JUST FOR FUN.

The straw hat is in its last throes.
 Shopkeepers are getting lots of gloves on hand.
 It's a hard matter for a blind man to seize an opportunity.
 Even the most ambitious aeronaut must occasionally experience a come down.
 Hoax—"Do you like your new tailor?" "Joax—"Well, he suits me about as well as any."
 Many people become strangers simply by becoming too well acquainted with each other.
 The Shock brothers are pitcher and catcher for a Kensington baseball club. Quite an electric battery.
 Enough is as good as a feast, but there isn't one man in a thousand who knows when he has enough.
 Never tell a woman that she looks well in a new gown. Tell her the new gown looks well on her. It is these nice distinctions that please the fair sex.
 Blebbs (at seashore)—"I haven't much money, and I feel awfully small among all these rich people." Slobbs—"And the longer you stay the shorter you'll be."
 For the information of those who are thinking of going to the Klondike it may be interesting to know that some miners have been working the rivers and creeks. It is said, however, that the most successful have been working a bluff.

WHAT GREENVILLE NEEDS

Is a Chamber of Commerce—One Should be Organized

EDITOR REFLECTOR—The town of Greenville has many advantages not possessed by neighboring towns, and yet our progress and improvements have not been satisfactory.

The fault lies not so much in the want of individual enterprise, as in the lack of united effort among our business men. The stagnation that has prevailed in all sections and in nearly every pursuit of life for several years is rapidly passing away, and there is a general belief that throughout the entire country there will be a healthy development in all industries.

To avail ourselves of the many advantages for investment of capital which our town and the surrounding county can offer, there ought to some union and concentration of the energy and intelligence of our business men. Practical results are best accomplished through practical effort, and to that end a Chamber of Commerce organized and controlled by the progressive and business men of our community can and will accomplish more good for Greenville and the country at large, than any other agency which can be established. Will not our citizens interest themselves in this matter and make it a success? A. T.

Let Us Have One

A correspondent today calls attention to the needs of a Chamber of Commerce in Greenville. The REFLECTOR fully agrees with him and would like to see the business people of the town take immediate action in this matter. A well managed Chamber of Commerce or Board of Trade can do more for the advancement of the town and community than could perhaps be accomplished in any other way. No town has ever achieved much in the way of attracting enterprises and capital without putting forth some organized effort and it looks like right now is a good time for Greenville to do something along this line.

New Firm at Falkland.

Mr. E. C. King and Dr. J. Morrill have associated together under the firm name of King & Morrill for conducting a mercantile business at Falkland. Mr. King has just been on a tour to the northern markets where he purchased a complete new line of general merchandise. He has had eight years experience the mercantile business and fully understands the tastes and needs of the people. The firm is composed of enterprising young men whose integrity and business qualities will insure success to their business.

Your Chance.

If business booms this fall the men who advertise will get the most of it, as they always do in good times or dull times. Those who are after their share of the business, and as much more as they can get, are now making their preparations to secure it. To advertise in the most effective, economical and expeditious manner they should secure the services of THE REFLECTOR.

Change of Firm.

Mr. W. R. Whichard, who was in the mercantile business at Whichard station, has sold the business to his son H. W. Whichard. The latter has just been on a trip north to purchase new goods to enlarge the stock.

There was a farmer had two sons,
 And these two sons were brothers;

 The other—well, it's hard, but still
 He looks a little "ratty."

MONDAY, AUGUST 28, 1897.

SLIPPING IN

There is a clause in the new Tariff law imposing a discriminating duty of 10 per cent. on foreign goods that come into the country over Canadian railways.

It is a clause that nobody in Congress would have sustained or voted for if it had been made the subject of debate. It is in every way detrimental and dangerous.

It was not in the bill as originally drawn. Whether it was actually in the bill as passed or was inserted afterwards nobody knows. Speaker Reed suggests that it was "slipped in."

Now, who "slipped in" a clause of so great consequence? How did he slip it in? Who paid him for slipping it in, and how much was he paid?

These are questions which Congress should diligently endeavor to resolve. Its task is easier because the only persons in the world benefitted by the clause are the men who control the Pacific Railroad "combine."

The important thing is to find out how such provisions are "slipped into" laws which Congress is passing, in order that such slipping in shall be stopped.

The country does not want its legislation made by "slipping in." It will not excuse Congress if that body fails to adopt measures making it impossible for rascals to buy of engrossing clerks and the like the laws that they cannot induce Congress itself to approve.

Ferret out the facts! Find out who are the rascals!—New York World.

These "slipping in" fellows in Congress must have been taking lessons from the last North Carolina Legislature. Or perhaps Senator Butler had been posting the engrossing clerks and telling them how his "reliables" down here at home fixed things.

