision, we must also support the SGA in deciding not to call elections at this late date. By the time candidates could file for the job, be allowed to campaign and then stage an election it would be time to hold Spring elections for the Executive Branch so the new V-P would hold office for only a few weeks. The time and expense expended to fill the post would hardly be worthwhile.

These were all valid reasons by Honeycutt why the SGA should not hold a special election.

But, Honeycutt also cited one reason not to hold the elections we can't go along with. The SGA President reportedly claimed to the legislature during this argument not to hold the election, that any special election at this time would draw only a small turnout of student voters. Such a small turnout would not help the image of the SGA, according to Honeycutt.

We will agree that it might be only a small turnout. But, that is still no reason not to stage an election. If government was afraid of small turnouts then the general elections for most states could be postponed since the usual turnout for state votes is only 30 to 40 per cent, far short of a majority of the voters.

Good government should hold an election when it is needed. Not when it is convenient for that government to make a strong showing.

In this one case, we feel Honeycutt is backing a good cause for at least one bad reason.

While we agree that the SGA is right in not staging an election at this time, the question we raise is why the decision was so late in coming.

It was not until the last week before Christmas break that the Review Board got a chance to hear the appeal.

By then it was too late in the year, in view of the March 24th date of the Spring elections, to fill the V-P post.

So, the SGA has been left without a legal V-P for part of the Fall quarter, and will be left in that condition through the Winter quarter and part of the Spring quarter.

If the V-P's post is worthwhile then it should be filled by an elected official, not some presidential appointee.

Both decisions by the Review Board and then Honeycutt and the SGA were sound ones. They just came late in the game in our estimation.

Jenkins in, apparently

Apparently Chancellor Leo Jenkins at long last will take his crack in the political arena and enter the Democratic primary for Governor.

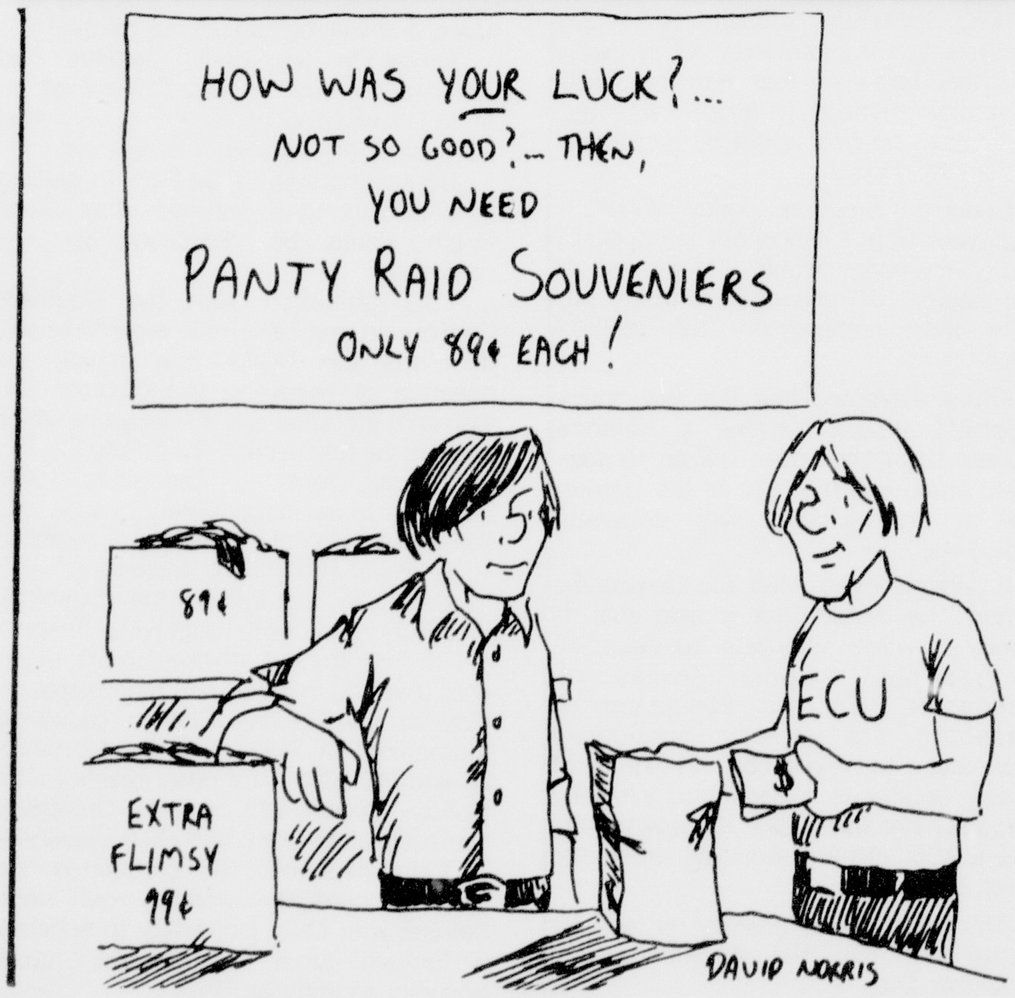

Jenkins is all but officially in the race. It will apparently now take a decision by the UNC Board of Trustees to keep the New Jersey native out of the Democratic race.

The ECU Chancellor has long been considered as a potential candidate for state-wide office. More times than one Jenkins' name was linked with a threat to run. But, in the past, these threats have been used more to gain leverage for the university than out of political gain for Jenkins.

Now it looks like the Chancellor will give it a run for the money and this time around it was almost inevitable that he would run.

The race in 1976 was apparently the now or never chance for Jenkins and the Chancellor had decided on now over the never.

At least his political future is clear--apparently.

"Were it left to me to decide whether we should have a government without newspapers, or newspapers without government, I should not hesitate a moment to prefer the latter."

Lebanese student thinks big powers could stop war

To Fountainhead:

Lebanon - a small Middle East nation noted for its beauty and hospitality is being gutted by bloody civil war which could be ended by the major world powers and rich Arab countries.

I am an undergraduate student at East Carolina University from Lebanon who feels the current strife in Lebanon is largely due to the involvement of Palestinian guerrillas who are making their cause known the world over.

Palestinians who have joined the Moslems in Lebanon are fighting the sorely out-numbered Christians to gain changes in the Lebanese constitutions and wrest political control from the country's Christian minority.

I feel that if the United States, Russia and Arab countries would help establish the Palestinian refugees on a land of their own, much of the pressure would be relieved and constructive talks could replace bloodshed.

The city of Beirut, a showplace in the Middle East, is being destroyed and the threat of starvation looms for many of the poor this winter.

While the civil war is centered in Beirut, the entire country is affected by the trouble and people stay in their homes for fear of the kidnaping, killing, burning and looting which rages on.

They have destroyed many hotels in Beirut including the Phoenicia which is my uncle's personal property and the most beautiful in the entire Middle East, as well as many buildings and factories. Hundreds of Lebanese people are leaving Lebanon to other countries.

My family lives 15 miles from Beirut, and for 5 months I haven't heard anything from them. Last month a friend of mine came to the U.S. and he described to me the situation in Lebanon--people starving, dying of hunger, afraid to get out of their homes. As the economist in Beirut estimate the nine month war, Lebanon lost 10 billion dollars in that fight. And now both Christians and Moslems are still fighting on the streets of Beirut.

Forum policy

All Letters to the Editor must have the following information or they will not be printed: the writer's name. ID number, and local address. All of this information will then be printed at the end of each letter.

Fountainhead will, upon personal request from a letter writer, withhold a name from publication for good reason. But, the name of the letter writer will be on file in the Editor's office and will be available upon request to any student. All requests for withholding a name must be made in person to the Editor.

Any letters received without this information will be held until the letter writer complies with the new policy.

Fountainhead invites the students, faculty and staff of ECU to present their opinions and beliefs in the Forum. And we have a practically no holes barred attitude about what is presented in this section.

But, we do ask one thing. Please, if you have something to say in our paper, sign your name and not someone else's.

Letters need names

Since Fountainhead adopted a stricter Forum policy several letters to the editor have been received which can't be published since they do not conform to the new standards.

Most of the letters are signed but lack an address of the writer. No letters will be run without an address for the writer being printed.

