Base Ball.

Philadelphia, June 30—Washington won the concluding game of the series from Philadelphia by better fielding. Both pitchers were effective, but Mercer received the better support. Dowd's muff gave the visitors the two runs they scored in the sixth and Geer's wild throw was responsible for the run in the ninth. The Phillies earned their only tally on Delehanty and LaJoe's double. Attendance 1,979. Score. Philadelphia, 1; Washington, 3.

Chicago, June 30—The Colonels struck a batting streak and won out in the ninth today after two had been retired, a gift, a sacrifice and four well-placed hits scoring three runs. The game was slow and featureless outside of Stafford's and Kittredge's fielding and Ryan's batting. Attendance 650. Score. Chicago, 7; Louisville, 8.

Boston, June 30—Boston won another game in the ninth inning today from Brooklyn, although their team is in a rather broken up condition. Klobedanz split a finger in the morning practice. Yeager broke a bone in his left hand and will not be able to play ball for two or three weeks. Attendance 4,500. Score. Boston, 9; Brooklyn, 8.

St. Louis, June 30—Breitenstein pitched in great form today and retired the Browns without a run, allowing them only three hits. Donahue was effective also. The game abounded in pretty fielding plays. Attendance 2,500. Score. St. Louis, 9; Cincinnati, 3.

Cleveland, June 30—Powell proved very effective today. During the first eight innings the visitors got no more than one hit in a single inning. In the ninth the Pittsburgs made four hits, which, combined with three errors by the Indians, gave the visitors three runs. Tannehill was batted freely by the home team. Attendance 1,000. Score. Cleveland, 14; Pittsburg, 3.

New York, June 30—New York lost the last game of the series to Baltimore in a long drawn out contest. Seymour pitched an erratic game, giving eleven men bases on balls and striking out nine. The Baltimoreans rattled Seymour in the fifth, and bases on balls, a two bagger and an error netted them four runs. In the ninth they clinched the game by batting the ball over the lot. Corbett pitched a good steady game. Davis was hit by a pitched ball in the eighth and the game was called until he recovered. Attendance 6,500. Score. New York, 3; Baltimore, 8.

To Improve the Court House.

Chairman W. M. King, of the Board of County Commissioners, has let the contract for repairing the Court House to Riddick & Barnes. The building will be thoroughly repainted inside and out and all the decayed woodwork will be repaired. The work is badly needed.

No, Maude, dear, we have never heard that chicken thieves were partial to poached eggs, although it is more than likely.

THE TOWN SURRENDERS.

Will Have to Locate the Market House Elsewhere.

A year or more ago when the County Commissioners let the contract for building the vault in the Court House, they decided also to sell the lot opposite the Court House on which the town Market House is located. The lot was advertised for sale, but the Town Council set up a claim to it and had the sale stopped. This was followed by a suit and the matter has since been in controversy. The facts in the case appear that the lot is really the property of the county and the town was allowed the use of it with the consent of the County Commissioners.

We understand that the present Town Council have decided to abandon the suit and will surrender the lot to the county upon certain conditions. This will leave the town without a Market House, but we learn that the Councilmen contemplate tearing down the present house and rebuilding it on Fifth street just east of the Cotanche street crossing.

A PRIMER LESSON.

Do you see that?
See what?
The man.
Is that a man?
That is what he calls himself.
What is he doing?
Waiting for prosperity.
Why don't he wear better clothes?
He is out of work and has no money to buy them.

Why don't he get him a job?
There ain't any jobs to get.
Will prosperity bring him a job?
Yes, when it comes.
Why does he think prosperity will come?
The politicians told him it would if he would vote for McKinley.

Are the politicians trying to restore prosperity?
Yes.
How?
By increasing the taxes and raising the price of what the people have to buy.

Will that bring prosperity?
Not if the court knows itself.
Does the man know it?
He will.
When?
When he gets hungry.
What will he do then?
Swear.
Will that do any good?
N-a-w.
What ought he do?

Eat a bale of hay for being an ass or hire somebody's bull dog to bite him half to death, and after that vote a ticket which the millionaires, corporationists, lobbyists, trusts and syndicates don't vote.

