WASHINGTON LETTER.

From Our Regular Correspondent.

Washington, D.C., April 14, '99

It is regrettable that Congress is not in session, so that the democrats could inject sufficient ginger into Mr. McKinley to make him call Germany down as they made him call Spain down a year ago. The people are stirred to deepest indignation by the news that German treachery in Samoa has been responsible for the ambushing of a small detachment of American and English marines by 800 natives and the killing of two lieutenants, one American and one English, one American Ensign, and four marines and the administration is doing just as it was doing a year ago—waiting. Germany has deserved a sharp call down from this government four or five times since the war with Spain began, but in every instance the administration has allowed itself to be placated with a little soft soap from the German Ambassador. This Samoan business has aroused the people, and action is demanded. Senator Stewart voiced public sentiment when he said: "Does Germany want to fight? If so, she may be accommodated. We are a peaceful people, but we do not permit others to go around with chips on their shoulders." And Representative Hull, of Iowa, a republican, said: "In my section the feeling has been strong against Germany for six months. The people believe that she was hostile to us in the war with Spain. The people are in such temper that they will not permit any trifling or hedging on the part of this government." The time has come when the mind of the German Emperor must be cleared in an effective manner of the idea that this country is afraid of him.

War Department officials are at last convinced that peace in the Philippines is still a long ways off, and the administration is beginning to realize that the islands were not a bargain at \$20,000,000, and that we will pay the money a long time before we get possession of the property, such as it is. When Aguinaldo's capital was taken it was announced by administration officials that the fighting was all over, yet during the present week there has been almost continuous fighting over there, and our troops didn't have to do all the attacking, either. Speaking to several army officers, Gen. Shafter said: "Gen. Lawton and his men are achieving much success so far as they go. The fighting against

the Filipinos, however, is like the brushing away of flies; the moment the brushing is stopped they come back. The Filipinos are bound to give in eventually, but I believe it is a much more serious task to subdue them than most people think. Another army officer said, after noting the resemblance of Gen. Lawton's campaign to those against the Apache Indians: "The Filipinos will get tired of the chase sooner than the American Indians did, and after a few years of attempting to keep up a fight against the authority of the United States the insurgents will disappear or surrender." That's a nice thing to contemplate isn't it? Pay \$20,000,000 and thousands of good American lives for islands which we will get complete possession of in a few years, and will not have any use for after we get them.

Gen. Shafter has had critics in plenty ever since the charge was made and never fully disproven that he had "funked" in the Santiago campaign and that he would have made a mess of the whole business if Gen. Joe Wheeler and others had not prevented, but his testimony regarding the canned "roast" beef brought more harsh criticism than anything he had previously said or done. In the face of the evidence of nine out of every ten witnesses who have testified that the stuff was unfit to eat, Shafter said it was good and that he ate it every day and enjoyed it. Either, he, overdid, the thing in his testimony or he was furnished with a different sort of canned "roast" beef from that furnished the rest of the army. How his testimony was received at the White House may be judged from the fact that he was the guest of honor at a dinner given by Mr. McKinley, before he left town, and was assured that he would be one of the two additional major generals that the army will be entitled to under the army reorganization act.

Mr. McKinley's selection of Mr. E. Bartlett Tripp, of South Dakota who was minister to Austria under the Cleveland administration, to represent the United States on the international Commission that will endeavor to straighten out the Samoan tangle, was disappointing to a number of republicans who would like to have secured the plum. Mr. McKinley is no novice in the game of policies. He got elected by the support, directly or indirectly of gold democrats, and he is playing for the same support next year. Mr. Tripp is a gold democrat; besides, he is a near relative, by marriage of Senator Davis, of Minnesota, who is chairman of the Senate Committee on Foreign Relations.

To Cure Constipation Forever. Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

One Slow Foot.

One of your feet walks faster than the other one. People who get lost in the woods travel for hours thinking they are going straight ahead, but they find after awhile that they have been going around in a circle. You can try this, and have a great deal of fun out of it by getting your boy friends to join you on a lawn or other open place. Blindfold them one at a time and start them straight for the gate or some other object about 50-feet away. Not one of them will reach it. Try this and see if you are left-footed or right-footed.

Beauty Is Blood Deep. Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets,—beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

Rowan's Mining Interest.

