Cartwright heads Pigs vs. Freaks basketball game

By ROBERT SWAIM
Advertising Manager

David Cartwright, chairperson of the SGA appropriations committee, has been appointed SGA chairperson of the third annual Pigs vs. Freaks basketball game set for March 2.

According to Neil Sessoms, SGA president, Cartwright will act as the liason between the SGA and the N.C. Easter Seals Society, which is sponsoring the event.

Cartwright is working in conjunction with Debra Hawkins, Easter Seals co-ordinator, in promoting the game, according to Sessoms.

"David will be responsible for publicizing the event on campus and getting the students' support for this worthy cause," Sessoms said.

"I've worked with David several times in the past so I know he is capable of making this the most successful game we've ever had.

"He is dedicated and he works well with people," Sessoms said.

This year the ECU intramural basketball champions will play the N.C. Highway Patrol from Pitt County, according to Cartwright.

Cartwright said there will also be an exhibition game in which handicapped students will play.

The Capital City Hustlers, from Raleigh, will play the Allied Health rehabilitation counselors in an exhibition match, according to Cartwright.

"The significant fact about the exhibition game is that the Hustlers are a wheelchair team," said Cartwright.

"The twist is that the counselors will also be playing in wheelchairs," said Cartwright.

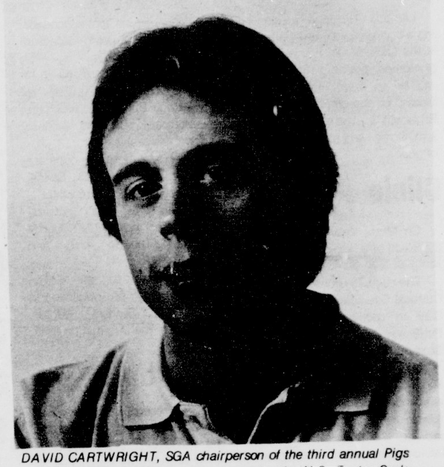

Cartwright said that for the last two years the highway patrol has won the annual game.

"They take the game seriously and they have always had a lot of moral and vocal support from the stands," said Cartwright. "I'd like to see as many students as possible come out and support our team."

According to Cartwright, all proceeds from the game will go to the Easter Seal Society.

"No matter who wins or loses we will have helped raise money for a worthy cause," said Cartwright.

Tickets are $1 and may be purchased at the Central Ticket Office.

Survey to be conducted through pre-registration

Students to vote for outstanding professors

By RICHY SMITH
Staff Writer

The Instructional Survey Committee is conducting a survey of outstanding professors here at ECU, according to Bob Muzzarelli, committee member and instructor at the School of Allied Health.

"This is the third survey of its kind," said Muzzarelli.

The first survey, taken in 1976, was successful due to the way it was conducted.

The survey was handled through pre-registration.

Last year's survey had little response from the students.

"Less than 10 percent of the student body voted.

"We attribute this to the fact that the students voted in the Student Store and not as the previous year," said Muzzarelli.

This year the survey is being conducted again through pre-registration.

"We are really hoping for a good response from the students," commented Muzzarelli.

The committee is interested not only in the students' choice for outstanding professor, but also in what students feel constitutes good teaching.

"There will be two extra cards in your folders," according to Muzzarelli.

One card is for voting on thre outstanding professors.

"You must have had the instructor either fall or spring semester of this academic year," he added.

When voting, use the instructor's code number provided in FOUNTAINHEAD.

Beside each code number, the student assigns a weight number of either 10 (highest), eight or six, depending upon the intensity of the nomination.

The weight number may be used more than once, continued Muzzarelli.

"This is not a popularity contest and this survey should not be considered negatively."

Energy symposium features alternative power sources

By STUART MORGAN
News Editor

Nuclear power isn't economical or politically feasible yet, but wind in conjunction with diesel engines may be the alternative used by commercial shipping in the near future, according to Dr. Joseph Norwood, associate professor of physics here.

Norwood is presently writing a book entitled DESIGN PRINCIPLES FOR HIGH SPEED SAILING CRAFT.

He received his Ph.D. from Stevens Institute of Technology and has previously taught at the University of Miami.

Norwood was also employed for 10 years at NASA Langley Research Center in a research and experimental capacity.

He is also the author of 35 articles published in journals; his special interest is in sailing and craft design.

Besides being a past officer of the Amateur Yacht Research Society, he's an active consultant on sailing craft design and is now designing and constructing his own sailcraft.

Norwood presented a thesis Wednesday at 10 a.m. in the auditorium of the Nursing Bldg. The symposium, "Coping with the Energy Dilemna, of which Norwood's thesis was a part, was sponsored by ECU and the Honor Society of Phi Kappa Phi.

"It is technically feasible for ships to use nuclear power at present, however it is not economically competitive with fossil fuels and even with the present

"The alternative source of power for future commercial vessels may be wind used in conjunction with diesel engines, rated at about 50 percent of the dismal outlook for fossil fuels, nuclear fission is not likely to become competitive in the foreseeable future," said Norwood.

"On top of this, one must expect labor problems and a variable restriction of which ports can be entered and which ones cannot in the worsening atmosphere of concern over the safety and politics of nuclear fission," added Norwood.

As a result, he said that no ship owner today would contem-

Russian

The time for pre-registration is here.

It is the time for big decisions such as whether or not enroll into the first Russian course to be offered fall semester, MWF at 10 a.m.

Russian is a language with a very simple and logical structure. Its alphabet can be mastered after a few lessons.

From then on reading and writing Russian is no problem at all.

The rest can come just as easily if the student is willing to invest a fair amount of time in learning the principles of the Russina grammar and a realistic amount of vocabulary.

In the third and fourth course-semester of Russian a serious student is rewarded for his endeavors by being initiated into the magnificent world of Russian literature which he can read in the original.

Moreover, after a successful completion of four courses of Russian a student may qualify for a position of translator with the United States government.

This is at present a widely open field and the number of ECU students who have made their career as Russian translators in the military and the government is growing.

Russian Literature of the 19th century in translation i.e.taught in English (Russian 2220) will also be offered in the fall, MWF at 2 p.m.

This course satisfies the humanities requirement or it may be taken as an elective.

The top two instructors will be submitted to the Alumni Association as recipients of the outstanding professor award presented by the Association.

"The second card gives the student a chance to evaluate five factors of good teaching," commented Muzzarelli.

"It's time to give serious evaluation. It is very important how professors are perceived by their students.

"And of course, the professors will have a chance to evaluate what they think constitutes good teaching.

"It'll be interesting to compare the views," Muzzarelli added.

The results will be announced at the beginning of next semester.

If your advisor does not give you the two extra cards, ask for them.

After some thought, compelte the cards and carry them to the Registrar's Office with the other pre-registration cards.

There will be ballot boxes provided for the survey cards.

Commercial sail plan may use destroyers

[*Continued from p. 1*]

plate building a nuclear-powered commercial ship.

"A European group led by W. Prolss at the Institute of Shipbuilding of the University of Hamburg has made a science effort to modernize the classical square rigger," acknowledged Norwood.

But, Norwood doesn't believe that Prolss's modernized square rigging, although efficient, would work as well as the pyramid rigging.

"In a pyramid rigged vessel, a diesel engine would be necessary to get the ship in and out of ports and to take up the effort when the sailing speed drops below a certain value," explained Norwood.

Norwood said he became interested in sailing as a problem in physics in 1969.

