DEMOCRATS AT BETHEL

It has been a long time since we had
the pleasure of attending such an en-
thusiastic Democratic meeting at
Bethel as was had here on last Friday.
By appointment all the county candi-
dates were present and it was a field
day for Democracy here.

The next Clerk of the Court, D. C.
Moore, who is now chairman of the
township committee, introduced as the
first speaker of the day J. L. Flem-
ing Esq., of Greenville. Mr. Moore
referred in his introduction to the fact
that Mr. Fleming was not a candidate
but was in the campaign purely from
patriotic motives and was deserving of
the highest consideration for neglecting
his business and doing this work with-
out reward or hope of reward except to
aid in establishing good government
again in the county and in the State.
Mr. Fleming in his speech paid a well
deserved compliment to the present
county candidates, stating truthfully
that it was one of the best tickets ever
nominated in the county. He reviewed
the history of the Republican party
in the years 1868 and 1869, the work of
the fusion party since its organization,
and the present standing of the move-
ment. He gave some telling hits and
if he continues with the candidates
will do much to awaken the people to
the evils which are now threatening
us. The applause which greeted
his utterances showed that he had the
ear of the people.

The township and county candi-
dates were introduced by Mr. Moore,
each one simply announcing in a few
pleasant words his candidacy, until the
Legislative ticket was reached.

Mr. Barnhill, the first of the Leg-
islative candidates to speak, made a
telling speech in which he dwelt espe-
cially upon the record of the fusionists
in creating offices and then raising
taxes so as to get the money to pay
them. His speech was well received.

Mr. W. J. Nicolls was then intro-
duced and in well chosen words he
showed how promises had been made
only to be broken by the Republicans
and fusionists and emphasized the fact
that the white men paid the taxes and
should rule the country, and the crowd
was with him in this. He is a prom-
ising young man and we predict that he
will make a useful member of the next
Legislature.

Then Senator F. G. James was in-
troduced and all that is necessary to say
about him is that he did as he always
does, said exactly the right thing in the
right way and pleased every body.
He is a strong man and it would be a
disgrace to the county to be represent-
ed in the Senate by a man at totally
unfit as the man is who is reported to
be the fusion nominee for this place.

Mr. A. L. Blow the chairman of the
county Democratic Executive Commit-
tee was present and being called for

replied in words that will tell on the
8th of November.

No man in Pitt county knows more
about it than A. L. Blow and he has
been active in every campaign for
years. It was a real pleasure to hear
him on last Friday.

It the speeches and work done here
is a fair sample of what this canvass
is going to be old Pitt county will be
redeemed and once more take the
proud place among the counties which
she held a few years ago.

Bright Jewels Exercises

All of us were children once, and
there are none who do not look back
with pleasure upon the happy hours of
childhood. The grown up people are
always interested in what the children
do, hence it was as expected that the
Methodist church was crowded Sunday
night to witness the exercises by the
Bright Jewels society. The exercises
were very interesting and each child
rendered the part undertaken with
much credit.

Following is the programme as
given:

The fusion candidates are now making a canvass of the county and people are beginning to ask who is going to be on their ticket?

They do so much turning and twisting about that their slate is hard to keep up with. Since their conventions back room committee meetings have brought out two different men for the Senate.

First J. E. Boyd was named, then he came down and R. W. Ward was put up. When asked about it Ward said he could not say whether he would remain up or not.

Now it is said that T. H. Langley, one of their nominees for County Commissioner, is down and no one has been put up in his place.

There are some rumors that right on the eve of the election a negro will be put on to complete the ticket. Is this true? Put this question to their speakers and make them tell who is to be on their ticket.

White men, beware how you vote for any such combination as the fusion crowd represent. If you know what you are doing, and are interested in good government, and favor white supremacy, then cast your vote for the Democratic ticket.

NEW YORK FIRE ADJUSTERS.

How They Learn of Losses and the Methods They Pursue.

Men whose faces have long been familiar to the reporters at police headquarters hasten through Mulberry street to the steps leading to the basement of the big, white building of the central office about 6 o'clock each morning. The door swings on its hinges and the men disappear. They turn to the left in the dark passageway, and a second turn in the same direction brings them into the little room outside the telegraph office, in which are displayed as soon as received the slips from the various police stations and fire headquarters, announcing in skeleton form the news of the night.

The men care nothing about the brief announcements of murders, suicides, thefts and the other evidences of criminology. What they are after are the slips which describe the fires of the night. They are fire adjusters, these early visitors, and it is a unique business which they have fostered and developed. They are not attached to any insurance company, yet by years of close attention to business they are recognized as experts, and as such are called frequently into court to testify in arson trials.

Who originated the business nobody seems to know, but there is a tradition to the effect that more than a generation ago a man whose home had been damaged by fire had some difficulty in collecting his insurance. He was quick to recognize the plight of others placed in a similar predicament, and, being aggressive, he determined to act as an intermediary in the matter of settling fire losses, depending on a percentage fee for his trouble.

Other men entered the field from time to time. At this time more than a score of shrewd, observant men are engaged in adjusting fire losses. They do not like to describe their methods. The field is limited even for a city as large as New York, and if more men should engage in the business the receipts would be less for each individual. In brief, however, they go about their work much in the following manner: The round up of a night may be a dozen fires. Each slip states the number of the alarm box, when received, cause of the fire, if known; damage estimated and if insured. The men divide the work of the morning as best they can. By 7 o'clock the little band has scattered, but later other adjusters arrive and take up the claims as fast as they are recorded.

It is a notable fact that many persons who suffer losses by fire, especially in the lower east side of town, exaggerate the damage done almost invariably, but the fire adjuster, with his years of training to guide him, is quick to make an impartial appraisal. Arrived at the scene of the fire, he soon learns the names of the persons insured and the titles of the companies insuring them. He explains the object of his visit, and the insured, being anxious to have the loss settled as speedily as possible, is only too willing to consent to pay the adjuster's fee. The companies, too, are ready to accept the appraisal, knowing from experience that the adjusters are experts in their business and will see that justice is done to the several contracting parties.

As a rule the adjusters prefer to pass upon the damage done by large fires. The small ones are troublesome, and a clerk from the insurance company can adjust them easily. —New York Commercial

Advertising must be done as sensibly and carefully as any other part of a business. Nothing is more disappointing than careless, neglected, half-done advertising. It is extremely unreasonable to give less attention to the advertising than to any other department of a business and yet expect the biggest results of all from it.—Lockport (N. Y.) Journal.

Can It be True?

It has been reported to The Journal that Mr. Sam Vance, chairman of the Republican executive committee of Forsyth county, and deputy Clerk of the Superior Court under Mr. N. S. Wilson, a most efficient and popular officer, stated last night that "the reason negroes held offices in Eastern North Carolina, was because the white people there were no better than negroes."—Winst Journal.

White men of Pitt county, what do you think of this? A Republican says you are no better than negroes, and what he says is sanctioned by his party. Fusion is fixed up just to keep the negro party in power, and any white man in Pitt county who votes a fusion ticket accepts the Republican statement that he is "no better than a negro." White men, will you allow the negro to insult you and then go vote for them?
