THE COLONEL IN TEXAS.

GALVESTON, TEX., Aug. 3, 1897
 EDITOR REFLECTOR—I am sitting at 6 o'clock A. M. on third floor of the great Beach Hotel looking out on the beautiful Gulf of Mexico, and drinking in the delightful salt breeze.

I have met a great many people from all parts of Texas, and also from other States. Texas is a great State, vast in area and wonderful in resources. Fine looking men and women, clever, whole souled and daring, the very character of brave manliness, impressive, and I find such congenial to my temperament and feelings.

This is undoubtedly the country for brave, ambitious, determined young men. Men of character and push can succeed here.

Had I the time to spare I would spend a month looking this State over, especially the Waco and Dallas sections, which everybody says is the finest portion of the State.

There is as much variety in Texas as there can be found in any State in the union. The weather here is very, very hot and dry, and when you get out of the breeze it is not sure enough.

The Beach Hotel is the most delightful resort I ever saw. Every amusement that can be found is here.

Many men of vast wealth are in Texas and they are doing great good with their money. The best school facilities in the south are in Texas.

I had the pleasure of seeing E. A. Wilson, our old sheriff. He came to the hotel to see me and I recognized him by his walk before he came up where I was. He is the same old E. A. Wilson and talked of the old days in Pitt county with tears in his eyes. He wants to see the dear old North State again.

I was accented in the corridor of the hotel yesterday by a lady who came up to a crowd where I was talking. She was very glad to see me, but at first I could not think who she was, not expecting to find her here. She was Mrs. Myatt, formerly Miss Mattie Fowle, daughter of Gov. Fowle. It was a pleasant meeting indeed, for one North Carolinian is always glad to shake the hand of another Tar Heel.

I never forget the great State of Pitt and the samples of bright tobacco brought along with me. These samples have excited the admiration of all who have seen them. I have talked Pitt county and her tobacco more than any thing else. I was indebted to R. L. Smith, A. H. Critcher, G. M. Tucker and John Allen for the samples I have, and they have been handled by more people than any other part of their crop will be.

I have seen nothing in my travels yet that can down the Old North State and Pitt county.

I. A. Sugg.

Base Ball.

St. Louis, August 5—The Browns won the opening game from the Pittsburgs today. Lucid was given poor support, else the score would not have been so close. Tim Hurst was arrested after the game on a charge of attempt to kill for striking a man with a beer glass in Cincinnati yesterday. Score. St. Louis, 8; Pittsburg, 7.

Boston, August 5—The hitting of the Baltimores and the bunching of their hits won the game today. The visitors made more runs off Nichols than any other club has done this year. The Bostons had the unusual experience of having eighteen left on bases and were twice retired with the bases full. Doyle and Kelly led in the batting. Baltimore outplayed the Bostons at every point. Score. Boston, 4; Baltimore, 9.

Philadelphia, August 5—Philadelphia defeated New York today in a twelve inning game. The winning run was scored on La Joie's drive to left field, which Holmes dropped, allowing the man on third to score. One of the features of the game was Cooley's batting. Score. Philadelphia, 5; New York, 4.

Cincinnati, August 5—The Indians made their last appearance for the season here and were beaten by the Reds in a close and exciting game. Pickering, who was released by the Louisvilles, played right field for the visitors. Score. Cincinnati, 6; Cleveland, 4.

WATER WORKS PROPOSITION.

A Most Liberal Offer to the Town Council.

At the meeting of the Town Council, Thursday night, Mr. L. I. Moore submitted a proposition from a construction company to put in a complete system of water works in Greenville.

The company proposes to erect a stand pipe of 125,000 gallons capacity, place twenty five hydrants in different parts of the town, with a pressure of 40 pounds to the square inch guaranteeing a stream of water 50 feet high from any hydrant. The capacity of the pump to be one million gallons a day. The stand pipe will be supplemented by an artesian connection with the river, affording an inexhaustible supply in case of fire. The company also proposes to put in two public drinking fountains and also to furnish individuals with all the water desired for domestic purposes.

This complete water works system would be furnished to the town for an annual rental of \$2,000, and water would be furnished individuals at a rate not to exceed 50 cents per thousand gallons.

This would be a good thing for the town. Such a system of water works would save the town more than twice as much on insurance rates, to say nothing of other savings, as the rent would cost. As compared with towns which issue bonds and put in water works of their own the cost of operation and interest is more than double what this system would cost Greenville.

The Council appointed a special meeting for the next Thursday night to take the proposition under consideration.

The REFLECTOR believes that Greenville will not get a more favorable opportunity than this for a complete system of water works.

Excursion to Richmond.

An excursion will be run from Kingston to Richmond on the 17th. This will be the last excursion of the season in this section. The round trip fare from Greenville is only \$2.25. Tickets can be had at the store of J. A. Andrews. See announcement.

The REFLECTOR yesterday had V. J. Lee returning from Wilson when it should have been from New York, where he had been assisting H. M. Hardee in purchasing fall goods.

Died in the Flames.

Residents of Henrico, in the neighborhood of Malvern Hill, brought information to the court house yesterday concerning a frightful holocaust which occurred near the historic battle field Monday afternoon. In some manner the home of John Roberts, a farmer, caught fire, and was entirely consumed, and his whole family, consisting of a wife and two small children, lost their lives in the flames.

How the fire originated or how it happened that the three victims were unable to escape from the flames is not and probably never will be known. Roberts has not a very large farm, but he was at work in a field out of sight of the house, and therefore knew nothing of the horrible calamity that had befallen him and his until some time after the fire had concluded its deadly work.

When he finished his daily toil, Roberts, who has the respect of all who know him, shouldered his hoe and started homewards. He was horrified when he turned a corner to see, instead of his home, a mass of charred wood, and with quick pace and frantic manner he hurried to the spot, and tearing the timbers away with his hands, soon uncovered the charred bodies of his loved ones. He summoned assistance as quickly as possible, but naught could be done for the mother and children, as life was long since extinct. The only way that Roberts can account for the horrible accident is that his wife and children were asleep when the cabin ignited from the fire, which had been built for the preparation of supper. —Richmond Dispatch.

A Lady Shot While in Bed With Fever.

Miss Maggie Brown lives near Davidson. She has been sick in bed with fever for several weeks, and is in a very weak condition. Several days ago a serious and terrible accident occurred, which may cause her death. Mrs. Brown, her mother, went to change the quilt on the bed. In some way or other the quilt caught on a gun which was sitting in the corner by the bed. The gun fell, the hammer struck on a chair and the load was discharged in the girl's arm, hand and head. She had her hand up to her face at the time the gun went off. Her arm was shattered, one eye was put out and her fingers nearly shot off. Her condition is very critical. —Charlotte Observer.

In the summer the temperature of a cave near Decorah, Ia., is far below freezing, and from its walls icicles depend like stalactites. In the winter the temperature of the cave is like that of summer.

In St. Petersburg no person is allowed to ride a bicycle in the public streets until after he has passed an examination on the wheel before one of the cycling associations and obtained a permit from the proper municipal authority.

Got the Wrong Leg

A Georgia drummer had a customer whose name was Legg. The latter failed in business and the drummer who happened to be on hand at the time, telegraphed his firm: "Legg has broke." The firm placed the wrong construction on the telegram and replied: "Sorry. See a physician, and keep sober."