"It was clear to me at that time that several aspects of sailing craft design might be considered from the standpoint of someone not mired in the sailing tradition," he said.

"If sail were to be seriously reconsidered today, many of the shortcomings and inconveniences that led to its demise in the nineteenth century could be immediately resolved,",said Norwood.

He explained that since that time we have learned aerodynamics from the ground-up as a result of the birth and growth of commercial aviation.

Norwood said that a pyramid rig, a sail configuration resembling a four-sided umbrella with every other side removed and attached to four booms at the bottom, would be used on a monohull vessel.

Such a vessel might be contemplated in the early stages of a return-to-sail program, said Norwood.

For example, he pointed out that old destroyers would be ideal.

This description of a future sailing vessel by Norwood, in its final stage, could become reality in the not too distant future if all goes well in its development.

"Schedules for such sailing vessels would remain about the same; actually, they would get better because vessels have been getting bigger and slower anyway," said Norwood.

Weight control program offered

ECU NEWS BUREAU

Persons at least 18-25 pounds overweight are invited to enroll in "Positively Losing Weight," a new weight control program to be offered at ECU this spring.

The program will involve six meetings (Thurs., March 16-April 27, 7-9 p.m.) for instruction and discussion on exercise and health, balanced diet, self-management and low-cholesterol and low-calorie diets.

Success in weight control will be based on changes in behavior with emphasis on acquiring the skills necessary to undertake personal changes in one's lifestyle.

Objectives of the program are to help serious participants analyze personal eating habits, develop their own balanced weight loss diets and programs of mild to moderate exercise for weight loss and good health, and lose 10 to 12 pounds.

Instructor is Dr. Valorie Nybo of the ECU Physical education faculty, who developed the program over the past six years, and has lost more than 50 pounds by following it herself.

More details about the "Losing Weight" program are available from the Office of Non-Credit Programs, Division of Continuing Education, Erwin Building Greenville, N.C.

Let the students know

Dormitory residents Monday night received a newsletter slipped under their doors funded by the SGA Executive Council entitled "Referendum Vote This Week"-"Let the Students Decide."

The writers of the pamphlet admitted that they were not presenting the entire story of the Media Board controversy, but that it was "meant to give the rest of the story, the part that the campus paper would not print."

Several members of the SGA have continually charged that FOUNTAINHEAD is a biased newspaper, but admitting that the newletter is giving only one side of the story is also admitting that it is biased.

A quote by Thomas Jefferson appeared on the front page of this letter, obviously to retaliate against FOUNTAINHEAD. The quote read, "The man who never looks into a newspaper is better informed than he who reads them, inasmuch as he who knows nothing is nearer the truth than he whose mind is filled with falsehoods and errors."

Incidentally, who was responsible for the printing of this newsletter? The executive council funded it, but the names of those who wrote the newsletter and were behind its printing do not appear anywhere in the newsletter. Apparently those persons were too ashamed to have their names appear in such an erroneous, biased newsletter.

The quote by Damon Runyon on page three of the newsletter couldn't be more appropriate for this pamphlet. The quote reads: "An irresponsible reporter in front of a typewriter can do more damage than a drunker surgeon swinging a knife in an operating room."

Controversy has centered around the two to one vote in favor of independent publications. Several people have called the poll a referendum. A referendum has to be approved by the executive council, according to the newsletter, but it was not a referendum; it was an informal opinion poll.

The newsletter also said that only 12 per cent of the student body even voted on it, and that "such a low turnout was considered so unrepresentative that SGA cannot amend its constitution by that margin...." If 12 per cent of the student body voting informally on an issue is considered insufficient, then perhaps no legislator should now be sitting in the legislature. The highest vote-getter for a day legislator position received approximately 350 votes, much less than 12 per cent of the day student population, which numbered 6,002 Fall Semester.

Those responsible for the printing of the pamphlet obviously did not feel that "freedom of the press" and "more efficient operations of publications" were valid reasons for having an independent media and did not feel that these reasons merited space in their newsletter.

In the UNC university system, 12 schools have their media in some arrangement other than under student government control. The remaining four are only partially under student government control. ECU's campus media was entirely under student government control until the board approved Sessoms' proposal.

Apparently this newsletter's sponsors realized that they could not argue against having freedom of the press. The First Amendment is applicable to *every newspaper in this country*. No newspaper, student oriented or otherwise, should be under control of the government, whether it is the federal government or a student government. This policy goes totally against the concept of what the First Amendment is.

The newsletter also mentioned FOUNTAINHEAD salaries. The staff's salaries are paid out of the advertising revenue, not out of student fees, as some people might believe. The paper's only regret is that the executive council wasted $300 of the students' money printing "falsehoods and errors."

What is a *'proofadwriter'?*

The "Let the Students Decide" newsletter accused FOUNTAINHEAD of refusing to print letters, flashes or quotes concerning the referendum on the independent Media Board.

To set the record straight, FOUNTAINHEAD has not *received* any letter, flashes, or quotes concerning the referendum. If a flash was submitted, the news desk never received it to edit, according to the news staff. The editor confirms that no letters to the forum have been received concerning the referendum.

The anonymous writers of the newsletter took it upon themselves to print outright lies concerning this newspaper. The newsletter sponsors are also almost entirely wrong concerning FOUNTAINHEAD salaries.

The salaries of the newspaper staffers are paid by the advertising revenue. This is money that the newspaper makes completely on its own...Student fees do *not* pay for the journalists' salaries.

This is the first year that the ad revenue has reverted directly back to FOUNTAINHEAD, instead of the SGA, as has been done in the past. For the record, FOUNTAINHEAD received only $35,244.91 from the SGA this year, as opposed to $51,064.35 last year. The paper supplies the rest of the money it needs with the ad revenue.

The newsletter cited the monthly payrolls of REBEL, FOUNTAINHEAD, and the BUCCANEER - all which were inaccurate in one point or another.

According to the newsletter, FOUNTAINHEAD has an editor, managing editor, sports editor, circulation manager, ad manager, trends editor, two news editors, a cartoonist, and an assistant trends editor.

Someone forgot to mention the assistant sports editor, the two assistant news editors, and the typist. The newsletter writers said that FOUNTAINHEAD has five layout people. The paper has four *ad layout* people. The assistant desk editors and the desk editors do the layout of their own pages.

The pamphlet sponsors also said the staff has three proofreaders and a proofadwriter. The paper has two proofreaders. What is a *"proofadwriter?"* There is no such title of any staff member on this newspaper who makes $170 monthly, which is more than the editor makes.

Also, the ad manager does not receive $165 monthly, as some people would like to believe, but $135 plus commission.

This newspaper has been the victim of vicious attacks by a handful of petty politicians who call every article that does not reflect them favorably "biased" and "unobjective."

REBEL editor refutes SGA 'pack of lies'

To FOUNTAINHEAD:

The ECU student body has been subjected to a pack of lies and inaccuracies this week in the form of the SGA newsletter entitled "Let the Students Decide" (See today's FOUNTAINHEAD editorial this page). Some of the most blatant errors appear in the section entitled "Fat Wallets and the Media" where the unidentified writers reprint the salaries of FOUNTAINHEAD, BUC, and REBEL. Both the FOUNTAINHEAD and BUC payrolls include positions which do not exist, giving an inflated picture of the total money spent on publication salaries. Furthermore, as today's editorial points out, the salaries for FOUNTAINHEAD do not even come from the SGA student fees--the students aren't affected at all. FOUNTAINHEAD earns the money used for its salaries *and* printing through ad sales. Thus the statement that "FOUNTAINHEAD salaries alone equal more than five times that amount ($300) in student fees" is an out-and-out lie designed to outrage the student body.