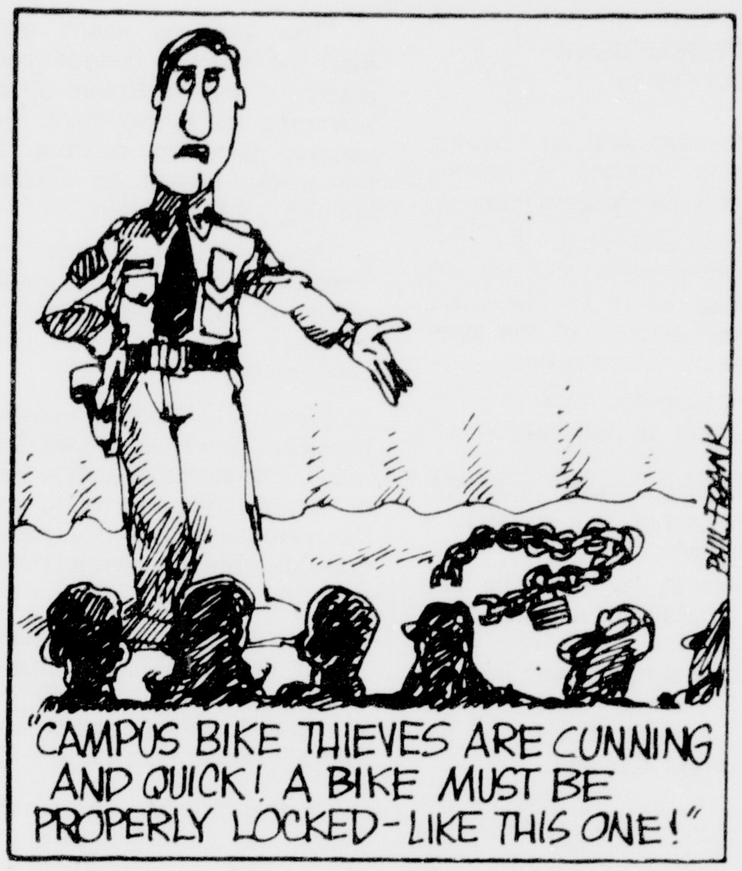

A letter from Rudy Howell lacks only an address before it can be printed as does a letter from E.L. Weintraub and D.S. Williams.

In addition two letters dealing with the recent homosexual letters printed in the paper lack proper signature and address.

Fountainhead would be more than happy to print these letters. But, for our own protection, letters without identification will not be printed.

America needs it's super heroes

By STAN LEE

[The creator of the amazing Spiderman, the incredible Hulk, and the Fantastic Four--"the world's greatest comic magazine"--Stan Lee has built up his bevy of Marvel Comic characters into a fantastically popular Who's Who of superheroes. Mr. Lee's success at capturing the allegiange of thousands of college readers has made him one of the most highly sought guest speakers on the campus lecture circuit.]

The world is going to hell.

Don't just take my word for it. Visit your friendly neighborhood jail. Swim in a river. Try breathing the air. And then, if you've still got the stomach for it, read your daily paper...It's no wonder that comic books are selling better than ever. They may be the last oasis of sanity left in the dismal desert of life...

The mildly magniloquent output of Marvel Comics is totally representative of the world of fantasy and imagination. It's the provocative art of extrapolation, carried to the nth degree. But, here's the zinger. True Believers everywhere are beginning to realize that there's more bedrock truth in the whacky-world of way-out fiction than can ever be found in the maniacal menage of mounting medacity we call life!

And that brings us to the mind-boggling message you've been breathlessly awaiting.You're about to learn the most stupefying secret of the ages. Namely, the only thing that can save us from our dizzying descent into more depravity, and strangely enough, the one thing you find in the comics, in music, art, science, and yes, even in sex. It's the one thing all mankind is clamoring for. It's just plain, simple unvarnished TRUTH!

Take politicians, for example. (But only on loan. I don't want to corrupt you.) Can you imagine a world where they mean what they say? "I'm supporting this bill because I believe in it. But mostly so that the governor will give my brother-in-law a judgeship." You know, the first guy to open up like that gets my vote for anything. At least you'd know where he stands--you'd know what he means. He could run for Godhood!

Or how about businessmen? "I'll level with you, kid. If you take the job as clerk you're gonna stay a clerk. Any promotions go to my idiot sons and my wife's nephew." Only a nut would take the job- but anyone who did ought to work his heart out for a boss like that. There might never be a promotion, but there'd be no time wasted in wondering, waiting, or hoping.

Naturally, the same goes for teachers, ad men, candlestick makers, you name it. Of course we'd need a complete reorientation to live in a world where people tell it like it is. There's a little matter of 2000 years of faking it that would have to be overcome.

And there you have it. The perfect paradox. The world is starving for truth, but the only place to find it is in fiction. When ol' Spider-Man segues into one of his sizzling, starry-eyed soliloquies, you just know he means it. WHen Doctor Doom threatens to atomize North America just for kicks, you'd better believe it. Who among us has no faith in Frodo? We know that Billy Pilgrim would never let us down. And you can stake your life on Peter Pan, Snow White, or Uncle Wiggley.

So that's why I've been into comics all these years. A fella needs something he can believe in. And, so long as fantasy endures, so long as superheroes grab us, there's still some hope for this weary, woe-begone world of ours. For in fiction lies the ultimate truth--and that truth will make us free.

Pitt County

Unemployment rate is low

By STEVEN MESSICK
Staff Writer

Low unemployment and an upswing in local business indicate a healthy Greenville economy for the new year.

Pitt County currently has the fifth lowest unemployment rate out of the 100 N.C. counties, according to Placement Supervisor Darrell Johnson of the state Employment Security Commission.

"The unemployment rate in Pitt County is presently at four per cent," said Johnson.

Recent statistics reveal that the national unemployment rate is slightly above eight per cent.

"The industries in the Greenville area fortunately haven't laid-off any workers," said Johnson.

"The industry that has moved into the area is highly diversified, hence, it is not as sensitive to fluctuations in the economy," explained Johnson.

Greenville is still primarily an agricultural region and some seasonal workers who helped in recent crop harvesting are now without jobs, Johnson said.

"The only pessimistic aspect in the job market now concerns the difficulty in placing recent college graduates.

"The economy hasn't expanded to meet the boom of college graduates, so graduates should explore all avenues in searching for employment. County and campus placement services, along with the media should be utilized in job hunting," said Johnson.

Downtown business has been increasing in the past few months, according to Harold Creech, executive secretary of the local Chamber of Commerce.

"Greenville hasn't experienced the recession very much," said Creech.

"The business statistics for the month of August were very good and most of the merchants downtown have noticed a considerable increase the past few months."

Downtown Christmas business was 12 to 15 per cent higher than last year, according to Morris Brody, president of the Downtown Association and owner of Brody's Department Store.

"I feel that the conversion of Evans Street into a mall has been a plus factor for business in Greenville," said Brody.

"There has definitely been a increase in the number of people in the main business district, probably due to the people's curiosity in just wanting to see the new mall."

English professor Paul Farr dead at 37

By BRANDON TISE
and RUDY HOWELL

Dr. D. Paul Farr, 37, of 1407 Red Banks Road, assistant professor of English, died in Las Vegas, Nevada on Monday of as yet undetermined causes. He was taken ill on the plane flying to Las Vegas to visit his parents. He is survived by his wife, Marie Tate Farr, also a professor of English here at ECU.

Dr. Farr attended Weber College, University of Utah, University of Manchester (England) and received his Ph.D. from the University of Chicago. He had written scholarly articles in such publications as **Philological Quarterly, Etudes Anglaises, Connecticut Review** and **South Atlantic Quarterly.** In addition, he had reviews published in **Modern Philology** and **Western Humanities Review.** His main area was early 20th Century British fiction, and at the time of his death he was working on his dissertation on novelist Evelyn Waugh.

Farr's untimely death came as a shock to many, Dr. Norman Rosenfeld said; "He impressed me as being, despite his youth, as a human being who had a full realization of his life and a complete sense of his world."

Russell Christman, also of the English Dept., said: "Everyone who knew Paul will miss his ready wit, which was always combined with sincere interest and affection. He truly seemed to care about how you were and what you were doing."

English graduate student Wanda Edwards echoed the general feeling in Austin: "I don't think anybody knew what to say. Everybody went around afraid to speak to anybody." Former Rebel Editor Marvin Hunt, who was a close personal friend of Farr said: "It was really a shock. He was inextricably a part of my life."

