### DID IT HIT?

Or Has it Gone on to Tangle up With The Sun.

For some days the papers have had startling articles about a comet discovered by the scientists. that was heading for this little earth of ours at the rate of 1,200 miles a minute, and would hit us full in the face sometime to-day, knocking this sphere into smithereens or shoving it off into some other quarter of the aerial world than where it has navigated since history first informed us of its existence. But if the earth should be spry enough to dodge the swift-winged comet and make a miss hit of it, then, the astronomers say, it would slip right by us and fall heels over head into the burning arms of the sun, in which case there would be such an increase of solar heat as to sizzle and fry into cracklings all we fellows caught strolling around on mother earth.

In consequence of all this calamitous prediction by the aforementioned scientists, there has been some quaking in boots and knocking of weak knees over the uncertainty of the fate in store for us. But so far the earth seems all right, as up to this writing we haven't felt anything like an earthquake shock or the kick of a mule, neither discovered any sizzling or frying of the fat on our corporosity. And if you are lucky enough to read this in the REFLECTOR this evening you may know that the earth is still in good shape and able to do its own turning. As it is Saturday evening and the boys are tired we don't make any special promise about issuing an extra with a picture of the comet in case it comes along later.

### A Kicker.

Wife (drearly)—Ah, me, the days of chivalry are past.  
Husband—What's the matter now?  
Wife—Sir Walter Raleigh laid his cloak on the ground for Queen Elizabeth to walk over, but you get angry simply because poor, dear mother sat down on your hat.—Collier's Weekly.

### The Paper an Index.

A newspaper with evidences of substantial support in its columns speaks volumes of the community in which it is published. The fact that every trade seeker has an advertisement in its columns proves that the people are up with the times and favorably impress the stranger in whose hands it happens to fall.

### Ask The Advertiser.

Pick out the most liberal newspaper advertisers, and you will not find among them a single one who is not firmly convinced that advertising does pay. The more a man spends for newspaper advertising, the more positive he is in his belief in the results that it brings. Ask the man who uses the most space in this paper what he thinks about it.

For the second week in March Register of Deeds King issued ten marriage licenses, the only white couple among them being C. H. Butler and Etta Talley.

The crowd in town to-day was not quite as large as last Saturday.

### WHAT IS BEING DONE?

Organize a Board of Trade and Get a Move On.

Had you noticed the number of strangers that are seen on our streets most every day? This means that more people are interested in Greenville than you are aware of. Now the question arises, what are the citizens doing to increase the interest of these strangers in our town? Are any special efforts made to point out inducements or advantage in locating here? Is this the case, or are such prospectors as come among us left to roam about alone, learn what they can and go away without any attention being shown them? Herein is where a Board of Trade could do a good work. These strangers might be taken in hand by a committee and shown around, statistics furnished them, our good business sites and excellent farming lands pointed out, the helpfulness of the community, our schools and churches, and various other things brought to their attention. If there was the proper organization here and a half effort made the REFLECTOR believes factories could be started in Greenville before this year is out.

### How She Economizes.

I study advertisements, and I know where and when and how to purchase the household supplies. My husband used to laugh at me for reading advertisements so carefully, but he has long since learned that I save many dollars every month. I know of no better way to practice economy. It is a wonder how soon you learn to detect the real from the false—intuitively almost. I think I have never been "taken in" by an advertisement. There is always something about the false ones that repels me. To the economical house-keeper the advertisements are the most important part of any publication.—Womankind.

### The Committee Progressing.

The citizen's water works committee had a good meeting last night. The committee unanimously favors a regular system of water works and are prosecuting their plans in that direction. Much corresponding has already been done and they are now negotiating with a civil engineer to make a survey of the town and prepare the specifications and estimate. One contractor has already submitted a bid for putting in a system.

### Court Adjourned.

March term of Pitt Superior Court, for civil cases, adjourned to-day after occupying the full two weeks for the term. Only two cases were heard during the first week, owing to their length, but for the second week as many cases were tried as have been known at any civil court here. However, there is still a large docket.

### "Trilby Mystery."

What? We can't tell, but if you want to know all about it wait for the entertainment to be given by the young ladies of the W. W. Society of the Baptist church, next Wednesday night. They tell us it is something new and everybody will be pleased. Watch for later announcements.

SATURDAY, MARCH 14TH, 1896.

The anti-option bill of Col. Hatch, which has been killed so often and which passed the House in the last Congress and came near enough to being passed by the Senate to badly frighten its opponents, is about to be killed once more.

The report of the majority of the Senate Election Committee, written by Chandler, of N. H., in favor of the resolution for investigating the election of the Alabama legislature that elected Senator Morgan exposes a Republican plot to get a majority in the Senate by unfair means.

The Republicans in the House hope to get some campaign thunder out of the hearings which have been arranged by a sub-committee of the House committee on Ways and Means for next week.

Senators Morgan and Chandler made a very good imitation of a monkey out of Senator Hoar during the somewhat acid debate which followed Senator Hale's rather remarkable proceeding of having read a statement made by the Spanish minister, which accused three Senators by name with having made untrue statements during the argument on the Cuban resolutions.

asking: "Where did you get the information upon which to sustain your earnest action regarding Armenia?" After Mr. Hoar had tried to reconcile his late position towards the Armenians with his present position towards the Cubans, to the great amusement of the Senate and the crowded galleries, Senator Chandler read a telegram which Senator Hoar sent to the President, offering his support by speech and vote for the most vigorous measures against the Turks, even to treating them as pirates and enemies of the human race.

President Cleveland is allowing the Senators to monopolize the talk on Cuban affairs, and they have certainly done a lot of it that was entirely unnecessary, this week, inasmuch as the acceptance of the report of the committee on foreign relations in favor of the Senate accepting the House resolutions as a substitute for its own resolutions was a foregone conclusion from the first.