As for the REBEL payroll, our staff has been on half salaries (editor $65; art director $60; associate editor $50) since the beginning of this month. For the first two months of last year, the editor's salary was *not* $130 but $120 and there were only two salaried positions. We didn't even have an art director until November. The salary breakdown reported in the SGA propaganda sheet is correct only for the months of Nov., Dec., and Jan.

I further resent the charge that publications wish to be free from SGA control simply so they won't have to explain their travel expenses. We have much better reasons for desiring an independent campus media. I for one am sick of having to justify--to an unconcerned and uninformed gaggle of politicians--the existance of an All American literary-art magazine on a campus this size.

Every October the REBEL staff holds its breath as the SGA plays petty politics and character assassination with a budget which has already been approved by the Communications Board and the Appropriations Committee. Every October we remember the words of a legislator during debate over our bill two years ago: "Well, I don't even know what the Rebel is so I'm certainly not going to vote for it."

The Publications on this campus have an obligation to the student body--to produce an informative, entertaining body of work (whether it be a literary magazine, a yearbook, a newspaper, or a radio program)-- and it is pathetic that our work is constantly disrupted by a bunch of power-hungry politicos who simply will not admit it: they oppose the Media Board because it would limit their financial stranglehold on ECU student organizations.

ECU has largest folklore program in state

Folklore once shunned but now appreciated

By RANDY STALLS
Staff Writer

The professor sighs and leans back. The apprehensive air of the room is then broken by the creak of an old office chair.

Finally, he speaks.

"Folklore is hard to define," explains Dr. Paul W. Dowell, associate professor in the department of English.

"There must be twenty definitions in the dictionary. It deals mainly with the oral traditions. These are tellings passed by word of mouth.

"Then, also, there's folk art, dances, games, and the like. Folklore is not generally thought of as classical or formal learning. But it certainly is part of the heritage of us all," continues the ECU Folklore Archives director.

"Up until this year, I was the only fulltime folklorist here.

"Last fall semester, two professional folklorists were added to the program," says Dowell in a slight, country drawl as cigarette smoke encircles his bearded face.

"We have the largest program in the state. Close to twenty sections will be offered throughout the academic year with an enrollment of over 700 students.

"ECU is an ideal place for a folklorist. They've (the administration and department) been very supportive and open-minded about a field that has a history of being shunned by most universities.

"The students are just great. I'm always surprised at the interest and energy they expend," Dowell added with a hint of pride.

Dowell explains that the archives have over 100,000 items, and that 99 percent were collected by students here.

The archives are not accessible at present, but Dowell expects them to be open to the public within a year.

"A lot of universities have closed archives. Our archives will always be open to the public," Dowell says as he peers at the piles of information packed in boxes that partially fill his office.

There is no student folklore organization on campus at the present time. Dowell explains that students are not here year-round and cites this as the reason for no organization.

Dr. Karen Baldwin and Dr. Charles Sullivan are the two new members of the folklore faculty.

Baldwin points out that there is a rise in the popularity of folklore.

"With the book, *Roots*, and the popularity of the TV series, we have seen a rise in people seeking to know where they come from," explains Baldwin.

"But folklore has always been with us. It is apolitical. Somehow it manages to cross all boundaries and obstacles.

"Folks will always pass on their traditions. It is part of being human. It has to do with pride in one's heritage. It's the second history, the history of the little people that history books just don't record."

Dr. Charles Sullivan has a slightly different point of view.

"I think in many ways it is a carry-over from the unrest of the sixties," says the bearded and young Sullivan.

"Many have rejected the formal education as the only education to be had. There is a lot more than just what you read in books.

"Folklore is a part of the heritage of us all. People are realizing that the United States has a unique and colorful folk tradition, and that folklore is just as valuable as the study of other more accepted areas," Sullivan says as he leans forward to stress his point.

Dowell points out that Eastern North Carolina is wide open for the study and collection of folklore.

"People often have the misconception that to find true folklore you have to go to some isolated area such as the mountain ranges," Dowell says.

"This is just not true. This area has just as rich and colorful an array of folklore as any. What's so interesting is that the area is wide open and unexplored as far as folklore goes."

Dowell says that the student participation in folklore is outstanding.

"My colleagues are always asking me what we do in class. When they walk by they hear laughter and lots of discussion. It's a fun subject."

Dowell doesn't understand why the course has the reputation of being easy.

"While many students do very well in the course because of hard work and dedication, there were five out of 35 that failed in one of my classes last semester.

"It's not any easier than any other English course. One could find, it seems to me, a better selection for an easy course."

FAIRWAY FRIENDS: March of Dimes National Poster Child Denise Nankivell and golf champion Arnold Palmer team up on the green. Palmer is a trustee and honorary national chairman for the March of Dimes. Five-year-old Denise of Elizabethville, Pa., was born with vitamin D-resistant rickets. The March of Dimes supports research, medical service, and education programs aimed at the prevention of birth defects.

(LNS) -- Winn-Dixie Stores, Inc., a major southern food chain and meat distributor, is about to become the third target in organized labor's fight to unionize the South. In December, the AFL-CIO biennial convention adopted a resolution which described the company's labor practices as "an abomination of employee's rights" and outlined plans for a national boycott of the company's products.

The Winn-Dixie boycott will be third effort in recent years against a company that organized labor regards as a symbol of resistance to unionism in the South. In 1974, Farah Manufacturing Company, a Texas clothing maker, gave in to a 19-month boycott and recognized the clothing worker's union. Two years ago, an international boycott was launched against J.P. Stevens, the textile giant.

A spokesperson for the National Labor Relations Board (NLRB) confirmed to the Wall Street Journal that since 1961 Winn-Dixie has been the target of ten major NLRB decisions and seven court rulings that the company violated employees' rights to unionize. In a legal brief filed by the NLRB in 1977 before a federal appeals court, the board charged that Winn-Dixie "has a well-documented history of disregard for the statutory rights of its employees."

The company has run afoul of the fair labor standards laws on numerous occasions. In 1975 it agreed to pay the largest judgement ($1 million) ever handed down by a court in a case violating the minimum wage laws. Winn-Dixie also was found in contempt for violating two earlier court orders enforcing these laws.

Several unions, including the retail clerks, meat cutters and bakery workers, have tried unsuccessfully to organize Winn-Dixie over the past 20 years and these unions will make a renewed effort during the boycott campaign. The campaign is expected to begin in February.

Lie down and be counted.

President Jimmy Carter signed up 51 times

In America, 3% of the people give 100% of all the blood that's freely donated.

Which means that if only 1% more people—maybe you—became donors, it would add over *thirty percent* more blood to America's voluntary bloodstream. Think of it!

But forget arithmetic. Just concentrate on one word.

The word is *Easy*.

Giving blood is *easy*. You hardly feel it (in fact, some people say they feel better physically after a blood donation).

And, of course, everybody feels better *emotionally*.

Because it's a great feeling knowing your one easy blood donation has helped up to *five* other people to live.

So how about it, 1% of America? Are you going to lie down and be counted?

Call your local Red Cross Chapter, or your community's volunteer blood bank. We need you now.

Red Cross is counting on you.