The English faculty will donate a collection of books to the library to be the Paul Farr Collection. Dr. David Sanders flew to Ogden, Utah to represent the English Department at Farr's funeral. At Mrs. Farr's request, he will read a piece of Paul Farr's work at the funeral.

Perhaps English Department chairman Erwin Hester described Paul Farr the best: "Paul Farr made contributions in every area. He was a brilliant and perceptive scholar, a stimulating and popular teacher, and a balanced and considerate colleague. Above all he was a person who gave generously of his time and good cheer to everyone with whom he came in contact. We shall miss him greatly.

Gay Alliance forming

Greenville Gay community increase reported

By JAMES PERRY
And LARRY SLAUGHTER

Editor's note: Within this and upcoming articles we will attempt to examine the evolution of the homosexual community in the Greenville area. This is a news analysis.

The increasing openness of homosexuality is a timely phenomenon playing a noticeable role during our nation's 200th birthday; an important point since our nation's Constitution is based upon individual freedom and choice.

An Analysis

Greenville is experiencing an increasing awareness of a growing gay community. In an effort to present facts and enlighten misconceptions, this article is not saying what is right, but trying to improve communications.

It is evident that there is an increasing percentage of students who are revealing their varied sexual preferences. Although there are some that may question this figure, it is this reporter's conservative estimate that between 15 and 20 percent of the student population are gay.

That Greenville has a community of individuals whose lifestyles and sexual behavior are geared towards the attraction that exists between members of the same sex is known to many. Variations exist in the lifestyles of Greenville gays just as variations exist in the heterosexual community.

Some are exclusively gay and gear their activities solely with other gays. Others maintain that they are bisexual, enjoying the pleasures of both worlds. The noted sex researcher, Alfred Kinsey, has illustrated these variations that exist along the continium of sexual behavior.

More paramount are the variations of self-acceptance and disclosure among gays. While some persons accept and like themselves as gay individuals, others are continually apprehensive of the rejection and ostracism from society that tend to follow the disclosure of their sexual identity.

This reporter contacted the Eastern Gay Alliance in Greenville. With their help a casual meeting was held with several local individuals, both students and non-students, who openly discussed their own gay lifestyles.

Members of the gay community all experience various phases of "coming out" - of admitting to themselves and society their true sexual preferences. Self-doubt, anxiety and frustration are a few of the negatives that deride the individual who is coming to terms with his predicament.

Kirby Smith, an officer of the EGA, feels, "Some may think, "Well, why am I different from everyone else?" Other may know, themselves, that they are homosexuals, yet they don't know others who can introduce them to the gay lifestyle where they can meet other gay persons."

Having gay friends seems to be a factor in determing the degree of self-acceptance and personal growth the individual will achieve in his new social role as a gay person. Since he cannot rely on the heterosexual community for empathy and support, a gay person must discover other individuals who are comfortable and accepting of themselves as gay, and who can subsequently offer him the support and encouragement that he needs to maintain a healthy concept of self, particularly while he is passing through the initial phases of coming out. Other gays can help the lonely novice to normalize his homosexuality and to neutralize the negative vision that straights have of him.

"I know people who will drop by the room and we'll talk and sit around," says Steve, "and it's rather evident to me that these individuals are gay. They'll show interest in going to the gay bar but when the time arrives to leave they'll always say, 'Well...some other time'." Steve also added, "There are a lot of people I feel that are in the closet." 'In the closet' is a common gay expression denoting the homosexual who is concealing his identity to others. Steve concluded, "These people know that they're in the closet but they don't feel they could handle being out of their closet!"

Another ECU student, Penny Purvis, stated that she feels the gay scene in Greenville is larger that most people realize because it is very well concealed. "They may be out of their closets but not out of their rooms."

EGA Coordinator Bob Mariner added that "people just don't know many others they talk with are gay," indicating the reality that gay people inhabit all factions of life. Neither are they confined to the stereotyped roles of the limpwristed male or the mannish female.

The gay community is one of the many minorities within our society. Therefore they must deal with forms of suppression just as other racial and ethnic units.

The consensus of the individuals interviewed is that the acceptance of gays in this area is on the upswing. They still feel, however, that the overriding heterosexual view is one contaminated with fear and oppression.

"I feel that there are a lot of enlightened individuals in Greenville," says Smith. "If you meet them on a one-to-one basis (and they appear to accept it. However, take that same individual and place him in the position to make a public statement about gays and you will find that he is no longer enlightened at all."

Mariner added, "There are a lot of people who feel that just being seen in public with a gay friend is regarded as an embarrassing statement about themselves."

The battle does not end with the struggle for self-acceptance. The gay individual must face further obstacles in every critical area.

Mariner, a graduate assistant in the ECU English Department, stated precisely, "There is a terrible threat of losing your position as a student or employer. Most professors I've talked to are very progressive in their attitudes but there are some who are violently anti-gay."

In upcoming articles there will be a refinement of subject matter, included will be a look at the Eastern Gay Alliance which is becoming a well-organized unit, views on religion in the homosexual community and a discussion on the violence the gay community has encountered in the Greenville area.

Haines buys Buccaneer

'The Attic' condemned for building violations

By KENT JOHNSON
Staff Writer

"The Attic," a Greenville nightclub, was found to be in violation of 32 state ordinances regarding building standards. The nightclub was closed on December 30.

Tom (Skinner) Haines was to have sub-leased the nightclub from owner Bob Saieed. The lease was to have begun December 19 and The Attic would be open to the public after Christmas vacation. Haines has been manager of the Attic for five years.

When Haines returned from his Christmas vacation he found the Attic condemned.

Instead of re-modeling the Attic which reportedly will cost between $10,000 and $30,000, Haines bought The Buccaneer, another Greenville nightclub, from former owners John Roney and Lawton Nesmit.

"I felt that I had leased un-usable property, and could not be held to the lease," Haines stated. "When I was approached to buy the 'Buc' I decided to do that instead. The Attic was too expensive for me to fix."

The new club opened Wednesday night, and will have its grand opening this weekend. Haines has kept all of the employees who worked with him at the Attic. All the entertainment that was billed for the Attic will appear at the new location.

Haines' assistant manager, Stewart Campbell, is concerned that people will be disappointed with the change. "Everything will be the same as it was before, the employees, the music, the prices, and even the atmosphere if possible," said Campbell. "We would have had to remodel even if we had stayed at the old location."

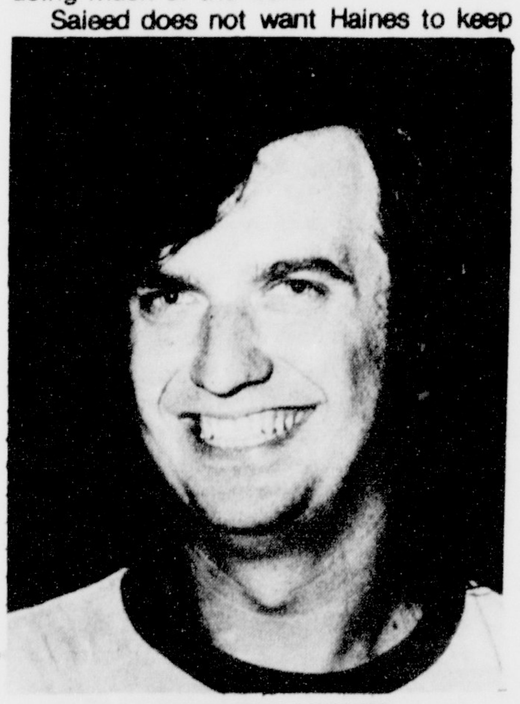

The old location for the Attic will have to be remodeled in order to stay in business.

Bob Saieed who leases the Jolly Roger and The Attic, and will begin managing the Attic said that he will have to rebuild the exits before he can open the club again.

Saieed has made an agreement with the city inspectors to repair the remaining violations within five weeks. Wooden wall paneling must be removed, and a fire resistant ceiling installed. He will be allowed to remain open while doing much of the work.

Saieed does not want Haines to keep the name of The Attic. "There just might be two Greenville clubs called The Attic," Saieed stated.

Haines has high hopes for his new club. "I have always been working for someone else. Now that I have a club of my own I will be open to suggestions and make any changes that will improve the club," Haines said.

Real House provides friendship

By STEVEN MESSICK
Staff Writer

Anita, a seventeen year old high school cheerleader, learns that she is pregnant but is scared to break the news to her parents. Lonely and afraid, she contemplates running away from home.

