HE LACKS INFORMATION.

And Prints Inaccurate Market Reports

The Danville Tobacco Journal is giving notes from correspondents on the various tobacco markets, under the head of "Greenville, N. C." dated Aug. 21, prints the following "reported by E. L. Morgan"

"Farmers very busy cutting and curing this week. Offerings with us so far have been mostly first primings, prices for which have been satisfactory to seller. The third warehouse here is being built and will be completed soon. With fine crops, ample facilities for handling and a good corps of buyers, we are bound to have a good market."

If other reports in the Journal are as inaccurate as this, it is not giving its readers information that is worth a cent. In the first place there is no E. L. Morgan in Greenville. And Greenville had already built her fourth warehouse more than two years ago, and every one of them is doing a big business. If the editor of the Journal is no better posted on one of the leading markets in his neighboring State he should not presume to publish a trade paper.

EDITORIAL NOTES.

Thirty persons were killed and 185 wounded in a Colorado railroad wreck on Friday.

A horrible butchery occurred near Hazleton, Pa., when the Sheriff ordered a company of deputies to fire on a band of striking miners, killing 23 and wounding 40 more. The affair caused great excitement and much indignation against the Sheriff.

The government expert physician sent to Ocean Springs, Miss., declares the cases of fever there to be yellow fever, but of a mild type. The yellow flag is raised in New Orleans also, there being several suspicious cases in that city.

FOURTH PARTY

SWAN QUARTER, N. C., Sept 10 '97
 EDITOR OF REFLECTOR:—The news has come down here that there is to be a fourth party. They say that this party is to be led by Senator Butler, ex-Judge Avery, Judge Clark, Gov. Russell and his "niggers."

There is nothing said about their taking Josephus Daniels, but it is to be hoped they will get him too. Their invitation extended to the worst elements of all parties, is: "Come unto us and we will give you rest—and an office." It is said they are against rail roads, against capital, against labor, against the earth, they say, "the old machine is out of fix any how." (Wonder if any body thinks that quartet could fix it?) In fact it is said the motto of these leaders is, "agin everything but us."

We don't like any such platform down here and don't think it would amount to much with us, but don't how it would strike the ignorant people up in the Western part of the State—it might do some harm up there and we want you to use your influence against it. If you will we know something will drop—we swear by the REFLECTOR here.

Give it to "em" Dave!

SIGMA TAU.

[As is the past our friend will find the REFLECTOR ready to hit anything that is not Democratic.—ED]

The design of a monument to the late Senator Z. B. Vance, at Asheville, N. C., has been decided upon. It will be a shaft about 72 feet high, the core of which will be of brick and the surface of granite. It will stand in the public square in front of the Court House.—Baltimore Sun.

Why She Married Him.

It was their first quarrel, says The Boston Post.

"Well, I don't see how I came to marry you," she snapped. "Same here," he returned. "What ever could I see in you," she continued, bitterly. "All men are the same, as lovers, but as husbands, it's different, you know."

"Oh, ho, all men are the same as lovers. Then you had a lot of lovers? Thanks for your extraordinary candor! I always thought you were a flirt, but now you have spoken the words out of your own mouth."

"Out of my own mouth! Can a person speak with some one else's mouth, you ninny? Why don't you try to be logical, as well as insulting? I suppose it's too much to expect from one whose brains are in his mustache, or in his clothes, or in his pretty feet. Oh, don't whine, I know your faults, to a dot."

"Well, since you do," he added, "I will be frank with you and say that I married you to give you the opportunity to tell me my faults, so that I could in time approach your own angelic standard of perfection."

"Indeed, and I married you because you were such an expert at repairing a bicycle tire. Don't you remember how you carried your jiffy outfit around with you? You were so expert!"

"You used to tell me you married me because you loved me."

"What a silly answer that was!"

"Then you are a liar, too, eh?"

"I say I married you because you were such an expert tire repairer. When I quit riding the bicycle, I'll have no more use for you, do you hear? Go out in the shed and clean my wheel and let me hear no more out of you for a week!"

Living at Home.

If the people of the State will live at home, raise their own supplies, use the products of their own manufacture and live with a reasonable economy, they can live well in good times or in hard times, and can be independent of the rest of the world. We can raise every bushel of corn and wheat, and every pound of meat that we consume and can raise it more economically than we can buy it. If we raise our own food, the money that comes in from cotton, tobacco and other crops and products is clear money, and will constitute an annual surplus that will in time make the State rich and enable us to develop her great resources. We now manufacture into yarn nearly every bale of cotton that we produce and a large part of our enormous tobacco crop is made into the finished product and sold in the State. Roller mills are dotting the country and we are grinding into flour practically all our wheat crop. We are manufacturing a large amount of furniture now and there are numerous other industries springing up in the State.

North Carolina is making gratifying progress along these lines and the outlook is encouraging.—Charlotte News.

Cascarets stimulate liver, kidney and bowels. Never sicken, weaken or gripe. 10c.

Hester's Cotton Report.

New Orleans, Sept. 3.—Secretary Hester's New Orleans cotton exchange annual report was issued to day. Mr. Hester puts the commercial value of the crop at \$36 76 per bale, against \$41.09 last year, and \$30 in 1894-'95 and the total value \$321,925,000, against \$294,045,000 last year, nearly \$28,000,000 more than for the period last year. The past crop cost growers less than any yet produced.

The total spindles in the South is 3,851,911, an increase of 158,753. The total number of mills is 482, an increase of 7. Mr. Hester says that while the season had not been favorable to American mills, final results indicate the extent of the depression has been decidedly overstated in the public prints and otherwise. The takings, North and South, during the past year, have been exceeded but twice in the previous seven years. The mills of the North have worked up as much cotton, while those of the South used 138,000 bales more than last year. Imports of foreign cotton amounted to the equivalent of 106,000 bales. Secretary Hester places the world's visible supply of cotton to day at 984,000 bales, against 1,035,000 last year. Of this 771,000 is American against 803,000 last year. The total visible supply shows a decrease compared with last year of 333,000.

Anything for a Change

Observer Olen Warren, up at the weather station, is in favor of discontinuing reports until some kind of a change takes place. Pretty good idea. They have been coming almost the same words for so long that they are growing monotonous.

THE FIREMEN.

Make Preparation to Receive the Steamer.

There was a large attendance of members at the regular meeting of Hope Fire Company Monday night, and three new members were received.

Chief A. J. Griffin announced that he had been noticed by the manufacturers that the steam fire engine was shipped on the 10th, and that as soon as it arrived an expert would be sent to put it up and test it. A special meeting of the company was ordered at the time the engine is tested.

W. I. Pender was elected Chief Engineer; R. L. Humber, Assistant Engineer; H. C. Hooker, Fireman.

After the adjournment of the meeting two of the new members, John M. Cheek and Paul Metrick, furnished refreshments to the company.

The engine arrived on today's freight.