Flutist Rampal's 'familiar, splendid presence' evident in performance to capacity audience

By SUSAN CHESTON
Staff Writer

Flutist Jean-Pierre Rampal and pianist Robert Veyron-Lacroix performed before a full house at Mendenhall Student Theatre last Thursday night.

I wish I could give a more favorable review of their performance. Rampal is considered by many to be the best flutist of our time. A flutist myself, I have several of his recordings and love them for their gloriously golden sound, clean, fluid technique, and loving interpretation.

The familiar splendid presence was there on stage when the rotund gentleman entered in white satin tie and tails. The Bach "Sonata in G minor" was a pleasant warm-up number, altho' perhaps a little romantically interpreted. The audience missed a real treat in hearing the flute-harpsichord work accompanied instead by piano. Veyron-Lacroix is an excellent pianist, but his forte is the harpsichord. A performance on the Baroque harpsichord would have created a lovely contrast to the Romantic and contemporary works of the program.

JEAN-PIERRE RAMPAL, "came out a charmer."

The romantic Rampal was in his element in his second number Schumann's "Three Romances, Op. 94." In each of the Romances Rampal spun out his love for the music in an intensely expressive stream of sound, supported by his powerful breath control.

The Romances, originally written for oboe, are not technically difficult, but only a master like Rampal could do justice to their lyric charm. Rampal savors each note, touches it, twists it, teases it, explores the myriad colors of vibrato, dynamics, and tone, then gently tapers it.

He throws his whole body into the performance, his shoulders and waist, even his expressive eyebrows contributing in fluid motion to the upward sweep of his gold flute.

RAMPAL FLU-INFECTED

Unfortunately, Rampal and Veyron-Lacroix came to East Carolina at the peak of the Greenville flu season. And they had just performed in Charlotte in an equally infected and contagious atmosphere.

Rampal had not played a note before it was apparent to those of us who know his playing that he too had been afflicted by chest congestion and body aches. His concentration saved him through the Bach and the Schumann, but in the Copland he started coughing during rests.

There was a brief moment of confusion before Copland's "Duo for Flute and Piano." Rampal had obviously forgotten the order of the program. Veyron-Lacroix set him straight, then whispered to his page-turner, "He does not have his head screwed on." From that point on, it was true.

The flowing section of the Copland was hesitant instead of the bold statement I prefer. Tones without vibrato went disappointingly flat. Rampal even surprised himself with a sour note, an inexplicable finger flub that was made all too noticeable by an attempt to correct it.

Here Veyron-Lacroix's admirably controlled, restrained style missed giving the flute the brisk support it needed. The Copland is not for flute and accompaniment, but a "Duo for Flute and Piano." Raising the piano lid, as they did later for the Bartok, would have balanced the ensemble.

After Intermission Rampal returned with a once-again inconsistent performance of the

Windom will appear in one-man show next Thursday

ECU NEWS BUREAU

William Windom, star of both television and films, will appear in a one-man show in Mendenhall Student Center on March 2, 1978 at 8:00 p.m. Windom recreates the character of James Thurber, well-known humorist and cartoonist.

Nearly everyone is familiar with some James Thurber work--"The Secret Life of Walter Mitty," "The Night the Bed Fell," or "The Tooth, the Whole Tooth, and Nothing but the Tooth." Anyone who has completely missed Thurber's work has been deprived of a delightful comic view of the foibles of humankind.

"Walter Mitty" reveals the fantasy life of a Woody Allen-like character, wishing to be brave and dynamic. "The Night the Bed Fell" features the crazy relatives everyone has but prefers not to talk about. "Nothing but the Tooth" explores the common, often unreasoning, fear so many people have of the denitst. These stories, like all Thurber's work, search out human fears and embarrassments and give all of us a chance to laugh at ourselves.

The *New York Times Book Review* says that Thurber's "gravely quiet prose" has the "conquering effect of a second vodka martini." The *Christian Science Monitor* reports, "Thurber is incomparable...Thanks to him a whole generation of us is no longer embarrassed by the memory of experiences which once seemed soberingly private."

Besides his extensive writings, Thurber's cartoons appeared regularly in the *New Yorker*. Like the stories, the cartoons constantly pointed out the humor of human idiosyncracies. As Thurber's eyesight grew constantly worse, he enlarged his cartoons. Eventually he was drawing wall-size pictures in order to see them at all.

In spite of his blindness, Thurber's humoristic sense remained sharp. Nothing was sacred, not even himself. One of the best examples of his dry wit and humor is his essay "My Fifty Years With James Thurber."

On a par with Thurber's genius is the facility with which William Windom plays him. Critics have acclaimed Windom's Thurber as the equal of Hal Holbrook's Twain. Windom first became interested in Thurber through the *New Yorker* cartoons. His interest increased when he starred in the Emmy-winning series, "My World and Welcome To It," which was based on Thurber's life. When the series went off the air, Windom did further research on Thurber to develop his one-man show.

The show, entitled "William Windom Plays Thurber," will be presented by the Student Union Theatre Arts Committee in the Mendenhall Student Center Theatre. Tickets are $1.50 for ECU students, $2.50 for ECU faculty and staff, $2.50 for groups of 20 or more, and $4.00 for the public. All tickets at the door are $4.00.

ABBA: *The Album*

Throughout Europe, each single record ABBA releases hits the Top Five within days. In Australia, they had five records in the Top Ten at the same time. Sales of their single records alone have topped 30 million, while album sales have passed the 12 million mark.

"SPECTACULAR PERFORMANCES AND... HYSTERIA"

Having amassed a fortune that makes them the largest corporation in Sweden, profit-wise, the Nordic quartet is now ready to assault the world with a combined effort of an album and movie release, "centering around the group's spectacular performances and coinciding hysteria." I can hardly wait.

If the album is an indication of the quality of the film, both should be avoided. The music is bland and the lyrics are inane:

You feel bad
let me tell you
we all get the blues
Sometimes life is a burden
way down in your shoes (from "Hole in You Soul")

For those on a heavy Top-40 kick, this album does have the exciting bonus of "The Name of the Game."

Jan Akkerman: *Jan Akkerman*

"BORING AND SENSELESS... MINDLESS MESH"

One of the most boring and senseless albums which I have ever heard. The first six cuts sound the same, even though the titles range from "Crackers," to "Streetwalker," to "Floatin." Every track is a mindless mesh of discord percussion cluttered with uninspired guitar squawks.