Charley retired from his janitorial job four years ago. The slight, grey-haired old man wanders the streets now anticipating another empty Christmas. He has no family and all his friends have either died or live in nursing homes. He becomes despondent and depressed and entertains thoughts of suicide.

Both Anita and Charley have an interested friend in Greenville only a phone call away.

The Real Crisis Center has a staff working 24 hours a day to help troubled individuals.

If you associated the Real Crisis Center in Greenville only with drug oriented problems, you are behind the times.

Real House, as it is also known, was founded in 1970 and was incorporated in 1971. It evolved from a group dealing primarily with drug related troubles to a well-trained organization able to cope with a broad spectrum of personal problems.

The Real House provides counseling, referral, and information services for such problems as abortion, birth control, family planning, discrimination, housing, job problems, rape, suicide, and venereal disease.

"The idea for establishing the Real Crisis Center initially grew out of rap sessions between a group of ECU students and a psychology professor," explained Program Coordinator Jim Anderson.

"The people participating in the group wanted to solve their drug problems and help others at the same time, so they got a telephone number and a house."

"The Real House provides a place for someone to call or come by to receive confidential crisis counseling," said Anderson.

"We don't have the stigma of a mental health center. We are just trained people who want to help other people with any problems they might have."

The structuring and financing of the Real House, according to Director Marge Baney, helps get the community involved in its activities.

"Real House is composed of full-time and part-time workers, volunteers, and an executive board made up of local residents," explained Baney.

"A majority of the volunteers are ECU students, but people from all walks of life are involved."

"Real House is financed jointly by funds from the North Carolina Drug Commission and local donations. Local donations are received from the United Fund, the ECU Student Government Association, private contributions, and local fund raising activities."

Anita Brehm, an ECU professor in the Department of Elementary Education and a member of the executive board of the Real House, said many persons are not aware of the many services offered by the Real House.

"A popular misconception about Real is that it advocates one thing or another," said Brehm.

"In dealing with pregnancies, for example, we don't advocate abortions. We simply find out the circumstances and discuss the possible alternatives to any problem."

"The technique used at the Real House is called reflective listening," explained volunteer Brad Smith, former ECU student and now a VISTA worker here.

"The key is being able to talk to a person about his particular problem, hopefully enabling him to view his situation in a different light. Counseling is our goal and, to do this, our staff must establish a rapport with the troubled person."

The Real House is open 24 hours a day, every day of the year. Volunteers participate in a rigorous training program that separates the mildly curious from the dedicated. The program consists of a minimum of six four-hour training sessions, with most participants receiving ten of these sessions before being allowed to answer the telephones. Aside from counseling by phone, the Real House also has a crisis team of trained male and female volunteers who make house calls.

"Two new services to be instituted in January are the rape companion program and the dial-a-teen program," said Director Baney.

"The rape companion program will provide useful information to relatives of rape victims and will provide a trained person to accompany a victim to the hospital or police station. The dial-a-teen service will provide odd-jobs for people between the ages of 14 and 21."

"For the number of staff members we have, we provide more services over a longer period of time than any other crisis center in the United States," said Baney.

The Real Crisis Center is at 1117 S. Evans St. The telephone number is 758-HELP and that is just what this humanitarian organization provides.

Would you believe...

Dieter's blues

By PAT COYLE
Features Editor

[**Note Would You Believe will be a weekly feature column.**]

Would you believe it's diet season again?

As if January weren't a blah enough month, the obligation to diet makes it worse. By obligation, I mean 2 pounds of Hersheys Kisses, a couple of batches of cookies , and countless glasses and bottles of holiday spirits, all the edible glory that enriches the soul, and expands the buns.

Conventional diets start the Monday after New Years, coinciding with the painful return to the flourescent misery of work or classes.

In my case, things got off to a good start due to the fact that I overslept, causing me to abandon my plan to start the day with Special-K. I also ended up skipping lunch because I could not, in good conscience, wolf down a calorie-laden Stewart Sandwich.

Hence, from 7:30 a.m. until 6:00 that night, my consumption was limited to 7 cups of coffee and a cup of orange juice. As my friends picked me up after I fainted from hunger, I felt self-righteously proud of my great beginnings.

The first few days aren't really too tedious. The diet starts out as a project. But once the project loses its novelty, the temptations to slip a little sets in.

It is at this point that the real fun begins. My temptation-fighting methods have ranged from pretending I'd receive a severe electrical shock if I touched the fridge, to convincing myself that I'd suffer from botulism or some other dread bacteria if I ate that 3-Musketeers bar.

Another good method of avoiding temptation and curbing my ever-growing lust for anything with gravy is to buy a copy of "Glamour" or "Vogue". The sight of women who are 5 ft. 9, and weigh 76 pounds dripping wet is, to say the least, inspiring. Not only do they inspire me to lose weight, I am also moved to the desire to bomb every New York modelling agency.

The big question though, is what to eat. I've run the gamut of fads and commercial products. Ayds pull my fillings out, grapefruit gives me a sore throat, and my kidneys can't tolerate 8 gallons of water per day.

If I had to give one piece of advice drawing upon my extensive dieting experience, I suppose I'd say "Eat everything in moderation." If that doesn't work, have you tried hibernating for six months?

ECU Trustees discuss several important topics

Continued from page 1.

teams in the sports program. Of these, there are nine women's teams involving 150 athletes and 11 teams involving 320 male athletes. Cain said 180 athletes are now on financial aid.

A new five year contract was signed with Head Football Coach Pat Dye. Cain said the university was "real happy" with Dye's performance in the last season.

Negotiations for football games with Duke as early as next year and Wake Forest earlier than the already contracted 1980 date are firming up, said Cain.

"We feel we are also making progress in the HEW Title IX guidelines," he said. "For the first time in the history of this school we've signed seven women athletes."

Cain said as the new athletics director he had many questions about the goals of the athletics program. He asked the Board to form a committee to draw up guidelines on where the ECU athletics program was to go.

A committee will be appointed in the future, said Pate, "to take a long look at the athletics of ECU."

In other actions of the Board 14 new faculty appointments presented by Vice Chancellor, Robert L. Holt were unanimously approved.

Holt also reported the passage of the Five Year Certification Plan for Drivers Education by the State Board of Education in December.

By a 6-3 vote the Board denied a request to allow administrative discretion in granting permission for faculty to take, free of tuition, more than the one course per quarter currently allowed by the university.

Dr. John H. Horne, reported that although freshman class admissions will be down next year, enrollment projections show no real decrease from this year. Horne said the Board of Governors had warned ECU to watch "over-enrolling" of freshmen. (ECU is currently 500 students over the suggested figure), and to up admissions requirements from a 1.5 grade average to a 1.6. Therefore, said Horne, the freshman admissions will be cut even though the number of applications will remain about the same.

In the area of Institutional Development, Dr. Charles Brown reported no increase expected in the placing of ECU graduates.

"Last year we placed about 80 percent of the people registering with the Place Service. It looks pretty much the same this year," he said.

Dr. James Tucker, Vice Chancellor of Student Affairs, said the dorms opened in the fall with no vacancies. The current 95 percent occupancy this quarter is above last year's and may be due to the new signing of yearly contracts, said Tucker.

All reports on the co-ed dorms have been favorable, Tucker said.

Student Government President, Jimmy Honeycutt, was asked by the Board to encourage the student body to look into dormitory conditions and make a report for possible improvements at the Board's spring meeting.

Over $3,000,000 has been awarded to 4,638 students through financial aid: 31 percent in loans, 37 percent in student workers and 32 percent through gifts and scholarships.

$4,500,000 is being spent this year on various campus construction projects, said Cliff Moore, Vice Chancellor of Business Affairs. Completion of the heating plant is nearing. "Hopefully this is the last month you'll see smoke billowing from (the smokestack)," said Moore.

It was reported that ECU gate receipts from the State-ECU game totalled over $80,000, receipts from the Carolina-ECU game, $65,000 and $22,000 from the Homecoming game.

Dr. William Laupus of Health Affairs said they were currently working on seven major projects: completion and renovation of Ragsdale dormitory for med school use (expected in late February); site planning of the new med school on the 40 acres purchased near Pitt Memorial Hospital; recruiting med school staff; the curriculum for a four year med school; development of a med school M.A. and graduate program; residency; and interim ambulatory care centers now being negotiated with Pitt Memorial Hospital.

The ECU-Costa Rica program for April-November of 1975 was a success, according to Provost, John M. Howell. A contract has been signed with Costa Rican officials for another year, he said.

