EDITORIAL COMMENT.

Ex-Gov. W. H. Smith, of Alabama, for many years a staunch Republican has taken the stump in his State for Bryan and Sewall. He says the election of McKinley would be the greatest calamity that could befall the country at this time.

The negroes of Carrol county, Mississippi, formed a secret society and made a plot to exterminate the white people of the county. They had commenced arming themselves for that purpose when the finding of a letter in the road exposed the plot. Several leaders were arrested.

These switch "frogs," a contrivance used on railroads are getting to be dangerous things. A little more than a week ago a man in Charlotte got his foot hung in the "frog" while going ahead of a train to open the switch, and was run over and killed, and in Norfolk a few days since another man was killed in the same way.

Some of the northern commission houses are working a clever ruse in effort to make sentiment for the gold standard. We have seen a circular letter sent out by a New York firm to banks offering to insure them in advance against being hampered with depreciated currency in the event of Bryan's election. The scheme put forth by this firm is to furnish the banks that want to lay by some gold any desired amount of the yellow metal at a small premium, ranging from one per cent. on \$1,000 to one-fourth of one per cent on \$100,000.

How is This?

Hal W. Ayer, chairman of the Populist State executive committee, is sending out lots of circulars from headquarters. One of these circulars says:

"Letters have come to this office stating that our Republican friends are still 'driving' for fusion, and that they are making unusual efforts to completely control the Legislature. If they should do this, a goldbug United States Senator will be elected from North Carolina. If the Populists should help the Republicans to get this control, then the Populists will be responsible for that goldbug Senator. Just think of it! Populists electing a goldbug!"

"Can we be parties to such a record as that? Would it not be a gross stultification, and would we not begin to lose the confidence of many people who have begun to look to us to see the principles which we have so consistently advocated, and determinedly pushed to the front all enacted into operative laws? Our party is a failure, even a humbug and a fraud, if we yield enough to enable a goldbug United States Senator to go from this State."

In the face of this there are Populists right here in Pitt county who are working for the straightout gold bugs on the fusion ticket. If they vote for E. V. Cox they had as well vote for Pritchard and McKinley, as he will vote that way.

Lucas and Skinner.

There was a large crowd here today to hear the joint discussion between Lucas and Skinner, Democratic and Populist nominees for Congress in this district. The speaking took place in the Court House, Col. Skinner having the opening and Col. Lucas the closing.

Col. Lucas gave Col. Skinner a complete roasting from beginning to end, and the crowd was wild with enthusiasm. It was so late when the discussion closed that we cannot comment on the speech today.

LOCAL SNAPS.

The best line of Canned Goods, Jellies and other table supplies.
J. S. SMITH.

Next Saturday is the last and only day upon which you can register for the coming election. If you want to vote see that your name is on the book.

Helio central give me 70 please, I want some of Jesse Brown's groceries, they are always fresh.

Austin Nichols' brand of new Oatmeal, prepared Buckwheat and cleaned Currants at J. S. Smith's.

The fire cipher is nearly completed. It is pronounced by all who have seen it, and the number of inspectors is legion, to be a splendid piece of work.

On the 21st three weddings take place in different sections of the State, about one hundred miles apart, and a Greenville man will figure in each one of them.

The Ch-noa (Ill.) Gazette says when a man gets sick and recovers his family seem to think but little of it, but when he dies they publish a card of thanks.

The small building on the corner in front of Dr. W. M. B. Brown's has been moved back to another part of the lot to make room for a handsome residence, which W. B. Brown will build on the corner.

The Game of Games.

Regular price, 50 cents. Cut this out and mail it to The Trade Co., Boston, Mass., with six 2 cent stamps, and "Progressive America," the best family game, will be sent prepaid.

An Inquest Held.

Upon the request of a relative Coroner Laughinghouse held an inquest, Tuesday afternoon, over the body of Ed. Butts, who died in the guard house Monday night. The jury returned a verdict that death resulted from some cause to them unknown. The body was sent to Ayden on the evening train from where it was taken to Greene county for interment.

OVERCOATS UNDERWEAR

We note with much satisfaction a large growth of business in our Overcoat department. Increased sales encouraged us to buy heavy this season. The styles in Men's and Boy's Overcoats are very dressy, and they have that splendid finish that pleases so well.

Prices will talk louder than anything else we can say.

All the arguments in the world would not induce you to buy from us unless you were to find prices right. We will sell you goods from 15 to 35 per cent lower than any house in town and don't you forget it. We have done it before and are doing it today. The proof of the pudding is in eating. Give us a trial and we warrant like Oliver Twist "You'll ask for more."

PROFITABLE PUBLICITY.

Plenty of Advertising.

BY NATH'L C. FLOWLER, JR., OF NEW YORK, DOCTOR OF PUBLICITY.

Too much of a good thing is impossible, because if it is a good thing there cannot be too much of it.

If a small advertisement pays, and the business is big enough, or can be made to be, a large advertisement ought to pay better.

The largest advertisements are almost always those of the most successful advertisers.

The larger the advertisement, the more people will read it.

The larger the advertisement, the more opportunity there is of saying what you want to say.

The larger the advertisement, the more conspicuous it is.