Would that help him?
If every man who needed a job would do it, it would, at least he would not be any worse off and would have the satisfaction of voting for what he wanted and needed instead of voting to be robbed.—Morgan's Buzz-Saw.

FRIDAY, JULY 2, 1897.

A Chicago journal indulges the quaint calamity wail that the Columbian Exposition was the most disastrous event in the history of the city—more disastrous, in fact, than the great fire of 1871—

The government of India, as a memorial of the Queen's jubilee, will release 20,000 prisoners who have been convicted of various offences in that country.

This explains the course of our North Carolina executive, and we are surprised that we hadn't thought of it before. Ever since Russell's inauguration he has been turning prisoners out of the penitentiary at a rapid rate.

In his speech of welcome on Tennessee Day at the Nashville Exposition, Governor Bob Taylor pays a nice tribute to North Carolina. Of her, he says:

But who will chide me if I speak tenderly of North Carolina—the mother of Tennessee? We love her for the history she has made. We love her for the statesmen she has produced. We love her for her heroes, whose names shall live forever in song and story.

Going For the Doctors.

The Southern Illinois Press Association has adopted a rule to omit the title "Dr." in speaking of a physician. This is a retaliation upon the Southern Illinois Medical Association that expelled two members because they advertised.

It is a principle of medical ethics that a physician shall not advertise himself; that is, that he shall not pay for advertising. In the view of the bigwigs in the profession, it is undignified for a doctor to buy newspaper space, but it is not improper for him to get all the free advertising that the papers are willing to give him.

Craven County Commissioners Rescind Call for Election on Educational Tax.

Last Monday the commissioners of Craven county unanimously adopted the following motion by Mr. J. A. Bryan:

"It appearing to the satisfaction of the board, that the act for local taxation for the benefit of public schools entitled 'An act to stimulate local taxation in the rural districts,' not having been passed pursuant to the requirements of the laws and constitution of the State. And it appearing that an election held under this act would be null and void, and entail upon this county great costs and expense.

"It is therefore resolved, That the order heretofore passed by this board calling the election for the purpose named, be and the same is hereby rescinded, reconsidered and revoked, and the clerk of this board is ordered to notify the pollholders and officers of election of the provisions hereof."—Kinston Free Press.

Our Nation's Wealth in Gold Dollars.

The wealthiest nation of the world is the United States. The census of 1890 shows the true valuation, or fair selling price, of the real and personal property of the country to be \$65,037,091,197. It is an increase of over forty-nine per cent. on the valuation of the previous decade, and is about six times the value of the money of the entire world.

Sun Never Sets on Uncle Sam's Domains.

"The Britons proudly boast that the sun never sets on the Queen's dominions, as if they were special subjects of solar favoritism," writes William George Jordan on "The Greatest Nation on Earth," in the July Ladies' Home Journal. "But it is equally true that there is always sunshine on some part of Uncle Sam's great possessions.

Uncle Sam's First Postage Stamps.

"Fifty years ago—in July, 1847—Uncle Sam issued his first postage stamps," writes Fannie Mack Lothrop in the July Ladies' Home Journal. "In England, seven years before, Rowland Hill, 'father of the penny post,' introduced the 'sticking plasters,' as the stamps were contemptuously called. John M. Niles, our Postmaster-General at that time, tried heroically, but in vain, to move Congress to authorize stamps for this country.

"The first purchaser of stamps in the United States was Henry Shaw, the father of Henry Wheeler Shaw, (better known as 'Josh Billings,' the humorist). Mr. Shaw was in the Postmaster General's office on August 6, 1847, when Mr. Johnson entered with the printer from whom he had just received sheets of the new stamps. Mr. Johnson passed a sheet to Mr. Shaw for inspection. After giving the stamps a hasty glance Mr. Shaw, perhaps with an eye to future fame, took out his wallet, counted out fifteen cents and purchased one of each variety. The 'five' he kept as a curiosity, the 'ten' he presented to Governor Briggs as an appropriate gift."

A Solar Eclipse.