"GATE TO EUROPE" FAILS TO SALVAGE ALBUM

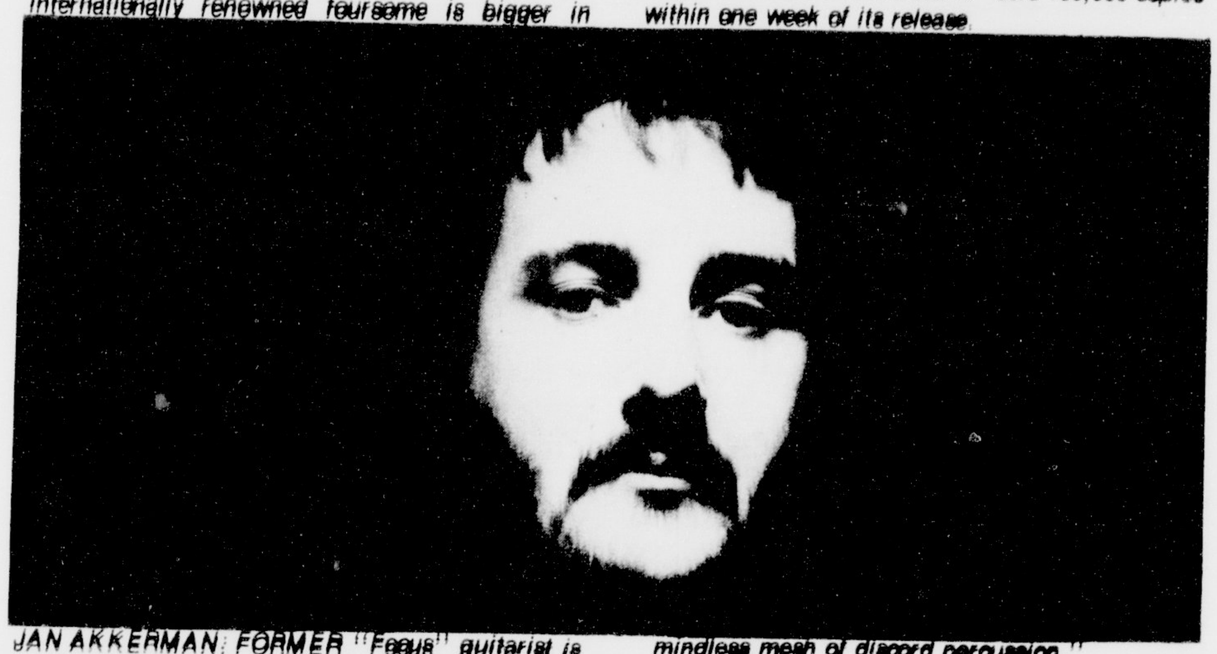

The only digression from this pattern is the final band of the album, "Gate to Europe," on which Jan lays down some of the heavy acoustic playing which the album art suggests. The cut is at best mediocre, however, and in no way salvages the album.

Nice cover art, though.

ANNI-FRID LYNGSTAD, Benny Anderson, Bjorn Ulvaeus, and Agnetha Faltskog are the Swedish group ABBA. They started singing together in 1971. One of the most popular groups in the world, the internationally renowned foursome is bigger in Australia than anywhere else in the world. It is only in their homeland, Sweden, that they can walk the streets undisturbed despite the fact that their new single "The Name of the Game" sold 150,000 copies within one week of its release.

JAN AKKERMAN: FORMER "Focus" guitarist is unimpressive in his debut album. "Every track a mindless mesh of discord percussion."

Buffalo Philharmonic is next Artist Series attraction

By RENEE DIXON
Staff Writer

The Buffalo Philharmonic Orchestra will appear Tues., Feb. 28 at 8 p.m. in Wright Auditorium. This orchestra appears regularly in Western New York colleges and communities and in Buffalo's Kleinhans Music Hall.

This orchestra has performed in New York's Carnegie Hall and Washington's Kennedy Center for the Performing Arts. Summer season performances include Artpark and the New York State Park for the Performing Arts.

Under the direction of youthful and dynamic Michael Tilson Thomas, the Buffalo Philharmonic has gained recognition as one of our nation's finest orchestras. Presently in his seventh season with the orchestra, Thomas has simultaneously broadened the orchestra's repertoire in two directions by reviving some of the great but lesser known works of the past and introducing many contemporary opuses.

In 1975 the orchestra signed a major recording contract with Columbia Records. Their first album, "Gershwin on Broadway," a collection of Gershwin overtures, has recently been released. The Buffalo Philharmonic has also recorded the complete works of American composer Carl Ruggles, friend and contemporary of Charles Ives, but this album is not on the market yet.

The Philharmonic performed live before more than 400,000 persons during their 1976-77 season. A highlight of that season was the eighty voice, all black chorus, "Sounds of the City", who appeared with the orchestra on concert performances of Gershwin's "Porgy and Bess". Recruited from the Buffalo area, the vocalists have become a permanent organization and will perform with the Buffalo Philharmonic occasionally.

Tickets for this concert may be purchased now in the Central Ticket Office in Mendenhall Student Center. ECU student tickets are $2.50 and Public admission is $6.00. This event is sponsored by the Student Union Artist Series Committee.

"YOUTHFUL AND DYNAMIC" Michael Tilson Thomas will conduct the Buffalo Philharmonic Tuesday in Wright Auditorium.

RAMPAL

[Continued from p. 32]

Poulenc "Sonate". His high notes, for example, varied from tight and pinched, to feather soft and free. Some notes were tapered, others squeezed. Rampal's veiled glances in the direction of the piano betrayed a loss of concentration.

Despite the effortless technique and beautifully intense moments, the weariness of the flutist came through.

The Bartok "Suite Paysanne Hongroise" featured that familiar resonant, fat tone, but lacked direction and contrast. Rampal seemed to wake up again in the final movement, "Vielles dances." His gift is sensing the incredible variety of ways to turn a phrase, and the theme and variations of this last movement was a showcase for that ability. The dynamic Hungarian folk tunes closed the performance.

A standing ovation brought on two seperate encores, "Variations on Greensleeves" and "Sonata in One Movement" by Donizetti. Rampal thoroughly enjoyed these light, impressive pieces.

Once again he had revived his interest in the music and came out a charmer. It was a disapapointment that he could not keep that up throughout his performance.

Rampal and Veyron-Lacroix were presented by the Student Union Artists Committee.

Camelot: an 'emotionally full musical'

COURTESY
WARNER BROS. INC.

Joshua Logan's *Camelot* will be shown this Friday and Saturday night at 6:30 p.m. and 9:30 p.m. in the Mendenhall Student Center Theatre as this week's Student Union Free Film.

This superb film version of the Lerner-Loewe musical is replete with excellent orchestrations and acting as well as eloquent photography.

Richard Harris plays King Arthur and Vanessa Redgrave is Guinevere. Franco Nero and David Hemmings round out a first rate cast.

Director Joshua Logan has created an intimacy of relationships, a real presence, to the legendary Camelot.

He has kept the songs, "If Ever I Should Leave You," "How to Handle a Woman," and "Camelot" as believable extensions of the people who sing them--and so avoided the fault of so many Broadway-into-film efforts which lose sight of reality in favor of bigness.

A good deal of the success of this movie must also go to T.H. White whose legendary "Once and Future King" is the actual source for the adventures of King Arthur, his Knights of the Roundtable and Queen Guinevere.

A review which appeared in "Variety" called *Camelot* "A big, beautiful, emotionally full musical telling of the King Arthur-Lancelot-Guinevere triangle. What gives it a special value is the central dramatic conflict that throbs with human anguish and compassion. It may be director Logan's finest cinematic achievement!"

Admission to the film is by ECU ID and activity cards for students. Faculty and staff may use their Mendenhall Student Center membership cards.

Eagles deny Bucs 88-83

By STEVE BYERS
Assistant Sports Editor

Despite a 34 point effort by Oliver Mack, Larry Gillman's basketball Pirates had their four game winning streak snapped with an 88-83 setback at the hands of Georgia Southern.

The game was the final home game this season and the final home game as Pirates for seniors Dean Hartley and Don Whitaker.

The players were introduced to a standing ovation as the electricity flowed through the crowd.

The excitement moved to the court as the game began when the Bucs jumped out to a quick 16-8 lead behind eight points from Herb Krusen.

Georgia Southern then went on a streak of their own with 15:02 left in the first half to outscore the Pirates 16-4 and stake the Eagles a 24-20 lead.