For the first time in the history of the world a horse has paced over a mile track in less than two minutes. This feat was accomplished by Star Pointer, at Readville, Mass., yesterday, and was a grand triumph for horseflesh and the developing spirit of the turf. This now famous horse paced in the wonderful time of 1 minute 59 1/2 seconds, thereby eclipsing John R. Gentry's previous championship pacing record of 2 minutes and one half second by one and one-quarter seconds. Within only a little over half a decade the mile pacing record has been thus lowered from Direct's 1891 feat of 2 06, the successive champions being Hal Pointer, Mascot, Flying Jib, Robert J. and John R. Gentry.—Philadelphia Record.

The Reformers Have Made the Burden of the Farmer Doubly Heavy.

As sure as that fellow on his trip from Jerusalem to Jerico fell into the hands of thieves and robbers, just so sure have the taxpayers of North Carolina fallen into the hands of a set of extortioners. We have, "whereof the memory of a man runneth not to the contrary," had a law which compels a man to go to the list-taker and give in his property for taxation and swear to it. But these latter-day reformers and high tax advocates are wiser than the old law-makers. They now say that it is not right to take any man's oath in the matter of tax-listing, and to show how little they believe what tax-payers say, proceeded a few days ago, in the city of Raleigh, to raise the tax valuation of horses, sheep, mules and cows. They raised cows ten per cent., sheep thirty per cent., horses twenty per cent., and old mules forty-five per cent. If any tax payer of this county wants to know the tax value of his mule he can get it by adding 45 per cent. to what he swore the mule was worth on the first day of June. They say its only a little on each man. A little on your cow, a little on that blind mule, a little on that ewe lamb, and a little on that spotted heifer they say is so small you won't miss it. The people pay the bills while the reformers reform.—Lexington Dispatch.

But Little Danger From Lightning.

Writing on "The Needless Fear of Lightning," Edward W. Bok, in the September Ladies' Home Journal, says that "it will doubtless surprise the timid to know that only two hundred deaths a year occur on an average throughout this entire country from lightning, or one person in every three hundred and fifty thousand people. Now, in comparison, fifteen times as many people are killed each year by falling out of windows; over twice as many from being bitten by rattlesnakes, while twenty-five per cent. more are killed with "unloaded" pistols. More people are drowned around New York City alone every year than there are deaths from lightning all over the country. In fact, more people, by fifty per cent., are killed by being kicked by horses in New York City than die from lightning throughout the whole of the United States. The casualties of the South show that the dangers of being lynched and of being killed by lightning are about the same. The trolley-cars of our cities kill a far greater number of people than do the lightning-storms. Now, these are facts—they are strictly accurate and carefully computed.

Bands of Brothers

The Free Masons and the Odd Fellows are running a close race in this country so far as numerical preponderance is concerned. There are nearly a million of each. The Knights of Pythias are next in the list of fraternal organizations, the American Order of United Workmen coming next, and the Maccabees being a good fifth. It is believed that fully one half of the fourteen millions of voters in this country are enrolled in the fifty leading organizations of this nature.

These societies exert a force that has not perhaps been fully measured—in part social, in part educational, and in part benevolent. The last named feature has of late been greatly developed; and an order in which the strong do not help the weak, in which the care of the ailing and the

burial of the dead, is not looked after, is now the exception rather than the rule. We have not the figures before us, but it is well known that the yearly benefits disbursed by the various fraternal organizations is a towering sum. It can safely be placed at twenty million dollars. And every dollar goes where it is lawfully due or is greatly needed. Some of the societies have in fact almost turned life insurance into a science. Altogether they have won public confidence, and there are few who wish them ill.—Atlanta Journal.

Calls on His Party

The Populist leaders and office holders seem to think that they alone constitute and compose the Populist party. If any Democratic speaker or paper dares to criticize, or expose the rascality of any Populist leader or office holder, he at once raises a most pitiable howl and calls on his party to resent it as an attack on the entire Populist party!

There is a very great difference between the honest masses of the Populist party and its unprincipled leaders, who are merely seeking to advance their own personal interests. While promising all kinds of "relief" to the people, these Populist leaders seek to obtain "relief" only for themselves. And when one of them gets a good paying office he seems to think that it belongs to him forever and is his own private property!

The people cannot be fooled forever any they are finding out that they have obtained no "relief" whatever, even if the office holders have obtained "relief" and have become so "sleek and sassy."—Chatham Record.