Dr. Leo Jenkins encouraged support of the state's $43,000,000 capital improvement bond involving 14 campuses of which ECU is not one.

"ECU will not get a thing from it, but I think it's important to push for it in view of the amount we got for the med school," he said.

"We have probably done more for its passage than any other institution so far," Jenkins said.

The last action of the Board came in a decision to name room 145, Minges in honor of Dr. N.M. Jorgenson in conjunction with a letter so requesting from the P.E. Majors Club.

Dr. Jenkins ended by reminding members of the Board of Ovid Pierce's new book, 'Old Man's Gold and Other Stories', to be out in February. Jenkins also said that artist in residence, Francis Speight, will be retiring after spring quarter.

ACUI opens January 13

By RICHARD DROGOS

The American College Unions International (ACUI) tournaments will open at ECU January 13, 1976, in Mendenhall Student Center.

Activities this year include bowling, billiards, chess, table tennis and bridge.

"We will start off the tournaments will billiards beginning Janaury 13th," said Bruce Whitten, Student Union Recreation Committee Chairman.

"The tournaments will be open to any full time ECU student and we welcome all of them to participate in tournaments. There will be separate divisions in almost all of the games and the competition is already building up," said Whitten.

East Carolina's representatives last placed fifth in regional competition at Knoxville, Tenn. "We were fortunate enough to have some of our people place very high in the regionals last year, and we hope that we can field another strong team," said Whitten.

Bowling and table tennis tourneys will be held on January 19th, bridge on Jan. 27th, and chess gets under way on Jan. 28th. Whitten said, "Bowling, billiards and chess will be the only events with team competition."

Whitten also cited some fringe benefits that ECU students could enjoy if the win the tournaments. "A lot of people fail to realize that if they win a respective tournament, then the school foots the bill for their trip to the regionals," said Whitten. "This includes free transportation, free meals and free accomodations."

The regional ACUI tournaments will again be held in Knoxville, Tenn. this year. "I guess you could call it a vacation of some sorts," said Whitten. "It's a nice place to visit and you certainly can meet a lot of people from other parts of the South," he added. The five states in this regional are North Carolina, Tennessee, Georgia, Virginia and South Carolina.

Whitten urges everyone to participate in the tournaments and have a good time.

"A free vacation should be enough incentive for everyone," said Whitten.

Mendenhall President

Applications being taken

By BARBARA MATHEWS
Staff Writer

Applications are now being taken in Mendenhall Student Center for the position of Student Union president, according to Dean S. Rudolph Alexander, Student Union advisor.

Alexander said the Student Union president is selected by the Union Board of Directors in winter quarter to allow for an extensive training period before the president-elect takes office in early May.

"Any student, whether experienced with the Student Union or not, may apply," said Alexander.

"This is a highly respected position, a very important one with an attractive salary ($175 a month).

"It is also a very necessary position, since the Student Union cannot function well without real leadership at the top."

Applicants must be fulltime students with a 2.0 overall average.

According to Alexander, the president serves as key officer in the Student Union and is the only salaried officer. There are no subordinate executive officers, such as vice-president, etc., so the president has great responsibility.

Diane Taylor, present Student Union president, said the job is a good one for gaining experience.

"You are constantly working with people and learning how to handle administrative responsibility," she said.

"The Union needs strong leadership. It is still a young organization, being separate from the SGA for only five years."

According to Taylor, a person with patience and the determination to see things through is needed.

"The Student Union president is the one force that ties all the Student Union committees together," she said.

"The president serves as a liason between the Student Union and the student body, the Student Union and the administration, and the Student Union and the public."

Applications for the position will be available in Mendenhall until Jan. 23.

Pamlico River pollution studied

By RAY TYLER
Staff Writer

Two East Carolina University professors are currently conducting research to determine if septic tanks are polluting the Pamlico River.

Dr. Donald B. Jeffreys and Dr. Graham J. Davis, professors of biology at ECU are monitoring ground water from cottages around the mouth of Broad Creek near the Washington Country Club.

The biologists are attempting to learn if nutrients are seeping into the river from the residential septic tanks. They began the project in august and will continue until next summer.

"As the concentration of inorganic nutrients such as nitrate, ammonia, and phosphate become high it can lead to rampant growth of algae," according to Dr. Davis. "The algae growth can lead to a reduction in the oxygen level in the water at night which can lead to fish kills.

The project is funded by a grant of $1,800 from the Institute of Coastal and Marine Resources. The research is being coordinated with research Davis has been conducting on the Pamlico River for the past three years.

"For the last two and a half years, we have been studying seaweeds in the estuary and the part they play in the estuary system," said Davis. "Now we are studying the amount of food in the river, how much is being used, and what kind is being used by the micro-organisms."

This overall, long-term project is funded by a grant of $45,000 from the Water Resources Research Institute at the University of North Carolina.

Evidence of pollution is being discovered, but there is no positive link to septic tanks, according to Jeffreys.

"We are finding fecal bacteria in the river," said Jeffreys. "But we don't know if it is coming from the septic tanks."

Jeffreys and Davis said there are indications that pollutants are getting into the river but said there is no serious problem on the Pamlico River yet."

Eric Carmen

SIXTIES ROCK IN SEVENTIES POP

By MAC McKEE

ERIC CARMEN

Unless one is familiar with the music scene in Cleveland, Ohio, then the name "Eric Carmen" by itself doesn't mean much. But put this particular name in front of a song called "Go All The Way" and the name "Eric Carmen" isn't that unfamiliar.

That was 1972, and Eric Carmen was then leader and mastermind of a band called the Raspberries. Unfortunately, the Raspberries were not given the chance to prove their worth as a legitimate rock band. Instead, they were stigmatized, if not damaged by their short-lived AM success. In order to rectify themselves, the Raspberries tried their hand at which was to become their last album, **Starting Over.** But it was too late.

If such circumstances were the case then it would be appropriate to title Eric Carmen's new album **Starting Over.** In a sense, he has begun to "start over" again. In his new album titled simply **Eric Carmen** , he has successfully merged the nonchalance and fun of sixties rock with the sophistication of seventies pop minus the pomp.

Just listen to songs like, "That's Rock and Roll". In these songs one can hear traces of the Beatles, the Hollies, and the Who. Snarling guitars, pounding drums and soaring vocal harmonies are all contained in songs that only have a three to five minute framework. "Last Night" is a tribute to the Beach Boys, while "Great Expectations" is a brilliant example of ragtime performed in seventies style.

As for the music of the album as a whole, the guitars don't get too loud, the drums aren't oppressive, and the synthesizers aren't cluttered, thanks to Jimmy Inner's masterful producing. There will not be many pop albums as slick as this one. As Arista Records like to put it: "Eric Carmen Will Stun You".

"MARK TWAIN IN ITALY"

"Mark Twain in Italy," a color film depicting Twain's comical adventures in Italy will come to Mendenhall student Center Theatre on January 8, 1976 under the sponsorship of the Student Union Lecture Committee.

Produced and personally narrated by Dick Reddy, this film traces Mark's journeys to Italy; from his 1867 **Innocents Abroad** sojourn aboard the steamer, Quaker City, to his last tragic day in 1905 in Florence where he lost his wife of 33 years.

Although Mr. Reddy holds both a Bachelor's and Master's degree in Journalism, his intense interest in travel and photography resulted from his studies of Cinematography at the University of Southern California. Since entering the lecture field, Mr. Reddy has been warmly received by audiences across the country. He brings a fresh, unique approach to his films both in his informative and entertaining narration and in his artistic photography. The background and research that goes into each subject is evident in all his films.

East Carolina University students will be admitted to this film by showing I.D. and activity cards; Faculty and staff members, Mendenhall Student Center Membership Cards, and Public; $1.00.

COLLEGE STUDENTS:
Work for yourself... by working with us!

Graduates and undergraduates at colleges and universities all over the country have been doing well financially for years by offering their peers special-rate student subscriptions to TIME, SPORTS ILLUSTRATED and FORTUNE.

You can too.

The only investment is your time and talent. We supply a complete, effective selling kit that's an accumulation of over two decades of on-campus selling experience.

You set your own working hours, the commissions are liberal, and we do the billing. And for extra income you may even participate in special market research projects.

If you are interested, please apply to: **Time Inc., College Bureau, Time & Life Building, Rockefeller Center, New York, New York 10020.**

Please include your name, address, telephone number and name of school.

