## THE PRESENT CONDITION

of the Tobacco Crop as Seen and Judged by O. L. Joyner in Pitt, Beaufort and Portions of Edgecombe Counties.

[CONCLUDED FROM YESTERDAY.]

Since July 1st the rains have come it seems, just as we would like to have had them, and the crops have reached a very high degree of development though the writer inclines to the belief that if we could have had about two good general seasons in June our crop would have eclipsed anything we have had since 1890, but the drouth lasted so long that in some sections the crop could not be saved and it was cured green in order to save it. I have seen the crops on both sides of the river, a distance of nearly 50 miles and as stated above, in some localities I have never seen better crops, while probably the adjoining farms had suffered severely on account of drouth. The prettiest large crop of the weed we have ever seen is on the farm of Capt. J. J. Laughinghouse near Grimesland. He has ninety acres in tobacco and we spent a half day looking over this beautiful field of golden yellow and we never saw a single poor acre in the entire lot. Mr. Laughinghouse is one of the most thorough and well rounded farmers in Eastern Carolina and while he owns extensive agricultural interests, he has his work so thoroughly systematized that his operations are conducted on the intensive business system. It was our pleasure to spend some time in riding with Mr. Laughinghouse over his farms and aside from being one of the best farmers in the State he is one of the most delightful conversationalists of our acquaintance. Just across the river from Mr. Laughinghouse Col. W. R. Wharton has a most excellent crop of tobacco of twenty-five acres and a few miles east of him Messrs. J. J. P. and T. R. Hodges, father and son, have crops that makes the hearts of the owners glad. This immediate section on both sides of the river seems to have been more favored with seasons than any section we have seen and the crops of all kinds show it.

Tobacco in the Falkland and Farmville sections is better than it has been since 1893 and we have seen some exceptionally fine ones, though in these sections the acreage has been reduced fully one third. In Greene county the crops have improved wonderfully since the rains, but a great many were ruined for the lack of rain. In the southern part of Pitt and Craven crops are better than last year, though they have suffered immeasurably on account of drouth. Taking Pitt and the adjoining counties at present writing when probably one half the crop has been saved. I am of the opinion that it is fully 40 per cent better than the condition showed a month ago, but in the greater part of the territory where the farmers primed their tobacco much complaint is made on account of the tip of the plant taking the second growth and nearly everyone is of the opinion that the best of the crop has already been saved especially where the farmers primed.

### A Long Mortgage.

The longest single instrument ever recorded in this county is now in the office of the Register of Deeds awaiting registration. It is a mortgage from the Roanoke Railroad and Lumber Co. to the New Jersey Trust Safety Deposit Co. The mortgage covers 56 copy sheet pages and will fill about 25 pages on the record books. The registration fee is \$10.10. There is now much sickness reported over the county.

## COMMUNICATED.

OAKLEY, N. C., Aug. 2nd, 1897.

MR. EDITOR—Please allow me space in your paper to say a word in regard to the way some things are working in this county, in a political way. It is well known that in the last legislature the members belonging to the Democratic party offered to co-operate with the Populists far enough to elect a silver Senator, and they (the Populists) refused such an offer and we see the result. Now what I want to say is this, the Populists and Republicans are responsible for the present obnoxious school law, and I cannot see how any Democrat can take hold of and help them carry out their nefarious scheme, by serving as committeemen in each and every township. I believe in the doctrine to the victor belong the spoils. Therefore I say come out and have nothing to do with them and let them fill the offices and run the government to suit themselves.

Hands off gentlemen, that's my motto, and the motto of a large majority of the Democratic party. W.

The revival at the Methodist church is still in progress. Rev. B. B. Culbreth was assisted last week by Revs. R. F. Bumpass and S. A. Cotton. There has been several conversions, eleven joined Saturday morning. There are a great many penitents and much interest is being manifested in the meeting.

### A Dangerous Runaway.

About as exciting a runaway as has been seen here occurred about noon today. Charla Forbes' horse got away from him while over in South Greenville and ran off up Evans street. As the animal passed Five Points parties on the street tried to stop her. She left the street and took the sidewalk in front of A. Forbes' store and cut down one post of his shelter with a wheel of the buggy. Right then folks began to scatter, and nobody even thought of disputing the horses' claim to the entire sidewalk. There was clear sailing for nearly half a block, but when Starkey's store was reached things began to mix up. A wheel on the right split open, a box of candy that Jim had left out. This swayed the buggy across the sidewalk and the opposite wheel collided with the corner of Brady's building. This threw the buggy over the other way again and the outside wheel made Brady's street lamp look like it had been monkeying with a cyclone. By this time the corner was reached where the big tree knocked one wheel of the buggy almost into splinters, broke one shaft and rolled the horse over in the street. Fortunately the horse was only slightly hurt and it is remarkable that the buggy was not completely wrecked after colliding with so many different things.

A Comparison of the New Tariff Law With the Old.

Washington, July 31.—The comparison of the present tariff law with the Wilson act authorized by Congress has been completed. It was made by Chas H. Evans, who has been engaged in the preparation of the tariff bills with which Congress has dealt since 1872.

The statement shows the following increases in percentage: Chemicals from 28.53 to 30.67; wools and woolens 47.63 to 86.54; silks from 46.96 to 53.41; earthenware and glassware 35 to 52.47.

