LOCAL NOTES AND TOBACCO JOTTINGS

A few years ago Eastern North Carolina was known as the "New Golden Belt." Today it is known as the bright tobacco belt of America.

The Greenville tobacco market has sold about 30 per cent more tobacco to date than was sold for the same period last year. With five warehouses and on one day 1,500 piles of tobacco on the market, there has not yet been a block sale.

Greenville is the centre of the tobacco markets of the east. It sells more bright tobacco than any of them. It is backed up by the best farming country in the State and with ample railroad and water transportation, live, active, energetic men, she bids fair in a few years to fling her banner to the breeze as the queen city of the garden spot of North Carolina. The soil of eastern North Carolina is peculiarly adapted to the growth of fine cigarette tobacco and bright wrappers. If our people will look carefully after this crop at the right time, a great deal of the nondescript stuff that is made every year can be avoided. I am unalterably of the opinion after considerable investigation that fertilizing with stable manure is not profitable, because if you should fail to make wrappers, a nondescript strip is made instead. It grows tobacco too heavy and coarse, except for wrappers, and experience teaches us that a wrapper crop hits about one year in seven. From the information I get from successful farmers, poor or rather medium land is best for tobacco with a liberal application of some good brand of fertilizers, cultivated on the intensive system and cured a pea green. In three cases out of four the crop will be profitable.

Too rich land will not do for tobacco. Experience, the best school, has taught us all that tobacco does not do well on rich land. Better plant corn or some other crop. Build up your poor land by planting it in tobacco and alternate, don't plant the same land but let it grow up in weeds and in November turn under, break again in January or February and by the time you get ready to plant your tobacco your land is in good condition, the vegetable matter decomposed and the hard dress pulverized.

Now is the time to begin to look after these matters. Don't put it off but the land you expect to plant in tobacco next year be sure to give it one thorough breaking before January.

The War Not Over

Montgomery, Ala., September 12.—The Advertiser will tomorrow print the following is a portion of an interview with General Joseph Wheeler and state that the general was in the presence of three gentlemen, one of whom is Hon. Samuel Blackwell, when talking to the reporter:

"I do not believe the war is over by any means; neither does President McKinley, who told me personally he had not faith that the peace commission would settle the differences existing with Spain over the Philippines. The Spanish claim that the battles at Manila were fought after the protocol was signed, and on these grounds will refuse to give up the islands."

Continuing, General Wheeler said: "Spain will want us to give up the Philippines, and," laying emphasis here, "we will never do that. I am going back to duty, and really expect to be called into action again."

When a man isn't willing to practice what he preaches it's about time for him to give up preaching.

THIS DEMOCRAT IS WISE

CAROLINA TOWNSHIP, Sept. 13, 1898.

EDITOR REFLECTOR: I do not want to appear officious, and as I have had my "say" early in the campaign about the kind of candidates I think we need, and have warned my Democratic friends of the danger of having too many names before the convention, perhaps it would be best for me to keep silent now, but I would like to have space enough to endorse what "One of Them" said in the REFLECTOR of the 8th inst., and also your remarks in regard to the same. I hope and believe there are many just such in the county as this one, and I for one do not wish to say a harsh or unkind word about any of them. No indeed! I have too much pity, sympathy and respect for them to wound them in the least. If they have been led to see their error, I have no doubt they will be sufficiently punished in repenting for it. Then let us speak kindly and encouragingly to all such to come back and help us to redeem our dear old county from (as "One of Them" calls it) Skinnerism and negroism.

Now I do not wish to be misunderstood, I only have kind words and sympathy for the honest men who have been misguided in this matter by the leaders, but, as for the leaders, the harsher the words spoken, and the harder the hits given, the broader grow the smiles on my face. Yes, I am harder put to my wits and to find words to express my contempt for that class of men who, holding places of trust and profit which we gave them, have used their money and influence to draw honest and unsuspecting men into line with their worst enemies than any other class. I have no sympathy or condolence for them, and have not even an invitation for them to come back. No, let them go to their own place, (the Republican party) for they will do us less harm there than they will among us. But for the honest men who are not holding or seeking office, who left us hoping and believing they would get the reforms promised them, and have been so badly deceived, we bid a hearty welcome home again.

And now let me renew my warning to our Democratic friends, not to take aspirants for office into consideration on the 24th inst., but let the office seek the man. Do not think or say, when you have found the right man for a place, he will not accept; for I tell you the time has come, and the condition of the country is such, that true patriots cannot afford to say, "I will not." Necessity will compel him to say, I'll serve my country. I think the ticket named in the REFLECTOR as "the winning ticket" will give general satisfaction in this section.

DEMOCRAT.

INTENSE SUFFERING FROM DYSPEPSIA AND STOMACH TROUBLE.

Instantly Relieved and Permanently by Stuart's Dyspepsia Tablets.

A New Discovery. But not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: The patient was a man who had suffered to my knowledge for years with dyspepsia. Everything he ate seemed to sour and create acid and gases in the stomach; he had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart become affected, causing palpitation and sleeplessness at night.

I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a fifty cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given and after he had used four boxes he was to all appearances fully cured.

There was no more acidity or sour watery risings, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, healthy flesh.

Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores yet I consider them a most valuable addition to any

physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but vegetable and fruit essences, pure pepsin and Golden Seal.

Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach however slight or severe.

Stuart's Dyspepsia Tablets are made by the Stuart Co. of Marshall, Mich., and sold by druggists everywhere at fifty cents per package.

Little book on stomach diseases mailed free, address Stuart Co., Marshall, Mich.

Does it Pay to save corn fodder? This is a question our farmers should consider. We are of the opinion that it does not. Our experience is that it costs about \$10. a ton to save corn fodder while the cost of good hay is about \$5.00 a ton. Some of the best farmers in Northampton agree with us in this opinion. Besides the greater cost of the corn fodder our farmers should take into consideration the damage done the corn by pulling the fodder from the stalks. The successful man in any business or occupation are those who give their work special study, and master the details.—Rich Square Patron and Gleaned.

Mr. McBride Holt Says:

Iraban, N. C. July 16, '97.

Oneida Cotton Mills:

About two and a half years ago my little boy about four years, and my little girl about two years, each had an enlargement of the glands about the ears. The trouble appearing on each about the same time, I was inclined to think it mumps, but soon observing to the contrary, I called in the doctor, who said the trouble came from colds, prescribing accordingly, yet swelling continued to grow, until each had to hold or the lance, the little boy having been lanced in three places, and at three times, his face at times, looking alarming. The nature of the trouble was termed one thing by one and another thing by another. This however, did not concern me, as I was looking for a cure, and Mrs. Joe Person's Remedy having been called to my attention so favorably. I dropped the treatment from the doctor and commenced to use Mrs. Joe Person's Remedy. To say that the results obtained have been satisfactory is putting it in mild terms, the children, and especially the little boy being entirely well, yet wearing the scars that will ever keep fresh in my memory the merits of Mrs. Joe Person's Remedy.