You'll never know how much good you can do until you do it.

Felipe Maghirang knows how much good he can do. He does it every week as a volunteer at a home for mentally retarded children.

You can help people.

In fact, there's a crying need for you. Your talents. Your training. Your concerns. They can make you priceless as a volunteer in your community.

There are probably several local organizations hard at work doing things you'd be proud to be part of. We'll put you in touch with them. Join one. Or, if you see the need, start a new one.

If you can spare even a few hours a week, call the Voluntary Action Center in your town. Or write: "Volunteer," Washington, D.C. 20013.

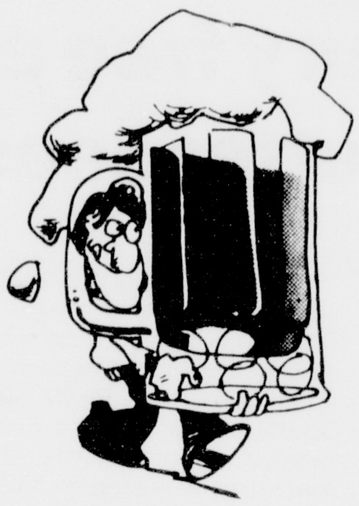

It'll do you good to see how much good you can do.

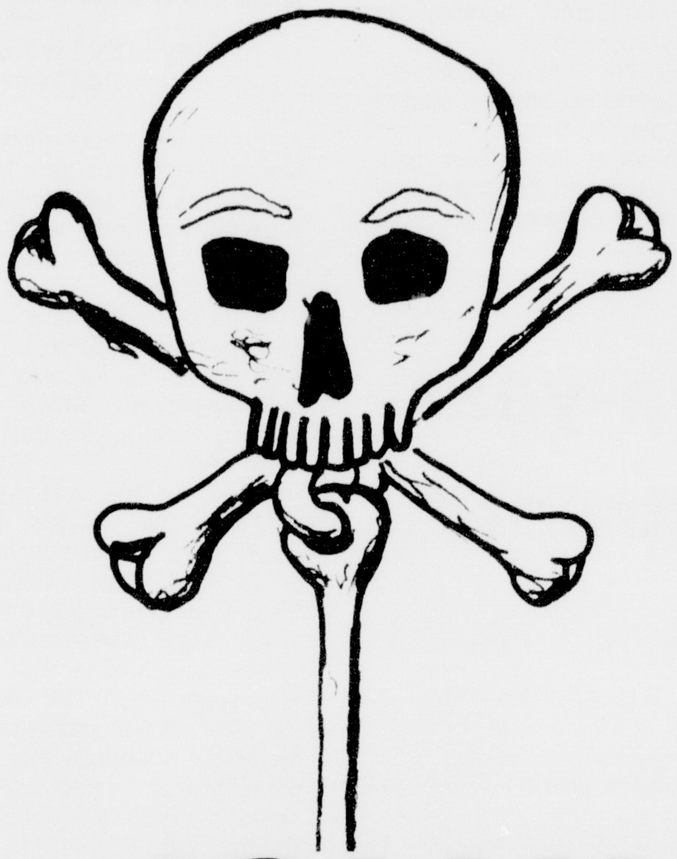

Volunteer.

ECU Routed 95-70

By JOHN EVANS
Sports Editor

Old Dominion won the NCAA Division Two Championship last season, and if the East Carolina University basketball team found that hard to believe then perhaps it is thinking different now, after the Monarchs routed the Pirates 95-70 last night.

The Monarchs trailed once early, at 5-4, before it opened up a ten-point first-half lead behind the intimidating play of 6-9 center Wilson Washington and the hot shooting of guards Reese Neyland and Jeff Fuhrmann, to build a 42-31 lead over a stumbling East Carolina basketball team.

The Monarch trio continued the pace in the second-half to team up for 60 of the Monarchs' 95 points while shooting over 65 per cent. Fuhrmann scored 22, Neyland had 20 and Washington added 18.

Although Washington finished as the Monarchs' third leading rebounder he was truly the key to the Old Dominion rout as he intimidated, outshot and out-finessed his opposition.

In addition to his points, Washington had 14 rebounds and six blocked shots in his 29 minutes playing time.

While Washington held court under the boards, Neyland and Fuhrmann held target practice from all over. The trio of

Godette will play

Dye signs new five-year coaching contract

By JOHN EVANS
Sports Editor

Monday morning Chancellor Leo Jenkins announced that East Carolina head football coach Pat Dye had signed a new five-year contract to coach the University's football team.

Dye's contract, which now runs through 1980, replaces a previous multi-year contract under which Dye had already served two years.

Tuesday afternoon Dye talked to the Greenville Sports Club about the ECU football program.

"Our program is now at a crossroads as to where we can go from here," said Dye. "I feel we need to increase the size of our stadium first, so that we can accomodate the larger crowds which will result when we start scheduling the bigger schools (South Carolina and ACC clubs) on a home basis, which I feel is another thing we need to do.

"We need to upgrade the class of people we play, and getting the teams we now play only on the road on a home-and-home basis. In doing this we may start taking a beating and lose more games at first, but you need to play better teams to upgrade the program."

Dye was also asked about how he thought the university should handle the question of its continued participation in the Southern Conference.

"Whatever we do," said Dye, "we are going to have to stay in Division One football. If the NCAA adopts the Division One into two conferences and we get in the 1-A division, it could set us back 25 years.

"Even though we did not win the conference this year I think if we stay where we are we're going to go backwards instead of forward."

As far as next year's team is concerned Dye said he was optimistic about the returning crop of players (17 starters from this year's 8-3 team). Included in the returning players will be All Americans Jim Bolding and Cary Godette. Godette originally had not planned to play in 1976, but Dye said the Havelock native has now changed his mind.

"I talked to Cary this week," said Dye, "and he told me he has decided to play next year after all."

So far this year the Pirates have had a good recruiting year, according to Dye. Dye said he has signed nine prospects already and that this weekend should be a big weekend as far as signing additional recruits is concerned.

"I want to caution you, though. Our players have to stay hungry if they want to improve and remain winners next year."

Dye also threw out a challenge to East Carolina fans, students and administrators.

"I think our future is unlimited. Our facilities and our tradition may not be as good as at other places, but we have the people. It's the people who make things happen.

"If we want to go big-time we have to do it now and we can't wait ten years. We'll get our bumps and bruises, but we need to get started.

"In the position we are now we will be classified 1-A if the NCAA adopts the new "super conference" idea. I can't see us being classified any higher.

"If we are classified 1-A it could be disasterous because we won't be able to grow. I just want to get a chance to grow, but if we are 1-A we won't get this chance.

"That means the people here in this area have got to support the program and push East Carolina to grow and we can't wait to do it."

Coming from a football-rich tradition at Alabama and, as a player, at Georgia, Pat Dye must know what he is talking about in regards to the football program. But although he speaks of football, his ideas hold true for the entire ECU program.

By signing Pat Dye to the new five-year contract, East Carolina may be making one of its biggest steps forward in upgrading its program to a big-time level. With the new pact, Dye can now have a better chance at following through on his goals—to build a big-time program at East Carolina.

Sports

Suggs is injury free and looking for better season

By STEVE WHEELER
Staff Writer

It was just about three years ago that Carter Suggs put fire to sportswriters' typewriters all over North Carolina. They were saying, "Hey, what do you think of that high school kid running a 9.3 100-yard dash."

It took only a matter of hours for it to hit the wire service and the then high school junior was the object of a recruiting battle which ended with the signing of Suggs by East Carolina in the spring of 1974.

It was on the ECU track in the spring of 1973 that Suggs turned in that magnificent 9.3 performance. It was the finals of the Eastern Regionals Track and Field Championships of North Carolina. When Suggs crossed the finish line, the timers began checking their watches. ECU Track Coach Bill Carson, director of the meet, did a double-take when he got ready to announce the results to the crowd. After checking their watches again, the timers signaled to Carson that the time was correct and he announced it to the crowd, "Ladies and gentlemen, Carter Suggs has just tied the national high school record in the 100-yard dash with a time of 9.3."

The crowd went wild, while Carter's teammates were all over him.

The following week Suggs won the state championship in the 100 and 220, while placing second in the long jump, and running a leg on the winning 880-yard relay team.

That was just a start for the young thinclad from Tarboro. The summer of 1973 was spent in Europe on the U.S. Junior Track Team. Suggs went through the summer, running against some of the best competition in the world, losing just once, to another runner on the U.S. Team.