"She Did so When She Was Young."

A story is being told of a young lady who found a package of love letters that had been written to her mother by her father before they were married. The daughter saw that she could have a little sport, and read them to her mother, substituting her own name for that of her mother, and a fine young man for that of her father.

A Good Sermon.

"If the Lord be with us, why then is all this befallen us?"—Judges 6:13. There are many people who stop believing the Bible whenever things begin to happen that are not pleasant to the flesh.

and we shall find ourselves groping in the darkness of perplexity and doubt. Every doubt of God's goodness and presence with us, is a lying messenger who would persuade us that we are bankrupt.

THOU ART MY OWN.

F. L. STANTON.

Thou art my own despite deep fears And troubles, and a weight of cares; Whene'er my lonely heart despairs— Thou art my own— Thou art my own!

A correspondent of the Greensboro Patriot tells how to grow apples that will have neither seeds nor cores. Here is the process: "Where the tree is sufficiently young to admit of bending or twisting without breaking, take the extreme top of a limb or small tree and bringing it to the earth, bury it, and when it shall have taken root, cut off the other end of the limb or tree, and you will have thus reversed the order of things, the body or heavy part of the limb being uppermost.

Borchgrevink, the Norwegian Explorer.

Borchgrevink is a Norwegian, some 30 years of age, of medium height and of modest mien, and has the typical Scandinavian fairness of hair and floridity of complexion. His face gives signs of that determined spirit and fixity of purpose which Norse explorers have shown from the early vikings to this latest voyager.

# GET A GOOD SAFE.

GREENVILLE, N. C., Feb. 26th, 1896.

J. L. SUGG, Agent Victor Safe Co.,  
Greenville, N. C.

DEAR SIR:—I am pleased to say that the Victor Safe you sold me some five or six years ago preserved in fact all its contents in the late fire in Greenville on the 16th inst. The safe stood at a point in my office in the Opera House block that must have been one of the hottest parts in the great conflagration. It contained many papers and other things of value. When it was taken out of the ruins and opened, some twelve hours after the fire, everything in it was found to be safely preserved and in good condition. I cheerfully make this statement of facts in recognition of the valuable service rendered me by this safe and you are at liberty to make such use of it as you may see proper.

THOS. J. JARVIS.

The Victor Safe is made in all sizes, convenient for home, farm, office or general business use. Every Safe sold with a guarantee to be fire proof. Prices range from \$15 up.

J. L. SUGG, Agent,  
GREENVILLE, N. C.

## MISCELLANEOUS ITEMS.

—The 63,500 people who live in Charleston, S. C., are located over five and one-third square miles of ground.

—The assessed valuation of all taxable property in Chicago in the beginning of 1895 was stated at \$247,425,442.

—Harrisburg, Pa., has 50,000 population and nine square miles of territory; it owes \$1,005,000 and is worth \$22,500,000.

—The latest plan of the rainmakers is to produce a fog and then turn it into rain by an ingenious application of dynamite. London is suggested as a field of experiment, but Londoners may object.

—The jury system established by Utah is an innovation that will be watched with a great deal of interest in this country. Eight jurors will be substituted for 12 in all cases not involving capital punishment, a verdict being permitted on the vote of six out of eight jurymen.

—G. F. Henriques, a Brooklyn man, enjoys the distinction of being the owner of what is considered the oldest poll parrot in existence. The parrot is vouched for by several of its owners to be the mate of one kept by President George Washington, and a cousin of one of the royal parrots kept by George III. It is one of the Australian variety, and is over 90 years old.

—According to Prof. Wilcox, of Cornell university, the American people are gradually "settling down"—do not migrate so much from state to state as formerly. In 1860 exactly one-fourth of the population of the United States had emigrated from the state where they were born. But since 1870 the tendency to stick to the old home has steadily increased. This tendency is more marked in New England than elsewhere.

—Men of brains are paid handsome salaries to devise new schemes. The latest and one of the most humorous amused the patrons of New York theaters for three or four nights and succeeded in escaping the notice of managers. A bald-headed man is the instrument. On his shining pate is painted in indigo blue the name of a patent medicine. He sits in the front row and conducts himself with propriety, while people behind him are convulsed with laughter, each observer supposing that here is a practical joke someone has played on an unsuspecting friend.

## EXPLAIN THE FIGURES.

Facts That Illustrate the Value in Gold of Quantities Frequently Mentioned.

The total amount of the bids received at the United States treasury for the last government bond issue was \$568,000,000. This amount of money would make a block 10 feet square by 14 1/3 feet high.

The total imports of the United States for 1895 were valued at \$731,969,965, which would make a gold block 10 feet square by 18 1/2 feet high.

The total exports of the United States for 1895 were valued at \$793,392,599, which would make a block of gold 10 feet square by 19 2/3 feet high.

The production of wheat in the United States for 1894 was 460,267,416 bushels, the value of which, at 60 cents per bushel, would make a gold block 10 feet square by 7 feet high.

The assessed valuation of all the taxable property in Chicago, real and personal, for 1895 was \$244,476,825, which would make a gold block 10 feet square by 6 feet high.

The assessed valuation in 1890 of all property, real and personal, in Montana, Wyoming, Colorado, New Mexico, Idaho, Utah and Nevada was, in round numbers, \$565,000,000, the amount of the bond bid.

The amount of the bond bid, coined into 20 pieces, would make a pile of gold containing, approximately, 1,500 cubic feet. The amount of cash on deposit in the country's savings banks alone, in 1895, was \$1,810,597,023, or a fraction over three times the amount of the bond bid.—N. Y. Mail and Ex-