The Bucs were being outrebounded which was not characteristic in the last four games when the scrappy Pirates captured over 54% of the boards.

Oliver Mack dunked on the fast break and then fired a jumper to even the score at 26-26 with 8:32 remaining in the half.

The Eagles hit and Roger Carr answered with a tap in to make it 28-28; the last time the game was to be tied.

The Eagles scored six straight points before Bernard Hill weaved a flashy pass to Carr to break up the act.

GSU scored two baskets and a 3 point play only to have Mack score six points of his own to make it 36-41 with 1:57 left in the half.

Herb Gray cut it to 45-42 at intermission and the Bucs were in striking distance for the final stanza.

Oliver Mack and Herb Gray pulled the Pirates to within one at 48-49 early in the last half, only to have Georgia Southern push their lead back to 53-48 with 16:59 left in the game.

Herb Krusen and Don Whitaker hit 20 footers to pull back within one once again and Oliver mack matched the Eagles basket for basket in a three minute span to hang tight at 58-59 with 14:33 left to play.

The zone defense by the Eagles then prevented the Bucs from moving the ball inside and poor rebounding enabled Georgia Southern to go up 69-60 with 10:38 to play.

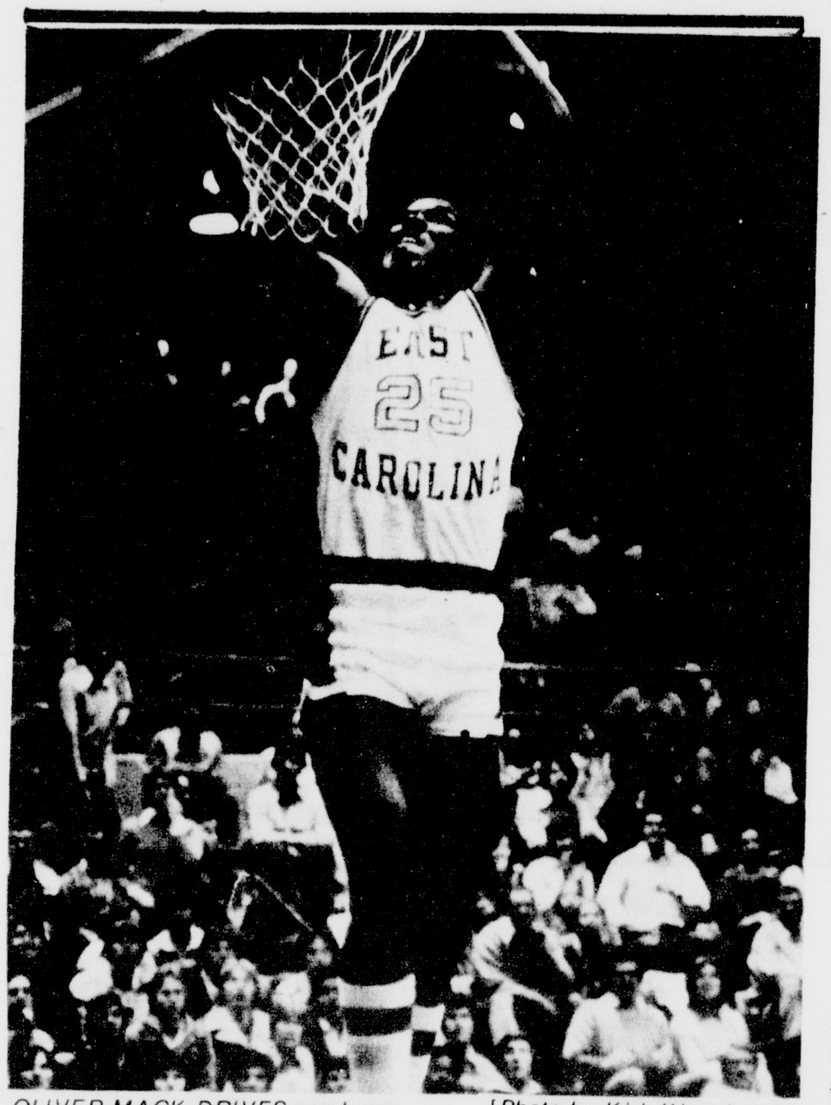

The Eagles went to their biggest lead of the night at 73-62 before Mack, Krusen, and Carr went on the rampage.

Carr followed three baskets by Mack and two by Krusen with both ends of a two shot foul to make the score 74-77 with 2:51 left.

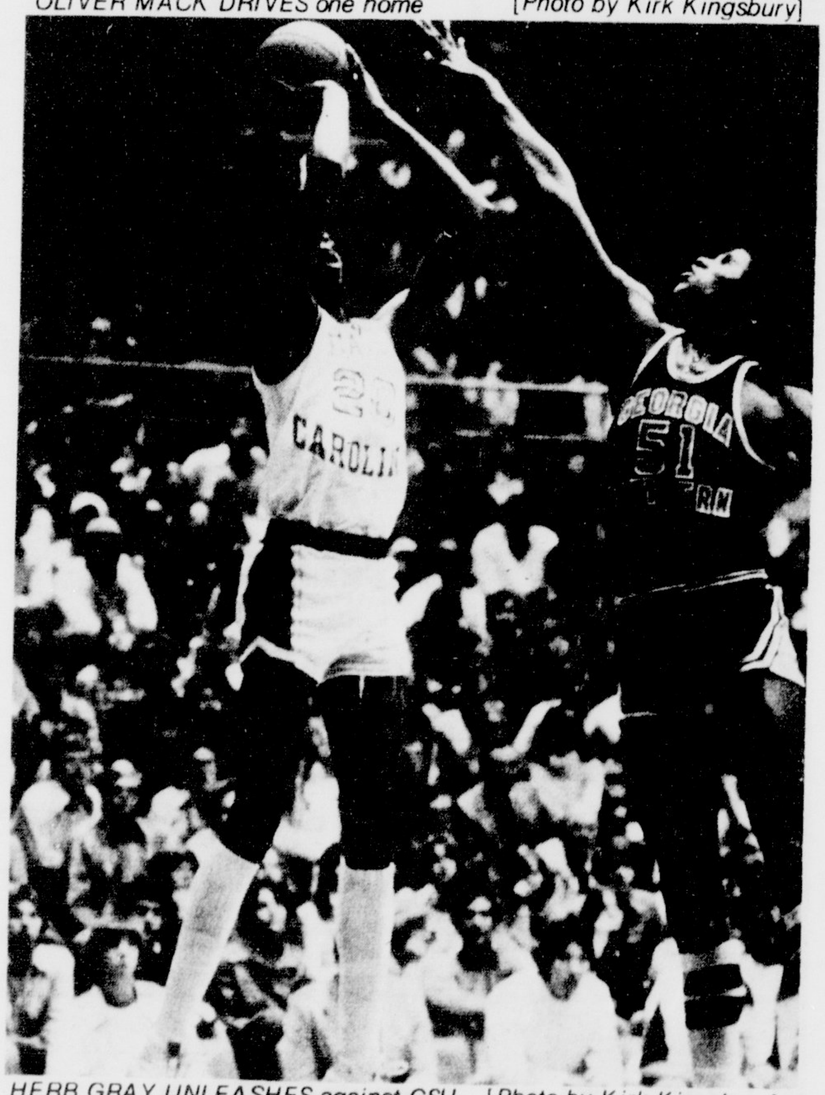

The Georgia Southern coach called for a delay with 2:22 left and a 79-76 lead.

