Prerequisite to using the on-line registration system... Each student will develop a schedule containing no more than 18 hours of primary courses and no more than 15 hours of alternate courses (summer session seven hours primary and seven hours alternate) that meets with his/her advisor's signature on the registration form. All special permissions (e.g., extra hours, majors only courses, instructor's permission, etc.) for course registration must be secured prior to using the on-line registration.

Allocation of Registration Days:
 March 30 — 1987 Graduate Students, Petition Students and Seniors (96 or more semester hours credit)

March 31 — Juniors (64-95 s.h. credit) and those eligible prior to this period.

April 1 — Sophomores (32-63 s.h. credit) and those eligible prior to this period.

April 2 — Students with 16-31 s.h. credit and those eligible prior to this period.

April 3, 4, 7 — All students eligible.

It is especially important that faculty advisors advise that students list alternate courses rather than sections on the course request form. Terminal operators cannot allow students to add courses not listed on the form since they are not permitted to give academic advice to students. Terminal operators will routinely check the availability of alternate sections when a primary course section request is unavailable.

It is also important for students and terminal operators to follow schedule "locking" instructions carefully. In particular, graduate student

schedules and partial schedules for undergraduate students should not be locked. Inappropriate locking of schedules causes delays when the student attempts to complete the registration process.

Change of Major

To smooth the distribution across terminals, students may declare a major or change of major at any time subject to current university policy and the policy of the receiving department.

Terminal Operating Hours

Each unit with a terminal for on-line registration will schedule a minimum of four hours per day for registration during the entire registration period. The days and hours of operation should be clearly posted. The terminals in the Registrar's Office will be open 8:00 a.m. to 5:00 p.m. during the entire registration period. Location of all terminals are listed below:

Students have access to all open terminals, but they are strongly advised to use the following locations depending on their classification.

- Declared majors: Undergraduate: Major Department
- General College Students: General College
- Petition Students: Registrar (Required)
- Degree Graduate Students: Major Department
- Non-Degree Graduate Students: Registrar
- Students receiving V.A. Benefits: Registrar (Required) Richard Bldg., Room 104
- Evening College Students: University College

Terminal Utilization

1) The student will present the registration form signed by the advisor along with required permissions to the computer operator. No changes to the form will be allowed.

2) The operator shall use a maximum of 15 minutes to complete the regular session registration process. The operator shall use an additional 15 minutes maximum for the summer session registration process.

3) The operator will enter the student's primary request. If the requested schedule is possible, no further changes will be allowed.

4) If step 3 results in a partial schedule, the operator will allow the student to choose other sections of primary course requests and/or alternate course requests. If a schedule is possible with primary course and alternates listed on the registration form and the student chooses to accept the schedule, a partial schedule may NOT be obtained and the student will be instructed to return at a later time.

5) If the 15-minute time constraint is encountered in the list of primary and alternate courses is exhausted during step 4, the student will be given a partial schedule. The student should then consult with his advisor to identify additional courses and complete the registration process at a later time.

6) If a student does not receive a course because all sections are closed and the course is required for the student (no alternates allowed), the student may obtain a partial schedule and seek special permission to be added to the course from the department involved. Registration will be completed in the department granting such special permission.

GO FROM COLLEGE TO THE ARMY WITHOUT MISSING A BEAT.

The hardest thing about breaking into professional music is well, breaking into professional music. So if you're looking for an opportunity to turn your musical talent into a full-time performing career, take a good look at the Army.

It's not all parades and John Philip Sousa. Army bands rock, waltz and boogie as well as march, and they perform before concert audiences as well as spectators. With an average of 40 performances a month, there's also the opportunity for travel — not only across America, but possibly abroad.

Most important, you can expect a first-rate professional environment from your instructors, facilities and fellow musicians. The Army has educational programs that can help you pay for off-duty instruction, and if you qualify, even help you repay your student loans. If you can sight-

read music, performing in the Army could be your big break. Write: Chief, Army Bands Office, Fort Benjamin Harrison, IN 46206-5035. Or call toll free 1-800-USA-ARMY.

"WHAT DO I DO AFTER COLLEGE?"

There's a question many college students want to know how to best prepare for. One way to be the most of your self is to join the Air Force ROTC. You'll have a chance to lead, manage and be a leader. Leadership excellence starts with Air Force ROTC. You'll have a chance to lead, manage and be a leader. Leadership excellence starts with Air Force ROTC. You'll have a chance to lead, manage and be a leader.

"WHAT DO I DO AFTER COLLEGE?"

That's a question many college students are asking. They also want to know how to use their degree best after college. One way to make the most of your education is to become an Air Force officer through Air Force ROTC. As an Air Force officer you'll have prestige, responsibility, an unequalled opportunity to lead, manage and be successful. Leadership excellence starts with Air Force ROTC. Find out about our scholarship programs that pay you \$100 per academic month, plus covers other college expenses. Aim High with Air Force ROTC. You'll have a challenging and rewarding future waiting for you after graduation.
