### Are You Always Tired?

WINDSON, N. C., May 24, '97.

Five years ago I was completely run down from general debility. My liver didn't act, I had indigestion, I was just as nervous as I could be, and was always tired. The least exertion would bring on shortness of breath and it was a drag to me to keep up. A friend of mine who had been cured by using Mrs. Joe Person's Remedy told me to take it. I bought 1/2 dozen bottles and took it just because I knew I would have to try something. I suffered greatly from wakefulness, would lay awake often the greater part of the night, unable to rest or sleep. When I was on the second bottle I got so I could sleep, and when I had finished the six bottles I WAS WELL. Indigestion cured, that shortness of breath cured, and I feel like another person. Mrs. Joe Person's Remedy is a wonderful medicine. It did me more good than anything I ever took in my life.

### Shelling the Forts.

Washington, July 11, 4 P. M.—Gen. Shafter cables the war department that only the artillery is in action to-day. The fire is directed at the forts in order to reduce them so the fleet can get in the entrance to the harbor. He states that the infantry is not being used and that the guns are directed chiefly against Morro and at Socapa fortifications at the entrance to the harbor, but a considerable portion of the fire is being sent against the Spaniards in the rifle pits and trenches. Gen. Shafter says that the artilleries are fully protected and have the exact range and are doing good execution.

The General also reports that Captain Roswell, of the second infantry and private Chas. Jenks were both killed, and six troopers wounded in yesterday's bombardment.

### Monday's Fighting

Sampson's ships threw shells into Santiago all Monday afternoon. It had been arranged for a simultaneous firing by ships and land artillery, beginning at 4 p. m., but a heavy storm interfered with the telephone signal work between the army and navy. However, at 4:45, the rumble of artillery on the American lines was heard, and immediately the Brooklyn opened fire, followed by the Texas and Indiana.

The firing lasted an hour. It is impossible to estimate the damage done by the ships, as the hills obstructed the view.

Shortly after the Brooklyn opened fire a danger flag was displayed above Morro Castle.

The American loss was slight. The Spanish loss is unknown.

### Preparing for Prisoners

Annapolis, Md., July 10.—Captain P. H. Cooper, superintendent of the Naval Academy, has completed his preparations for the care of the eighty Spanish officers, including Admiral Cervera, recently captured off Santiago. He announced today that he expected the arrival of forty of the prisoners tomorrow, and that the remainder would reach here within a week.

It is probable that all will be put on their parole and allowed the fullest use of the beautiful grounds for promenades and other purposes.

The buildings to be occupied by them are known as Goldsborough Row, and lie on the southeastern section of the Academy, between the old mess hall and the gymnasium.

Each room will quarter two officers, and each officer will have a bed to himself. There are wardrobes and closets for their clothes in each room, chairs and a large square table in the center of the room, and with a hanging lamp over it, with an improved burner. Waiters will attend to the rooms and take care of the apartments.

The prisoners will be under the patrol of a marine guard of forty. For the present their commissary will be Steward Thomas Evans. Paymaster Loomis, who was ordered away this week to Portsmouth, as commissary for the prisoners there is expected to return here and assume the management of the food supply of the Spanish officers.

It is a singular coincidence that the Spanish naval officers should be quartered in the very alma mater of the men who gave them so signal a defeat and made them prisoners. Amongst those who recently occupied the quarters are Lieutenants Hobson and Blue and Cadets Powell and Hart. Hobson's apartments adjoin the Spanish quarters; and, as the head of the department of naval construction, he has much valuable naval data there.

### WORK OF COMMISSIONERS

At the July meeting of the Board of County Commissioners the amount allowed for paupers was \$119; for Superintendent Health \$33.33; County Home \$163.69; bridges and ferry \$79.32; tax lists \$384.90; Court House \$162; jail \$76.05; Commissioners \$13.60; Sundries \$23.15; Swift Creek and Contentnea stock law territory \$15.50.