The larger the advertisement, the better a representative it is of your business.

The large advertisement stands for success.

The large advertisement stands for progression.

The large advertisement attracts attention.

The small advertisement may, or may not, stand for anything.

ANTARCTIC CONTINENT.

The First White Man to Set Foot on the Icebound Land.

C. E. Borchgrevink, the Norwegian explorer, writes a graphic account of "The First Landing on the Antarctic Continent" for The Century. The writer says:

We landed at Cape Adare that night (Jan. 23, 1895), being the first human creatures to put foot on the mainland. A peculiar feeling of fascination crept over each of us, even to the most prosaic natures in our boat, as we gradually drew near to the beach of this unknown land. Some few cakes of ice were floating about, and looking over the side of the boat I even discovered a jellyfish, apparently of the common light blue, transparent kind. I do not know whether it was to catch the jellyfish or from a strong desire to be the first man to put foot on this terra incognita, but as soon as the order was given to stop pulling the oars I jumped over the side of the boat. I thus killed two birds with one stone, being the first man on shore, and relieving the boat of my weight, thus enabling her to approach land near enough to let the captain jump ashore dryshod.

I had painted a Norwegian flag on a large box, which we fastened on a strong pole near the place where we landed, and leaving the rest of the crew to be entertained by the penguins I proceeded alone to investigate the peninsula and to make collections. I found seaweed on the beach, but whether it had grown on the shores of Victoria Land remains to be ascertained in the future.

I believe that Cape Adare is the very place where a future scientific expedition might stop safely even during the winter months. From the spot where we were several accessible spurs lead up to the top of the cape, and from there a gentle slope runs on to the great plateau of Victoria Land. The presence of the penguin colony, their undisturbed old nests, the appearance of dead seals (which were preserved like Egyptian mummies, and must have lain there for years), the vegetation to the rocks and lastly the flat table of the cape above, all indicated that here is a place where the powers of the antarctic circle do not display the whole severity of their forces. Neither ice nor volcanoes seemed to have raged on the peninsula at Cape Adare, and I strongly recommend a future scientific expedition to choose that place as a center of operations. On this particular spot there is ample space for house, tents and provisions.

I myself am willing to be the leader of a party to be landed either on the pack or on the mainland near Colman island. From there it is my scheme to work toward the south magnetic pole, calculated to be in latitude 75 degrees 5 minutes, longitude 150 degrees east. Should the party succeed in penetrating so far into the continent, the course should, if possible, be laid for Cape Adare, there to join the main body of the expedition. As to the zoological results of future researches, I expect great discoveries. It would indeed be remarkable if on the unexplored Victoria continent, which probably extends over an area of 4,000,000 square miles, there should not be found animal life hitherto unknown in the southern hemisphere. It is, of course, a possibility that the unknown land around the axis of rotation might be found to consist of islands joined only by perpetual ice and snow, but the appearance of the land, the color of the water, with its soundings, in addition to the movements of the antarctic ice, point to the existence of a mass of land much more extensive than a mere group of islands.

The slanderer inflicts wrong by calumniating the absent, and he who gives credit to the calumny before he knows its truth is equally guilty.—Herodotus.

Wickedness, when properly punished, is disgraceful only to the offender. Unpunished, it is disgraceful to the whole community.

On the Use of Language.

Every one knows the anecdote in which the rustic thought "felicity" was something inside of a pig, meaning probably the part that furnishes lard, which is known in some rural districts as flair, in others as flick—the latter word is well known in Dorsetshire. But this story is surpassed in simplicity by the following: A woman in a village in Kent lost three children by diphtheria, and when the clergyman's wife went to condole with her she railed against the doctors, and said she couldn't think how they could go to church and say that prayer, and then go and practice on the people as they did. In answer to the question what prayer she meant, she said, "Why, they pray to be delivered from false doctoring, heresy and schism, and then they go about and do false doctoring and kill the children."—Notes and Queries.

The Way.

In order that those who have commodities to sell may sell them to the best advantage, there must be plenty of buyer; in order that those who buy may buy to the best advantage there must be plenty of sellers; and the sellers and buyers must find each other out so as to come in commercial contact. This can be accomplished best by newspaper advertising.—Printer's Ink.

Lang Sells Cheap.

Wilson Air-Tight Heater.

With Patent Automatic Smoke Doors.

The Wilson Heater, which is a stove for house heating, is the most remarkable that has ever been patented.

In the first place it radiates more heat than any stove known, and will save 25 per cent. in fuel over any stove made.

Second, with two or three ordinary sticks of pine stove wood it will keep the fire from 36 to 48 hours, and with ordinary care the fire will never go out.

Third, being entirely closed at the base there is no danger of fire, and it is the cleanest stove in use. It is not necessary to remove the ashes oftener than once a month. These stoves are made of different styles—the small one, which is made for bedroom, is especially recommended for health as well as comfort.

The Wilson Heater has a great advantage over any similar stove, because it has Patent Automatic Smoke Doors, which prevent the smoke from coming into the room when you take the top off to put in the wood. These doors are so constructed that they can be taken off and put back on in one minute. These stoves can be seen at our store, come and look at them.