When Suggs returned to his home town, there was a parade waiting for him. Businesses closed, bands played, and about 15,000 people showed up to greet a hero of their fair city who was now known around the world.

That was about the time Suggs was beginning his senior year in high school. During his senior year, Suggs set yet another record on the track.

In the 1974 North Carolina High School Athletic Association Track and Field Championships, Carter Suggs scored more points by himself than did the next best "team".

Yes, that's right. Suggs scored 19 1/2 points, while the second place team scored 18. Suggs won the 100 and 220-yard dashes and the long jump. In the mile relay Suggs ran the anchor leg When he received the baton, he was 25 yards behind the best quarter-miler in the state. With his legs churning hard, he somehow started gaining ground and before he got to the finish line, he had passed the man by about ten yards. A fitting end to his high school career that meet was.

Asked about that magnificent performance Suggs replied, "That had to be one of the high spots of my life. I never gave up in that mile relay."

Entering ECU in the fall of 1974 Suggs lost just two races in the indoor and outdoor seasons in his freshman year. Suggs lost to Ivory Crocket (co-record holder of 100-yard dash in 9.0) and Steve Riddick (best of 9.1). Suggs had a best last year of 9.3 in the 100 and 6.0 in the 60 indoors. This was remarkable considering Suggs had a pulled hamstring for most of the year and had very little practice time because of it.

So, what can this man expect of the season.

"I believe I can run a 5.9 indoors in the 60 and 9.0 or 9.1 in the 100 outdoors this season. I am 100 percent physically this season. Last year I was injured most of the year and could not work out and stay in shape."

It would be a strong performance for Suggs to turn in the 5.9 in the 60 or a 9. in the 100, but this man has been turning in phenomenal performances for the past three years and there may be no end to his bag of tricks.

Time-Out

By JOHN EVANS
Sports Editor

Questions Concerning The Southern Conference

To get out or not to get out of the Southern Conference? That was to be one of the questions dealt with by the Board of Trustees in yesterday's meeting and, regardless of the decision of the group, now which will probably be a "wait and see" attitude. There are several questions to be considered.

Editor-in-Chief Mike Taylor's editorial brought out many valid points on Tuesday, but the one which most caught my attention was the money factor.

Taylor was correct in his assumption that leaving the conference requires the upgrading to Minges and Ficklen, but the major question is: Where do we get the money from to do so?

There are two major areas where the money can come; one is from the students and the other is from the community and alumni.

The students are already bearing a great amount of the athletic burden through their student fees (remember the lights last year) and the question should be asked as to how much more of the burden do they wish to carry or, rather, should they be asked to carry any more of the burden at all.

Athletic Director Bill Cain has said he does not want the students to bear any more of the Athletic funding than they already do. Taking Cain as a man of his word then, one has to assume that the money to build these new facilities, or build the necessary improvements, will have to come from someplace else. Where?

It is not as easy to take the money out of the public's pockets as it is to take it from the student's pockets. There are no student fees to hike in order to meet the difference needed to make improvements.

Most of the public and alumni donations are gathered through the work of the Pirates Club. The Pirates Club already works hard to raise money for East Carolina Athletic teams and there is a question of how much more this organization can raise for the University's teams.

Cain has said that plans and dates for the expansion of Ficklen Stadium will be announced in the near future, so there must be some funding available already. It is supposed to cost in the vicinity of a few million dollars for the expansion project, but to tell the truth, this writer knows little more about the funding than that. Questions need to be answered.

But a bigger stadium alone does not make a big-time athletic program. There would be other changes which would be necessary with an athletic budget of just under a million dollars, and AD is hard-pressed already to make ends meet and keep everyone happy.

If East Carolina is going to upgrade its program, sacrifices are going to have to be made in order to raise the additional revenue needed to pay for it. The key word here is "revenue". The revenue comes almost solely from two sports, basketball and football.

Therefore, to increase revenues, these sports are going to be the ones that must receive the majority of "favoritism" in funding. At East Carolina, the minor sports are already funded in percentages as compared to football and basketball. How much less are the minor sports willing to take as their share?

If one looks at the "major" programs across the nation, it will become evident that minor sports (spec. baseball, wrestling, swimming, tennis and golf) do not receive a "shot in the arm" as far as equal funding is concerned. Of course, this does not hold true in every case, depending on what minor sports that school wishes to specialize in. Then again, the athletic budgets of the bigger schools are quite a bit more than at East Carolina.

So much for the question of economics.

It seems East Carolina has a major case of the growing pains. It has outgrown the Southern Conference in the opinion of most and this writer agrees, but has not quite grown big enough, or rich enough, to move elsewhere.

Haste in a decision could prove detrimental to the school, but ultimately the decision must be planned with timing and withdrawal from the conference as major priorities.

If the NCAA does adopt the Division One and the Division 1-A setup, where will East Carolina go then? If they do get out of the conference, what schools will they schedule? More than likely the same ones as they do now. It is not that easy to change on the spur of the moment.

Perhaps the school should stay with the Conference for a few more years, while it slowly "phases out" those schools which are considered "undesirable" as opponents and replace then with bigger name schools.

Most important to this writer is the improvement of present facilities. East Carolina, right now, can probably play almost any school it wants in any sport, but on the road. How many home games would the fans like NOT TO SEE in return for ECU playing "big name" schools?

Richmond and East Carolina have long been the fastest growing of the SC schools and perhaps the two schools could form the nucleus of a six-to-eight team conference, say to include West Virginia, VPI, South Carolina and William and Mary. One question, though, how do South Carolina, VPI and West Virginia feel about being in a conference with ECU and Richmond. After all, it is a two-way street.

Don't get me wrong, this writer feels the time is fast-approaching for ECU and the Southern Conference to have their day of reckoning. For this writer, though, there are just too many questions still to be answered.

Swimmers prepare for big meet

Following a 10-day training trip to sunny Florida, the ECU swimming team returns to action Thursday, Jan. 8, against the University of Maine in the Minges pool at 7:00 p.m. This will mark the first meeting ever between the two schools in swimming.

The Pirates have not faced any competition since Dec. 13, when Ray Scharf's club easily defeated Appalachian State in Boone, 77-36.

The big meet of the year will be held on Jan. 10 in the Minges pool at 1:00 p.m. That's the day the University of North Carolina arrives in town for the renewing of this big rivalry. Last year, ECU was edged by the Tar Heels 59-54 in Chapel Hill.

Southern Conference competition will be the diet for Jan. 12 and Jan. 16. The Pirates travel to Richmond on the 12th and host Furman on the 16th.

Women cagers soon to face tough schedule

The women's basketball team opens its '76 season this Friday night and to this year's Pirate team, the game is more than a season opener. It will be a necessary element of preparation by which head coach Catherine Bolton can locate strengths and weaknesses in the Pirate line.

After this week's game with West Chester College, the Pirates begin a schedule involving several ACC teams followed by a tournament.

One major problem which will be facing the Pirates this year is the lack of a tall center. Bolton intends to employ a three-forward offense in order to compensate for this disadvantage.

Susan Manning and Debbie Freeman both gave impressive performances in the intrasquad Purple-Gold scrimmage and have nailed down two positions at starting forward. The remaining forward spot is a decision between Brenda Dail and Rosie Thompson.

There is certainly sufficient talent on this year's team consisting majorly of freshmen and seniors. Returning is Ellen Garrison at the point guard and Marie Chamblee. Bolton has commented, "Maybe we've got some superstars on this team. We do have a larger number of capable players than a lot of teams do."

Women's Basketball For January:

Jan. 9	West Chester College	7:00	Minges
17	NCSU	1:00	Chapel Hill
18	UNC-CH	2:00	Chapel Hill
20	Duke	7:00	Durham
24	Madison College	5:00	Minges
30	Elon Tournament	TBA	Elon College

ODU Continued from page 22.

Old Dominion talent just ran circles around the Pirates all night long and didn't stop until the final buzzer marked the end of the worst Pirate defeat at home in a long time.

It seemed like Old Dominion shot much better than it did from the floor, as the Monarchs hit on 50.6 per cent from the floor. This was probably due to the cold shooting of the ECU team, which shot only 37 per cent for the game.

If East Carolina's team is to be praised for anything, it can be said that it seemed to at least try. Trailing by 20 points for most of the second half, Tyron Edwards and Larry Hunt continued to battle underneath the boards against the impressive Washington. Despite this, the ECU combination of young and old was no match for Washington and his cohorts.