Oliver Mack and Roger Carr answered Eagle baskets to make it 81-84 with 22 seconds left in the game but the foul shooting of GSU preserved the win at 88-83.

Herb Krusen finished with 20 points and Herb Gray added 14 but the constant changes on defense by Georgia Southern denied the ball to the Pirate front court most of the night.

Starting center Greg Cornelius was held to four points, Roger Carr added eight, and Herb Gray was below his point totals for recent games.

"We didn't get it inside as much as we'd like," said coach Gillman.

"They did a good job mixing up their defense. They were taking long shots on offense like *we* wanted to. But they kept making them," he added.

The Pirates have a quick chance to redeem themselves Wednesday night against the University of Richmond which wrestled a 82-80 victory from the Bucs in Minges two weeks ago.

Dorm semi-finals held

The semifinals of the dormitory playoffs were held last night as the Belk Pleasers, Belk Enforcers, Belk Nutties Buddies and Belk Carolina Stars made up the final four teams as Belk Dormitory dominates the campus basketball powers this season. The winner of the dormitory division is considered the favorite to win the all-campus title in the all-campus championships next week.

The Carolina Stars were to meet the Nutties Buddies after downing the Scott Razorbacks and Belk Exterminators to reach the semifinals. The top-ranked and defending champion Nutties Buddies had a first round bye, but beat the Cardiac Kids to reach the final four. The Pleasers also had a first-round bye but reached the final four by downing another Belk team, Who Knows. The Belk Enforcers made the final four by beating the Belk Brigade and the Belk Our Gang teams. With six of the top eight dormitory teams hailing from Belk, it isn't hard to see what the best dormitory for basketball is.

The independent teams have also advanced to the semifinals in their divisional playoffs. The Independent playoffs have already had a few upsets. In those upsets, FCA downed one of the divisional favorites and a top ten ranked team when they edged the Heartbreak Kids. In a mild upset, the Nads knocked off the Sociology/Snthropology team-another team that had been ranked in the top ten throughout the season. In the other independent first-round games, the Hatchets beat the Ramblers and the Mudsharks beat the Sadaharu Ohs. In Thursday's semifinal games, the Mudsharks meet the Nads and the Hatchets meet FCA. The division finals will be on Monday, Feb. 27, in Memorial Gym at 5 p.m.

In the fraterntiy playoffs, Kappa Alpha and Phi Kappa Tau met, while Tau Kappa Epsilon was the other team in the fraternity semifinals.

The Cotton Bunnies and the Peace Pirates will meet on Monday at 9 p.m. for the intramural women's all-campus basketball championship. The sorority champion will be determined Thursday afternoon at 5 p.m. when Alpha Xi Delta meets Alpha Phi.

In all-campus semifinal play, the Peace Pirates beat Tyler Cool and the Gang 38-24 and the Cotton Bunnies beat the P.E. Majors 29-24. In the quarterfinals the Bunnies downed the Jarvis Jumpshots, 28-7, and the Pirates beat Alpha Xi Delta 40-21. The P.E. Majors and Tyler Cool and the Gang had advanced by virtue of forfeits.

Marty Martinez, who handles the men's basketball league for the intramural department wanted me to publish his predictions as to who will be the four teams in the all-campus play offs. He picks the Belk Nutties Buddies, the Belk Pleasers, the Hatchets and Phi Kappa Tau. I agree on all counts except the fraternity representative, who I think will be Tau Kappa Epsilon.

While basketball is getting most of the attention this week, there are other sports which are winding down their regular seasons this week in preparation for the playoffs next week. Ice Ball, Bowling and Racquetball will all be covered in more detail next week.

But we'll give brief reports on both Ice Ball and Bowling. In Ice Ball six teams were unbeaten coming into this week, but two of those teams, the Macaroni Malefactors and the Necromancers, were to meet Thursday at 4:30 p.m. for their Ball Division title. One of the two teams is bound to lose, which would reduce the unbeatens to five. One team certain to remain unbeaten is the Ice Busters, who are 5-0 and had no game this week. They will close their season on Monday against the Sigma Tau Gamma Blackhawks.

The other unbeaten teams are the Ice Picks, Teke Bourbon On Ice and Who Knows. In addition there are five teams that haven't won yet. The Ice Ball playoffs begin Monday and schedules will be posted on the Memorial Gym bulletin board.

In bowling, the team called Definitely most definitely had the best record coming into this week's action. The team had a perfect record of 24-0. The next best record in men's play was 19-1 by the Belk Headhunters. The best women's record is 26-2 by the Miller Killers. Green's FFWC had the next best mark with a 25-3 tally.

Registration starts Monday for two sports. Tennis Mixed Doubles and men's and women's softball will begin after break and registration is next week. Registration for other spring sports will be after Spring break.

State sinks Pirate swimmers for 17th year

By ANDY STEWART
Staff Writer

In the seventeenth meeting between N.C. State and ECU, State's consistency was obtained in its seventeenth win between the two schools by downing the Pirates by a score of 74 to 39.

State jumped on ECU at the outset of the meet by capturing the 400 medley relay. State's silver medalist in the 1976 Olympics, Dan Harrigan, then captured the 1000 freestyle with ECU's Doug Brindley and Kevin Meisel finishing second and third respectively. This was the first of three events that Dan Harrigan would win.

In the 200 yard freestyle the Pirates' John Tudor was able to capture first place with the winning time of 1:41.80. This broke the meet record, the ECU varsity record and the ECU pool record.

State started putting it to the Pirates in the 50 yard freestyle, 200 individual medley and the diving competition.

In the 50 yard freestyle State's Stevens finished first with the Pirates' John McCauley finishing second. In the 200 yard individual medley, Dan Harrigan won his second event of the evening with ECU's Ted Nieman finishing third.

In the diving competition Tom Bell was able to capture second place for the Pirates.

With the score 36 to 16 after the diving, the Bucs started to make their comeback.

In the 200 yard butterfly Ron Schnell finished first closing the gap of the score to 39 to 22.

In the 100 yard freestyle Ross Bohlken finished first with John McCauley finishing second to make the score 40 to 30.

Then State caught a second wind and dominated the rest of the meet.

In the 200 yard backstroke the Wolfpack dominated with the only Pirate to place, David Moodie finishing third. In the 500 yard freestyle East , Carolina swam a close race, but State's red hot Harrington was not to be stopped. Harrington managed to win his third event of the evening with East Carolina's John Tudor and Ted Nieman pushing him to the finish.

State was finally able to put the Pirates away in the 200 breastroke. The final score was 74 to 39.

After the meet coach Ray Scharf commented, "I am pleased with the way the team came back, but we didn't take it to them like we could."

Scharf praised the Pirates by saying, "They showed character in not giving up and the ability to come back. That is what I wanted to see in them." Then Scharf commented, "We just didn't take it to them, we didn't take it to Duke or L.S.U. either. We have a lot of people that have talent and we are not taking advantage of it. I am not saying whose fault it is, it could be mine as a coach, but I feel the emotional high needed to win comes from within and we are not getting it."

Coach Scharf concluded by saying, "We need to get up on a emotional high for the Easterns. We are going to have to be higher than we were against Carolina. I feel we can win, but Pittsburgh and West Virginia are going to be very tough."

East Carolina's next competition will be in the Eastern Intercollegiate Championships, March 1-4, in Pittsburgh, Pa.