The New York Journal of Commerce thinks the estimates of the amount of money farmers will make by the advance of wheat are in some cases rather exaggerated. Supposing the whole crop to be 550,000,000 bushel and that it is all sold at an advance last year of 30 cents, the gain would be but \$165,000,000. The gain over low price of several years ago is, indeed, very considerable, but it must be remembered that prices last fall were pretty well up and the gain over these latter prices is not so great as some persons suppose. Still, an average gain of 30 cents a bushel aggregates a very neat sum when calculated on a crop of half a billion bushels.

A Revolution From Fusionism Coming.

North Carolina has had a little
experience. Soon after the war
it passed through the terrible
ordeal of reconstruction and
carpet bag rule and the grand
old State suffered untold horrors,
until the native white men rose
up in their majesty and threw off
the yoke.

The State then entered upon
an era of great prosperity and its
politics was clean, statesmanlike,
until it fell upon the evil days of
Butlerism and fusion. Either
Populism of Republicanism were
bad enough single handed, but
when they combined, the poor
old State got the worst of both
and its sufferings have been ter-
rible.

There must be another politi-
cal revolution in North Carolina
and the indications are that it is
soon coming.—Richmond Times.

Snakes in the Collection

There was genuine activity at
the colored camp meeting at Latta
Park last night, and an activity
that shook the arbor and rattled
the benches, but not entirely
spiritual in its nature.

Some designing youths drop-
ped rubber snakes in the collec-
tion plate when the basket came
around. This was not noticed
until the deacons poured the
collection out on the table. The
snakes wriggled around as if
alive and it looked for some
minutes as if there would be a
genuine panic in the camp. The
excitement did not subside for
quite a while.—Charlotte News.

The News and Observer says
over 1,000 new applications for
pensions have been received
within the last month by the
State auditor. There are already
over 5,000 pensioners on the roll.
If a majority of the new appli-
cants are added, as probably will
be done when the pension board
meet next month, the amount go-
ing to each pensioner will be very
materially decreased from what it
has been heretofore.

This hearty talk among the
newspapers of making a straight
fight next year and making the
issue the record of venality, cor-
ruption and incompetence of
Fusion rule, does one good. It
is, as we have contended always,
the only way to win and had this
plan been pursued last year
North Carolina would not have
been lost to Democracy.—Lin-
coln Journal.

The most curious thing about
the insane rush to Alaska is that
the proportion of fools in the rest
of the world does not seem to be
materially decreased.—New York

PERSONAL.

Some Coming, Some Going.

Dr. W. H. Cobb returned to Whitakers today.

Dr. H. O. Hyatt came over from Kinston this morning.

Her friends at home will regret to learn that Miss Sallie Lipscomb is sick at Raleigh.

Mrs. M. D. Higgs left this morning for Bait more to purchase her fall stock of millinery.

R. E. Lee, of Wilson, came in Sunday morning on his bicycle and spent the day with his mother, Mrs. S. D. Lee.

Harry P. Harding left Sunday for Ormondsville where he takes charge of the high school which opened today.

W. A. White and wife, of Rowan county are visiting the family of S. P. Elwi, father of Mrs. White, in Beaver Dam township. Mr. White was in Greenville today and paid the REFLECTOR a call.

Only Two

The Register of Deeds issued only two marriage licenses last week, one for whites and one for colored. The whites were D. F. Thomas and Lilly Bailey.

The Top Figure

The Greenville Warehouse had a big sale today and struck the highest figure that the market has reached this season, making a sale for D. W. Clark at \$40.

Military Ball.

The REFLECTOR acknowledges an invitation to the annual ball of the Kinston Division Naval Reserves, on Wednesday, Sept. 8th. Capt. J. T. Smith of the Pitt County Rifles is one of the honorary managers.

What the Greenville Does.

Today the Greenville Warehouse sold a load of tobacco for W. A. Manning at \$20, \$13.50, \$8.75, \$10.50, \$14, \$25 and \$34, a clean average of \$18.75. And for George Vanderford at \$22, \$27, \$15.50, \$13.50, \$17, \$5.80, \$6 and \$9. This is the way the Greenville Warehouse does, looks out for those who sell on its floor and gets the highest market price for their tobacco. EVANS, CRITCHER & Co.

Big Breaks—Prices Up

This week started out fine on tobacco row, and the warehouses had one of the best Monday sales that have yet taken place. The offerings aggregated 60,000 pounds, and the bulls seemed to take possession of the market and toss prices up. We heard people say they had not seen tobacco sell so well in two years. One farmer wished that he had had every pound of his crop on that sale. Prices took a range well above any figures previously reached this season.

Kinston has had a new bale of cotton.

The Sanford Express last week began its twelfth year. It is an ably edited paper.

The Durham Daily Sun has entered its eighteenth volume. Editor Robinson is making the Sun one of the brightest afternoon papers in the State.
