December 9, Tuesday	Reading Day
December 10, Wednesday	Exams Begin
December 17, Wednesday	10:00 p.m. — Exams for Fall Semester close

Could the smile on freshman Laura Hudson's face possibly mean she got the courses that were her first choice?

Official Instructions For On-Line Registration

Prior to using the on-line registration system, each student will develop a schedule containing no more than 18 hours of primary courses and no more than 15 hours of alternate courses (summer session seven hours primary and seven hours alternate) that meets with his/her advisor's approval as indicated by the advisor's signature on the registration form. All special permissions (e.g., extra hours, majors only courses, instructor's permission, etc.) for course registration must be secured prior to using the on-line registration.

Allocation of Registration Days

April 1, 1986 Graduate Students, Petition Students and Seniors (96 or more semester hours credit).

April 2-3 Juniors (64-95 s.h. credit) and those eligible prior to this period.

April 4 & 7, 1986 Sophomores (32-63 s.h. credit) and those eligible prior to this period.

April 8-9, 1986 Students with 16-31 s.h. credit and those eligible prior to this period.

April 10-11, 1986 All students eligible.

It is especially important that faculty advisors insure that students list alternate courses rather than sections on the course request form. Terminal operators cannot allow students to add courses not listed on the form since they are not permitted to give academic advice to students. Terminal operators will routinely check the availability of alternate sections when a primary course-section request is unavailable.

It is also important for students and terminal operators to follow schedule "locking" instructions carefully. In par-

ticular, graduate student schedules and partial schedules for undergraduate students should not be locked. Inappropriate locking of schedules causes delays when the student attempts to complete the registration process.

Change of Major

To smooth the distribution across terminals, students may declare a major or change of major at any time subject to current university policy and the policy of the receiving department.

Terminal Operating Hours

Each unit with a terminal for on-line registration will schedule a minimum of four hours per day for registration during the entire registration period. The days and hours of operation should be clearly posted. The terminals in the Registrar's Office will be open 8:00 a.m. to 5:00 p.m. during the entire registration period. Times and location of all terminals are listed below:

Students have access to all open terminals, but they are strongly advised to use the following locations depending on their classification.

- Declared majors -- Undergraduate: Major Department
- General College Students: General College
- Petition Students: Registrar (Required)
- Degree Graduate Students: Major Department
- Non-Degree Graduate Students: Registrar
- Students Receiving V. A. Benefits: Registrar (Required) Whichard Bldg., Room 104
- Evening College Students: University College

Terminal Utilization

1) The student will present the registration form signed by the

advisor (along with required permissions) to the computer operator. No changes to the form will be allowed.

2) The operator shall use a maximum of 15 minutes to complete the regular session registration process. The operator shall use an additional 15 minutes maximum for the summer session registration process.

3) The operator will enter the student's primary course request. If the requested schedule is possible, no further changes will be allowed.

4) If step 3 results in a partial schedule, the operator will allow the student to choose other sections of primary course requests and/or alternate course requests. If a schedule is possible with primary course and alternates listed on the registration form and the student chooses not to accept the schedule, a partial schedule may NOT be obtained and the student will be instructed to return at a later time.

5) If the 15-minute time constraint is encountered or the list of primary and alternate courses is exhausted during step 4, the student will be given a partial schedule. The student should then consult with his advisor to identify additional courses and complete the registration process at a later time.

6) If a student does not receive a course because all sections are closed and the course is required for the student (no alternates allowed), the student may obtain a partial schedule and seek special permission to be added to the course from the department involved. Registration will be completed in the department granting such special permission.

Summer School 1986 First Term

(Actual days First Term: 5 Mondays, 5 Tuesdays, 5 Wednesdays, 5 Thursdays, 5 Fridays, 1 day for Registration, 1 day for Final Exams)

May 16, Friday	Schedules of both graduates and undergraduates who have registered will be cancelled at 4:00 p.m. if payment is not received