PIRATE SWIMMERS WILL be seeking to rebound from a loss to N.C. State at the Eastern Intercollegiate Championships in Pittsburgh, Pa. March 1-4.

Pirate grapplers D.T. Joyner and Butch Revils named to *Mat News* magazine's all-southern team

By SAM ROGERS
Staff Writer

Even while losing to Atlantic Coast Conference rivals N.C. State and North Carolina, the East Carolina wrestling team's toughest opponent during the last two weeks has been the flu. Once again, when the Pirates face William and Mary tonight in the final dual match of the season several starters will probably be out of the lineup because of illness.

"The flu has really worked us over the past few weeks," said a frustrated Bill Hill from his office Monday. "It really hurt us against North Carolina in several weight classes and we'll be faced with some of the same problems against William and Mary."

North Carolina handed the Pirates their seventh dual loss of the season last Thursday with an easy 32-15 victory. After Bob Passino topped UNC's Bobby Monahan 11-6 at 118, the Heels won six of the next eight matches to defeat East Carolina for the second time this season.

Paul Osman upended Joe Galli 12-8 at 134 while Steve Goode took a narrow 9-8 win over Carter Mario at 158. D.T. Joyner won by forfeit at heavyweight. Jody Truesdale much to the dismay of the partisan Pirate crowd.

"Butch Revils, Charlie McGimsey and Jay Dever were all out with the flu which really hurt us," said Hill. "We had no one to wrestle at 126 and we had to forfeit, and we lost by a pin at 167. If we had had Butch, Charlie, and Jay in there we may have been able to turn things around."

Tonight's match against William and Mary will be another tough one, according to Hill.

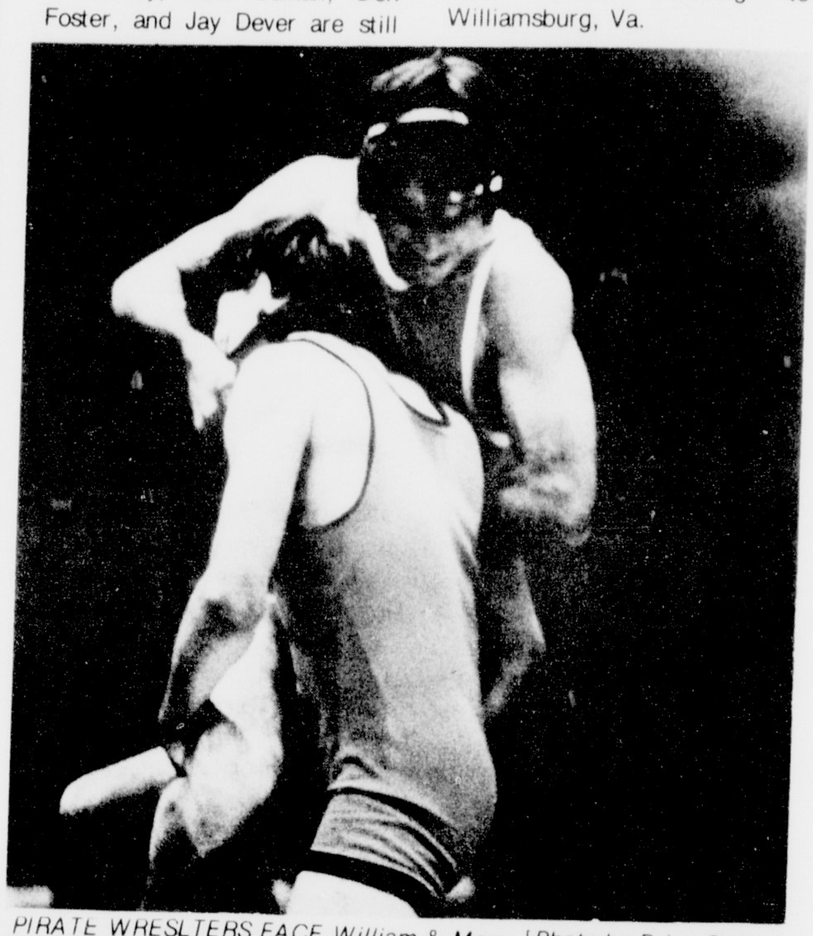

"Tom Dursee and Greg Franczak are two of the finest wrestlers around in their weight classes," noted Hill. "They beat us in the Southern Conference Tournament last year and they've got most of the same personnel back against this year."

Dursee and Franczak were both named to the National Mat News All-Southern team which was released this week. William and Mary, who also defeated Cleveland State earlier in the season, is now ranked eighth.

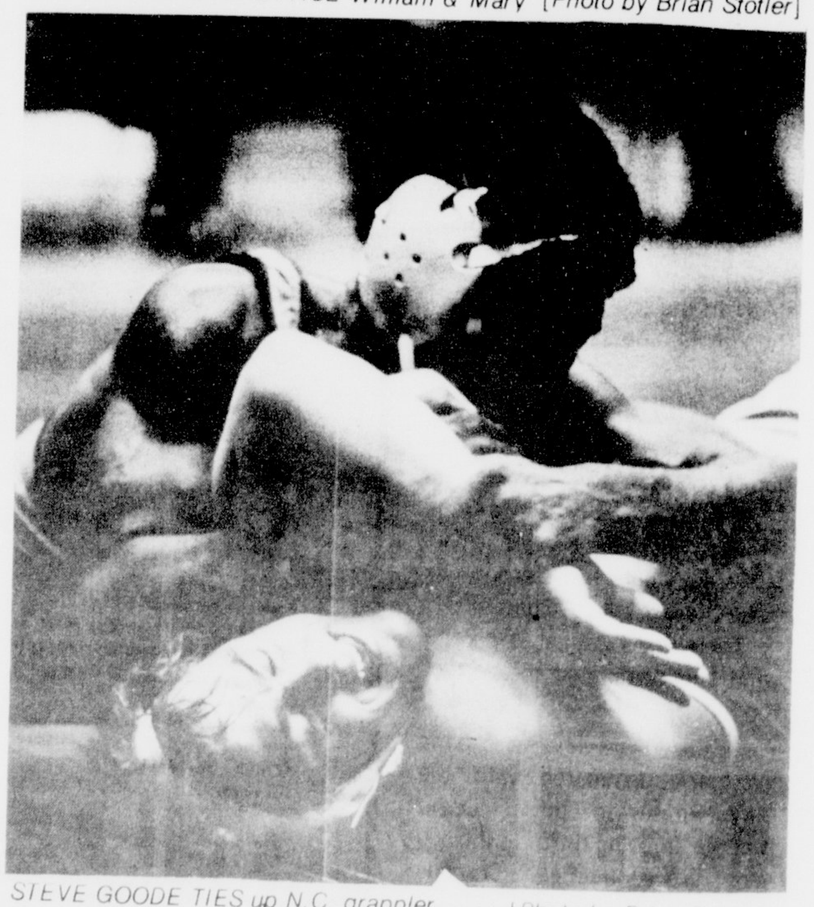

ECU's D.T. Joyner and Butch Revils were also named to the Mat News All-Southern team. Joyner is ranked second in the heavyweight division while Revils is ranked third in the 177 pound weight class.

Although Revils missed the North Carolina match, he is expected to be back in the lineup against William and Mary. However, Bob Passino, Charlie McGimsey, Paul Osman, Don Foster, and Jay Dever are still suffering from the flu and may not wrestle.

After the William and Mary match, East Carolina has a week layoff before traveling to Williamsburg, Va.