On the 29th of July one of those phenomena will take place that from time immemorial have never failed to engage the attention and elicit the wonder of mankind—a solar eclipse. Even those that are quite familiar with the causes that produce it; and may even be capable of understanding the intricate calculations necessary for its prediction, cannot suppress a feeling of awe on beholding the most interesting of all the phenomena of nature.

The Americans are the greatest travelers on the face of the earth. It is estimated that every year from 90,000 to 100,000 people leave the country for trips in Europe, going first class. Half as many again go at cheaper rates.

OTEY OF VIRGINIA.

Paine's Celery Compound in High Favor in His Family.

WASHINGTON, D. C., April 9.—Congressman Peter J. Otey has distinguished himself by active and honorable service in the house of representatives, where he was sent from the Sixth district of Virginia. On the floor of the house and in the committee room he is a conspicuous advocate of measures for the advancement of good government. In what high honor Paine's Celery Compound is held in the family of this distinguished legislator appears from the following letter:

Dear Sirs:—For years I have been a great sufferer from neuralgia, and during the past winter was advised to try your Paine's Celery Compound, and I used two bottles of it with great benefit. I was so much pleased with it that I persuaded my brother, John Lloyd, to use it. He had been having a bad form of nervous dyspepsia, and now, after using the compound for two months, is so much improved that we feel sure a third bottle will complete his cure. Every one has spoken of the marked change for the better in her appearance. Respectfully,

MRS. MALLIE FLOYD OTEY.

This is one of some 15 or 20 letters from United States congressmen or members of their families, that have recently appeared in the newspapers here, heartily recommending Paine's Celery Compound.

One of the most eminent physicians in the city, being interviewed by one of the papers says:

"Paine's Celery Compound marks a tremendous stride in the cure of diseases.

"No remedy has ever succeeded in driving out the underlying causes of nervous and organic troubles so surely and rapidly. No remedy represents so comprehensive a knowledge of

nervous exhaustion. It cures where other means have been tried and found futile.

"There is less hesitation nowadays among intelligent people in attending to the beginning of poor health. It is well known that disease is progressive and cumulative, easy to drive out at the start, but a menace to life when allowed to entrench itself in any organ of the body. If people would consider headaches, rheumatism, neuralgia, sleeplessness, indigestion and languid feelings in their true light and as seriously as they deserve to be and make a stand against them at once by means of Paine's Celery Compound, there would be a wonderful diminution in the amount of kidney, liver and heart disease."

Any one who reads the heartfelt, emphatic letters that have appeared here from men and women who owe their health and often their lives to Paine's Celery Compound will be impressed by the sincerity in every line.

"This great modern scientific invigorator and health maker is doing an enormous amount of lasting good these spring days. Its success in making people well has had no parallel in the history of medicine. It has cured thousands of cases of rheumatism and neuralgia, many of long standings that have been despaired of by friends and physicians.

"Compared with other medicines, its permanent cures stand out as a mountain does beside a mole hill. If all the men and women who have entirely got rid of nervous debility, threatened nervous exhaustion, sleeplessness and such organic troubles as kidney, liver and stomach diseases by its help, during the past year alone, could be brought together, what an army of grateful people it would make!"

A Real Bargain.
"It's a swindle," she said. "The idea of charging \$4 for that!"
"Under the circumstances, madam," returned the floorwalker, who had been attracted to the spot, "we will make it \$3.99 to you."
"Ah," she said, producing her purse; "that's more like it."—Chicago Post.

Stole His Dog.

When Mr. E. B. Ficklen left a few weeks ago to take a trip through Virginia, he carried his pointer dog along with him. This particular dog was a very fine one and so attractive that many people wanted him. When Mr. Ficklen returned Thursday evening he did not have that dog, but brought along only a small pointer. Asked the cause of this change, he said somebody stole his fine dog from him while in Danville, Tuesday, and he could not find the animal any more, so brought another to raise.

Gland Removed.

On Thursday an operation was performed on Miss Annie Sledge, of Tarboro, who is here on a visit to her uncle, L. H. Pender.