Some of the increases expected in revenue are as follows: Chemicals from \$5,619,239 to \$8,422,084; earthenware and glassware from \$8,006,839 to \$12,303,148; metals from \$13,197,416 to \$17,487,482.

These estimates are based upon the supposition that the value and volume of imports will remain the same.

Cost of Postal Service.

The following bit of information concerning our postal expenditures is taken from the New York Commercial Advertiser.

"At the first glance it seems strange that the postal service of the United States should cost \$9,000,000 a year above receipts, while that of Great Britain yields a profit of over \$14,000,000, that of France nearly \$10,000,000, that of Germany \$6,000,000, and that of Russia \$8,000,000 and that of even India and Japan \$1,500,000.

The petition of G. M. Moorrig, W. R. Whichard and others, to change the boundary line between Carolina and Pactolus was granted. The new line between the two townships is as follows: Beginning where W. R. Whichard's new road leaves the old boundary line and running with said new road on the south side of Whichard's plantation to the Washington road, thence with the line between the lands of Daniel Hill, deceased, and T. J. Sheppard to the run of Briery Swamp, thence down the run of said swamp to the road below Sheppard's mill.

And so the white Republicans in Georgia are indignant because the administration is showing so many of its favors to the negroes of that State. That shows what sense of justice they have. If the administration were fair it would give nine tenths of the Federal offices in Georgia to the negroes for they give the Republican party nine tenths of the votes it gets in that State.

**GRANT AND SHERMAN.**

Their Generous Appreciation of Each Other's Abilities.

In The Century, General Horace Porter says, in the course of his "Campaigning With Grant"

A little before 9 o'clock on the evening of Sept. 4, while the general was having a quiet smoke in front of his tent, and discussing the campaign in Georgia, a dispatch came from Sherman announcing the capture of Atlanta, which had occurred on Sept. 2. It was immediately read aloud to the staff, and after discussing the news for a few minutes and uttering many words in praise of Sherman, the general wrote the following reply: "I have just received your dispatch announcing the capture of Atlanta. In honor of your great victory I have ordered a salute to be fired with shotted guns from every battery bearing upon the enemy. The salute will be fired within an hour, amid great rejoicing."

In the meantime the glad tidings had been telegraphed to Meade and Butler, with directions to fire the salute, and not long afterward the roar of artillery communicated the joyful news of victory throughout our army and bore sad tidings to the ranks of the enemy. An answer was received from Sherman, in which he said: "I have received your dispatch and will communicate it to the troops in general orders. \* \* \* I have always felt that you would take personally more pleasure in my success than in your own, and I reciprocate the feeling to the fullest extent."

Grant then wrote to Sherman; "I feel that you have accomplished the most gigantic undertaking given to any general in this war with a skill and ability which will be acknowledged in history as unsurpassed, if not unequalled. It gives me as much pleasure to record this in your favor as it would in favor of any living man, myself included."

The above correspondence with Sherman recalls the letters which were interchanged between them after General Grant's successes in the west. The general wrote to Sherman at that time: "What I want is to express my thanks to you and McPherson as the men to whom, above all others, I feel indebted for whatever I have had of success. How far your advice and assistance have been of help to me you know. How far your execution of whatever has been given you to do entitles you to the reward I am receiving, you cannot know as well as I. I feel all the gratitude this letter would express, giving it the most flattering construction." Sherman wrote a no less manly letter in reply. After insisting that General Grant assigned to his subordinates too large a share of merit, he went on to say: "I believe you to be as brave, patriotic and just as the great prototype, Washington; as unselfish, kind hearted and honest as a man should be, but the chief characteristic is the simple faith in success you have always manifested, which I can liken to nothing else than the faith a Christian has in the Saviour. \* \* \* I knew, wherever I was, that you thought of me, and if I got in a tight place you would help me out if alive." The noble sentiments expressed in this, and similar correspondence were three bright spots which served to relieve the gloomy picture of desolating war.

**School Election.**

The Board of County Commissioners did not rescind the order for the school election on the 10th, because the expense attached to it had already been incurred and nothing could be saved to the county now. However, it looks now like the people will not take interest enough in it to have any election.

**They Keep Coming.**

So many new tobacco men have been coming in during the last few days that we may possibly have overlooked mentioning some in our personal column. All the same the REFLECTOR extends every one of them a hearty welcome to Greenville. There are many clever young men among the tobacco boys and we are glad to see them in our midst.

**Goes to Kinston.**

Mr. G. P. Fleming left Monday evening on the south bound train for Kinston where he has gone to locate on the Kinston tobacco market. For two years Mr. Fleming has been connected with the firm of T. E. Roberts & Co. on this market and during that time he has filled different positions of trust on the Tobacco Board of Trade and a year ago he was elected President of the Boards which position he filled most creditably.

It is with deep regret that his many friends here both in and out of the tobacco trade give him up. It is Greenville's loss but Kinston's gain, for in George Fleming there are blended those priceless traits of character which constitute a high toned Christian gentleman. His influence will be felt for good wherever he goes and no one will associate with him long without feeling bettered by the contact. Always jolly, good natured and ready for any and all kinds of innocent amusement, when off of business duty, yet prompt and exact in his business dealings.