Much is being said of the mining interest in Rowan at the present time. The Sun is glad to note the conditions. The recent developments at and near Gold Hill have created intense excitement. The abundance of the deposit of copper in the Union mines is reported to be vast and of fabulous wealth. These mines are attracting the attention of mining experts and capitalists from other sections of the country and soon Rowan county will be the center of a great mining district, as was stated in these columns one day last week. Hundreds of hands are already at work, and at least five hundred more, it is said, are to be started soon. This mineral wealth has been lying dormant for a long time, but is now to be opened up, and will become a source of great interest to the county.

Rowan has an abundant of mines. The opening up of the Union mines with the richness found, will attract attention to the other mines, and we may expect to see quite a number being developed at an early day. The mining fever has broken out in real earnest in the county, with great possibilities. There is no telling where it will end.

This is very satisfactory for Rowan, as well as for the State, as it will bring a large amount of money, into the county and into North Carolina.—Salisbury Sun.

Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, be made nettle, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

In the dull season, when only comparatively few people are buying anything, the advertising effort should be increased as the number of possible buyers decreases. It is easier to sell \$10 worth of goods among a thousand people than it is to sell that much among one hundred people. If there are only one hundred to work on, work them hard.—Bates.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 10c, 25c. If C. C. C. fail, druggists refund money.

Business circulars have become a nuisance to every householder, and nineteen-twentieths of them go into the waste of the kitchen without being seen by those to whom they are directed, while the few which happen to reach those who are sought as customers, as a rule find their way into the waste basket.—Philadelphia Times.

No-To-Bac for Fifty Cents. Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c, \$1. All druggists.

TETTER ON THE HANDS.

For several years I was a sufferer from tetter on my hands. It would come in little watery pimples and the itching was almost more than I could stand. The skin was tender and the itching would swell so I could hardly bend my fingers. Sometimes my hands would become perfectly raw from scratching or breaking of the pimples. When I was in this condition I tried one half dozen bottles of Mrs. Joe Person's Remedy and some Wash in 1884, and by the time I took it my hands were cured, and I am now well of the trouble. It has since broken out a little at times, but not enough to inconvenience me or make me try more medicine. I am now well. MRS. M. E. KING. Burlington, N. C., May 27, 1896.

BE CURED OF GRIP!

The Wonderful Results Obtained in the Case of Supt. Davidson.

Now, what is the grip?
Can it be avoided or prevented?
And can it be cured?

Grip is characterized by a continued fever, by a tendency to inflammation of the membranes of the digestive and often the respiratory tracts, by pain in the muscles, and by debility.

The grip in individual cases varies from a slight indisposition to severe forms with grave symptoms—these variations depending wholly upon the health, age, temperament or nervous condition of the person. Those predisposed to rheumatism suffer great pain in the muscles; persons of nervous temperament become low spirited, often have hysteria, and, if not closely watched, have been known to commit suicide. Several cases of this sort have been reported this month in the newspapers. Headache is a constant symptom. The bowels are generally constipated. Whatever form the disease takes there is invariably extreme prostration. The danger to persons in previous healthful condition is slight.

It has been absolutely proven that there is one certain preventive of serious cases of grip; and that there is one remedy for persons suffering with it, or beginning to be convalescent from its attack.

The unexampled public demand for Paine's celery compound during the last two months—and the pro-

prietors of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians, to restore the patient's vitality, to purify the blood of the enervating poison, to restore the nervous system to healthy action and to strengthen the vital organs.

A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting rid of the unnatural unhealthy poisons in the system supplying the body with new blood, arousing the healthful action of the kidneys, liver and digestive organs, and nourishing and upbuilding the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed.

A case well known in Chicago is cited. Mr. Frank E. Davidson, who is one of the most brilliant and best known engineers in the world, had just finished the plans for the great intercepting sewer system of Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well exhausted and took to his bed with an attack of the grip. After a

while the disease not having left him, he was advised to try Paine's celery compound. He was soon back at his office in the department of public works, a well man, and forthwith wrote a letter to the proprietors of the remedy, in which he says:

"I had been told by friends of the wonderful results obtained by them from the use of Paine's celery compound. After my severe attack of the grip I determined to try it. I have already found that my friends' reports were, not at all exaggerated, and I wish to join most cheerfully with them in recommending the remedy to others."

Hundreds of grateful letters have been written to the proprietors of Paine's celery compound since the appearance of grip this year, telling of the perfect recoveries it has effected. The letters come from men and women of many conditions. Few persons are so poor they cannot afford to have this great remedy constantly in the house, and none are so prosperous that for their health's sake they can afford to be without it.

When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.
In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.