Hunt ended up with some impressive credentials, scoring 22 points and grabbing 18 rebounds, but his defensive play against Washington somehow seemed to cancel out his offensive play. Also, the 6-8 ECU center was only nine-for-23 from the floor.

Edwards at times seemed to play as tough as Washington, but in the end his youthful inexperience made the difference. Even so, he ended up with five points and four rebounds during his little time on the Monarchs' big man.

Of the rest of the Pirate team only Louis Crosby seemed to show any signs of fulfillment against the Monarchs. Playing 33 minutes, Crosby scored 12 points and added six rebounds at guard.

It just was not East Carolina's day. The Pirates were just outplayed by a more polished, better executing team which came ready to even the score after the 70-69 ECU win last year.

The Monarchs were successful in doing so. East Carolina threw everything it had at the Monarchs: the fast-break, a three guard offense, a four-guard offense, and a tall lineup. Regardless of what Coach Patton threw against the Monarchs, Washington and company tore it apart. It was just that bad.

One now has to wonder, with six straight conference games approaching, how good the Pirates will be the rest of the year?

All six of the Pirate losses this year have been by no less than 19 points and the ECU team has yet to put together a decisive victory.

This has to be a question Patton is asking himself and perhaps he asked the team for some answers in the 20 minute talk he held with them after the game.

Whatever comes out of the game last night, it has to have been a bitter pill for the East Carolina team to swallow.

OLD DOMINION [95]-----Morrison 2, Douglas 11, Caruthers 2, Neyland 20, Fuhrmann 22, Conrad 8, Moyer 2, Piscopo 2, Washington 18, Paszko 8. TOTALS 43--9-----95.

EAST CAROLINA [70]-----Braman 0, Garner 6, Crosby 12, Dineen 0, Lee 10, Windley 2, A. Edwards 5, Hunt 22, T. Edwards 5, Williams 0, Henkel 8. TOTALS 31--8-----70.

news FLASHFLASHFLASHFLASHFLASH

Jewish Students

Attention Jewish students - Friday evening dinner, service and social at the DEN. Corner of 9th and James St. January 9th, 6 p.m.

Incompletes

An "Incomplete" from a previous quarter must be removed and reported to the Instructor not later than three weeks prior to the end of the current quarter. The deadline for students removing "Incompletes" for the Winter Quarter is February 10. Instructors must submit the Removal of Incomplete Form to the Registrar's Office two weeks prior to the end of the current quarter. The deadline for this report for Winter Quarter is February 17, 1976.

During the first twenty days of Winter Quarter, excluding Saturdays an undergraduate student may, at his option, drop a course or courses without penalty. After the first twenty class days (January 13) of Winter Quarter, an undergraduate student may drop a course or courses only with occurrence of circumstances unforeseeable during the first twenty days and uncontrollable thereafter and only with the permission of the Provost, the Vice Chancellor of Health Affairs or the persons he may designate, or the Dean of the Division of Continuing Education, as is appropriate. If permitted to drop, the student must deliver the required forms to the Office of the Registrar within three class days.

NTE

The National Teacher Examinations (NTE) will be given at ECU on February 21, 1976.

Scores from the examination are used by many states for certification of teachers, by many school systems for selection, tenure status and identification of leadership qualities and by many colleges as part of their graduation requirements. About 100,000 candidates took the examination last year.

Educational Testing Service, which prepares and administers the tests, says they are designed to measure knowledge gained from professional and general educationand in 27 subject-matter fields.

Bulletins of Information describing registration procedures and containing registration forms may be obtained from Mr. John Childers, Director of Testing, ECU, Room 204 Speight, or directly from the National Teacher Examinations, Educational Testing Service, Box 911, Princeton, N.J. 08540.

Carnation

Minority Greek Council is sponsoring its 1st annual Carnation Ball, tickets $3-dress semi-formal, at the American Legion Hut, January 1, 1976 8 p.m.

Alpha Beta Alpha

The regular monthly meeting of the Alpha Eta Chapter of Alpha Beta Alpha (Library Science Fraternity) will be held in the student lounge in the Library Science Department of the Joyner Library at 5 p.m. on Tuesday, Jan. 13.

All members are urged to attend.

Forever Generation

The forever Generation invites you to join us this Friday night at 7:30 in room 244 Mendenhall for some fun, fellowship and refreshments.

Skydive

Learning to skydive is the ultimate high. For information call 758-6374 or 758-9940.

Chi Beta Phi

Chi Beta Phi will have its monthly meeting for January at 7:30 Wednesday night, January 14th, 1976 in the Biology lounge. All members please attend.

Epsilon Pi Tau

The monthly meeting of Epsilon Pi Tau will be held Monday, Jan. 12 at 5:30 in the Industrial Technology Department. Every member is urged to attend.

SNA

The Student Nurses Association will meet Thursday night, January 8 at 7:00 in room 101 of the Nursing Building. This meeting will select the "Student Nurse of the Year" for ECU. All interested persons are invited to attend.

Psi Chi

On January 8, Psi Chi will sponsor a preregistration orientation in Speight room 203 at 7:00 p.m. Faculty and students will be there to answer questions about psychology courses and majoring or minoring in Psychology. Refreshments will be served. This orientation is for everyone interested in having questions about the Psychology department answered.

Pub Board

There will be a regular meeting of the Pub Board this Thursday at 4 p.m. in Mendenhall Student Center. The newly elected members are asked to be present at this meeting, as last year's business will be discussed in relation to this year's plans.

SGA openings

Openings for SGA are (1) Belk, (1) Tyler, (1) Jones, (1) Green, (2) day student.

Wed. Jan. 7th, room 239 Mendenhall. Apply in SGA office, 2nd floor Mendenhall.

Pep band needs you

Anyone interested in playing in the Pep Band for home basketball games, call Dave Rockefeller 758-4119 or the band office 758-6982. No audition needed. We need you!

Coffeehouse

Coffeehouse will present Windy Stevens from Washington, D.C. on January 9 and 10 at 8 and 9 p.m. Come by for a quiet surprise. Remember, auditions for the Coffeehouse are January 16 and 17. If you would like to play, you have to audition. Come by the Student Union office and sign up!

Transition group

Transition Group - Open to people in University Community who desire to work through some mutual problems which they may share with others newly divorced or separated. Meeting once a week for 12 weeks in 2 hr. sessions. Monday evenings beginning Jan. 12 at 7:30-9:30. Prior enrollment required and limited to 15 persons. Cost - $2.00 covering mailing and materials.

Topics may include: divorce and separation as opportunity for personal growth, emotional, social and economic adjustment, exploring future alternatives, coping with conflicts, an honest look at feelings.

Registration - mail to Dan Earnhardt, P.O. Box 423, Greenville, N.C. 27834, 758-2030.

Caps and Gowns

Attention: Winter Quarter Graduates. Undergraduate caps and gowns to be delivered January 27-29, 1976 at the Student Supply Store.

Graduate caps and gowns to be delivered January 27-29, 1976 at the Student Supply Store.

These Keepsake gowns are yours to keep providing the $10.00 graduation fee has been paid. For those receiving the Masters Degree, the $10.00 fee pays for your cap and gown, but there is an extra fee of $7.50 for your hood. Any questions pertaining to caps and gowns should be referred to the Students Supply Store, Wright Building.

Announcements are now on sale in the Student Supply Store. There are five in a package for $1.50.

Social Welfare

For the first time, beginning Spring Quarter, a minor in Social Welfare will be offered, according to Dr. John Ball of the Social Work and Corrections Department.

Dr. Ball pointed out that the minor in Social Welfare would include introductory and intermediate courses in both Social Work and Corrections. Dr. Ball explained that in the past most courses had been offered to only Social Work and Corrections majors.

A Social Work minor should be of special interest to students in areas like Political Science, Psychology, Child Development and others, according to Dr. Ball.

Any student interested in the social welfare process should look into this new minor," Dr. Ball concluded.

Union President

Applications for Student Union President for the 1976-77 school year are being taken until January 23. Apply at the information desk at Mendenhall Student Center.

Ring Rebates

Information concerning class rings rebates for those students who purchased rings in 1973 and 1974 is now available at Mendenhall Student Center room 224 during the following times: Tuesdays from 9:00 - 12:00, Wednesdays from 1:00 - 3:00, Thursdays from 9:00 - 12:00, and Fridays from 1:00 - 3:00.