### On American Sail

The steamers St. Louis and Harvard have reached Portsmouth, N. H., with 1,200 of the Spanish prisoners captured in the destruction of Cervera's fleet at Santiago. Camara and eighty officers were among the prisoners. These officers were taken to Annapolis to be kept there in quarters in the naval academy grounds.

Much coin has been recovered from the wreck of the Teresa, the Spanish flagship, and was turned over to Sampson. Over 30,000 silver pesetas have been found.

TUESDAY, JULY 12 1898.

WASHINGTON LETTER

(From our regular Correspondent, Washington, D. C., July 11, 1898)

It must have been noticed by all observant readers of war news that the victories scheduled in advance have invariably failed to be pulled off on schedule time...

Although that bluff about sending a fleet to Spain has accomplished its purpose and turned Camara's fleet back towards home, it is still being kept up...

Gen. Miles has gone to Santigo. He did not carry his private car with its porcelain bath tub, but has his headquarters in a floating palace...

Very few Senators and Representatives remain in Washington. The most of the latter have gone to their districts to look after their "fences"...

ocratic Senators that their constitutional objections to the House bill allowing volunteer soldiers in camp to vote for Congressmen were such that they would feel justified in resorting to any sort of tactics to prevent the bill being passed by the Senate...

Leaving war appropriation out entirely, the other appropriations made at the session of Congress just closed, exceed the total of any previous session. The following statement is made by Representative Savers, of Texas, the ranking Democratic member of the House Committee on Appropriations...

Congress was too anxious to adjourn after the Hawaiian annexation resolution was adopted to heed Senator Morgan when he said: "There is absolutely no necessity for an adjournment at this time; it is a hasty, improvident, and dangerous step..."

The reports of the Senate Committee on claims, which investigated by instructions of a Senate Resolution, the disposition of the money paid to the Southern Methodist Book concern for a war claim, was not intended to be a humorous document, but many have so regarded it...

Bounty for War Ship Sunk.

No glory alone accrues to the men of Admiral Sampson's command for the destruction of Cerbera's fleet, but a considerable amount of hard cash. For every man on the Spanish warships at the time of the attack or sailors receive \$100 bounty, in accordance

with section 4635 of the Revised Statutes of the United States, which says:

"A bounty shall be paid by the United States for each person on board any ship or vessel of war belonging to an enemy at the commencement of an engagement which is sunk or otherwise destroyed in such engagement by any ship or vessel belonging to the United States, or which it may be necessary to destroy in consequence of injuries sustained in action, of \$100 if the enemy's vessels was of inferior force, and of \$200 if of equal or superior force; to be divided among the officers and crew in the same manner as prize money."

If there were 1,700 men on Cerbera's ships (which presented a force inferior to the Americans) the bounty will be somewhat more than \$170,000, which is divided in the same manner as prize money 1-20 to the commanding officer of the fleet, 1-50 to the commanding officer of a division of the fleet, 1-100 to the fleet captain and 1-10 of each vessel's share to the captain of that vessel...

If it appears that any other of the Spanish vessels were attacked and destroyed by any of our vessels inferior in fighting power, the award in such case will be \$200 for each man aboard those destroyed ships also, and it may be that the final bounty will be largely in excess of \$170,000.—New York Sun.

VALUE OF THE EPISTLES.

"Part of the difference in form between the teaching of Christ and that of the Apostle comes from the fact that St. Paul preached the gospel along the lines of his own experience," says The Living Church (P. M.) of Chicago.

Old Human Nature's Rebirth.

"Mr. Moody thinks that when he was born of the spirit he 'got a new nature,' and one entirely different from that with which he came into the world. The evidence of it he finds in the new desires and the new directions of his life. We suspect," says the Universalist Leader of Boston and Chicago, "that if Mr. Moody should take a careful inventory of the faculties and powers that make up his 'nature' he would find them to be precisely the same that he had before his conversion."
